Modern China's Foreign Policy Werner Levi, 1953-01-01 Modern China's Foreign Policy was first published in 1953 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions What are China's objectives in world affairs and what course will she pursue to achieve her goals These are the questions of vital concern to the Western democracies questions that can be approached intelligently only from a knowledge of how China's foreign policy has developed In this illuminating and carefully documented book Professor Levi analyzes China's attitudes and actions toward the rest of the world and clarifies many motivations behind her behavior past and present He traces the development of her foreign relations from the beginning of the modern era of Chinese contacts with Westerners a little more than hundred years ago The emphasis however is on the twentieth century and particularly on the years since the peace settlements of World War I The complex balance of relationships between China and the United States on the one hand and China and the Soviet Union on the other since the end of World War II is discussed in detail Communist doctrine notwithstanding its apparent rigidity is shown to be a conveniently adjustable tool capable of adaptation to the needs and strategies of present day China An integral part of the account is the attempt to single out and interpret the internal forces cultural social and economic that have influenced and shaped China's external policies Thus it is shown that the determinants of China's foreign policy have often been pressures and complexities within the country and that an understanding of the Chinese people and their traditions is essential to nations in their dealings with China
