Biophilic Design Stephen R. Kellert, Judith Heerwagen, Martin Mador, 2011-09-26 When nature inspires our architecture not just how it looks but how buildings and communities actually function we will have made great strides as a society Biophilic Design provides us with tremendous insight into the why then builds us a road map for what is sure to be the next great design journey of our times Rick Fedrizzi President CEO and Founding Chairman U S Green Building Council Having seen firsthand in my company the power of biomimicry to stimulate a wellspring of profitable innovation I can say unequivocally that biophilic design is the real deal Kellert Heerwagen and Mador have compiled the wisdom of world renowned experts to produce this exquisite book it is must reading for scientists philosophers engineers architects and designers and most especially businesspeople Anyone looking for the key to a new type of prosperity that respects the earth should start here Ray C Anderson founder and Chair Interface Inc The groundbreaking guide to the emerging practice of biophilic design This book offers a paradigm shift in how we design and build our buildings and our communities one that recognizes that the positive experience of natural systems and processes in our buildings and constructed landscapes is critical to human health performance and well being Biophilic design is about humanity s place in nature and the natural world s place in human society where mutuality respect and enriching relationships can and should exist at all levels and should emerge as the norm rather than the exception Written for architects landscape architects planners developers environmental designers as well as building owners Biophilic Design The Theory Science and Practice of Bringing Buildings to Life is a guide to the theory science and practice of biophilic design Twenty three original and timely essays by world renowned scientists designers and practitioners including Edward O Wilson Howard Frumkin David Orr Grant Hildebrand Stephen Kieran Tim Beatley Jonathan Rose Janine Benyus Roger Ulrich Bert Gregory Robert Berkebile William Browning and Vivian Loftness among others address The basic concepts of biophilia its expression in the built environment and how biophilic design connects to human biology evolution and development The science and benefits of biophilic design on human health childhood development healthcare and more The practice of biophilic design how to implement biophilic design strategies to create buildings that connect people with nature and provide comfortable and productive places for people in which they can live work and study Biophilic design at any scale from buildings to cities begins with a few simple questions How does the built environment affect the natural environment How will nature affect human experience and aspiration Most of all how can we achieve sustained and reciprocal benefits between the two This prescient groundbreaking book provides the answers

The Rammed Earth House David Easton, Cynthia Wright, 2007 This book is an example of how dramatic innovations frequently have their origins

in the distant past By rediscovering the most ancient of all building materials earth homebuilders can now create structures that set new standards for beauty durability and extraordinarily efficient use of natural resources Rammed earth marks a step into a sustainable future when houses combine aesthetics and practicality with a powerful sense of place The solid masonry walls permit design flexibility while providing year round comfort and minimal need for added heating or cooling From the equatorial tropics to the coldest northern latitudes the builder and resident of a rammed earth house will experience the satisfaction of creating permanence in a world dominated by the disposable **Small is Necessary** Anitra Nelson,2018-01-20 Does small mean less Not necessarily In an era of housing crises environmental unsustainability and social fragmentation the need for more sociable affordable and sustainable housing is vital The answer Shared living from joint households to land sharing cohousing and ecovillages Using successful examples from a range of countries Anitra Nelson shows how eco collaborative housing resident driven low impact living with shared facilities and activities can address the great social economic and sustainability challenges that householders and capitalist societies face today Sharing living spaces and facilities results in householders having more amenities and opportunities for neighbourly interaction Small is Necessary places contemporary models of alternative housing and living at centre stage arguing that they are outward looking culturally rich with low ecological footprints and offer governance techniques for a more equitable and sustainable future *Old-House Journal* ,2004-03 Old House Journal is the original magazine devoted to restoring and preserving old houses For more than 35 years our mission has been to help old house owners repair restore update and decorate buildings of every age and architectural style Each issue explores hands on restoration techniques practical architectural guidelines historical overviews and homeowner stories all in a trusted authoritative voice *Contemporary Southern Vernacular* Jane Frederick,Michael Frederick,2025-09-28 More and more people are flocking to the warm sunny states of the American South but the hot humid climate presents a unique set of challenges to those building or renovating a home Fortunately veteran architects Jane and Michael Frederick are sharing the knowledge they ve accumulated through nearly four decades of designing homes in the Coastal South offering accessible guidance to anyone looking to create their dream home Key Features Displays how the precepts of Southern vernacular architecture refined over generations to respond to the local climate materials and context offer time tested direction for guarding against mold and rot minimizing hurricane damage reducing energy consumption and overcoming other challenges of creating residential buildings in the South Identifies how using the vernacular concepts gives a project a head start on sustainability Presents nine sustainable resilient residential case studies complete with photographs and design sketches This comprehensive guide equips readers to have thoughtful knowledgeable discussions with designers architects and builders on detailing a sustainable resilient house Showing how great home design not only honors the needs of the homeowners but also connects them to the land and its history Contemporary Southern Vernacular provides clear guidance for creating Southern homes that will last a lifetime and beyond

Organic Community (ēmerſion: Emergent Village resources for communities of faith) Joseph R. Myers, 2007-05-01

Community is a fundamental life search and one of the key aspects people look for in a congregation But community can't be forced controlled or easily created The problem says Joseph R Myers is that churches are too focused on developing programs instead of concentrating on environments where community will spontaneously emerge Organic Community challenges key leaders to become environmentalists people who create or shape environments Outlining nine organizational tools for creating a healthy environment Myers shows readers how to diagnose their current situation and implement patterns that will develop possibilities for healthy communities

The Counterfeit Coin Christopher Goetz, 2023-05-12

The Counterfeit Coin argues that games and related entertainment media have become almost inseparable from fantasy In turn these media are making fantasy itself visible in new ways Though apparently asocial and egocentric fantasy has become a key term in social contestations of the emerging medium At issue is whose fantasies are catered to who feels powerful and gets their way and who is left out

Good Green Homes Jennifer Roberts, 2009-09 Green It conjures images of a meadow in spring for some and the color of money for others What does green have to do with our homes In essence green building or sustainable building means being smart about how we use energy water and building materials so that we can live well without needlessly damaging the environment Creating a good green home isn't just about conservation about using less or saving more although that's certainly part of it It's about creating better homes that are easier on the environment less expensive over the long term and more delightful to come home to That's the message Jennifer Roberts wants to share in Good Green Homes the ultimate new guide for people who want to live in comfortable healthy environmentally conscious homes With some simple steps outlined in this book you can save money and do your part to help save the environment For instance using an energy efficient light bulb saves you money It also results in less demand for electricity which in turn results in less pollution from power plants which may help a child with asthma breathe a little easier If you associate green built housing with the unconventional or the quirky tree houses geodesic domes dwellings constructed of tires or soda bottles think again Perfect for homeowners remodelers renters who might be surprised by how much is within their power to change architects builders and interior designers this book lays out seven fundamental principles of green building illustrated with more than 150 color and 20 black and white photographs of more than twenty five homes Jennifer Roberts launched two retail stores in San Francisco specializing in environmentally sensible consumer products including household goods and is a freelance writer and editor on topics that include energy efficient building design and systems
