Manual de computação evolutiva e metaheurística António Gaspar-Cunha, Ricardo Takahashi, Carlos Henggeler Antunes, 2012-06-01 As técnicas computacionais que são hoje denominadas por Computação Evolutiva e por Metaheurísticas se desenvolveram de maneira relativamente independente durante os últimos 40 anos do século XX no seio de duas comunidades científicas que mantiveram relativamente pouco contato

ao longo desse período. Durante esse tempo ambos os conjuntos de técnicas se consolidaram sendo hoje reconhecidos como parte integrante do repertório fundamental de ferramentas da Computação e da Engenharia que possibilitam a síntese de muitos dos sistemas tecnológicos hoje existentes. Apenas no decorrer da última década do século XX se formou nas respectivas comunidades científicas uma consciência das conexões existentes entre esses dois corpos de conhecimento que partilham muitos dos seus princípios e fundamentos. O presente livro foi escrito com o objetivo de constituir uma obra de referência em Língua Portuguesa abrangendo os níveis de graduação e pós-graduação do nosso ensino universitário e político na sequência das edições realizadas da Escola Luso Brasileira de Computação Evolutiva.

Organic Computing Sven Tomforde, Bernhard Sick, 2018-05-07 This book presents the results of the OC DDC 2017. Successful participants have been invited to extend their abstracts submitted to the event towards a full book chapter by taking reviews and feedback received at the event in Bochum into account. Seven of the participants prepared a contribution to this book helped to perform a sophisticated review process and finally came up with interesting articles summarising their current work in the context of Organic Computing. Hence the book also gives an overview of corresponding research activities in the field in Germany for the year 2017. The collection of contributions reflects the diversity of the different aspects of Organic Computing. Furthermore group discussions during the OC DDC resulted in a contribution that aggregates the ideas of the participants related to applied machine learning for Organic Computing systems.
