Syria's Democratic Years Kevin W. Martin, 2015-11-24 The years 1954-1958 in Syria are popularly known as The Democratic Years a brief period of civilian government before the consolidation of authoritarian rule Kevin W Martin provides a cultural history of the period and argues that the authoritarian outcome was anything but inevitable Examining the flourishing broadcast and print media of the time he focuses on three public figures experts whose professions law the military and medicine projected modernity and modeled the new Arab citizen This experiment with democracy however abortive offers a model of governance from Syria's historical experience that could serve as an alternative to dictatorship

National Security, Journalism, and Law in an Age of Information Warfare Senior Fellow Marc Ambinder, Assistant Professor Jennifer R Henrichsen, Professor of Philosophy and Law Connie Rosati, 2024-10-08 National Security Journalism and Law in an Age of Information Warfare helps one understand how secret keepers journalists and sources are navigating unprecedented challenges in an age when trust in government and traditional media is low and the spread of disinformation through social media undermines efforts to inform and protect the public

New Media and Revolution Billie Jeanne Brownlee, 2020-07-16 The Arab Spring did not arise out of nowhere It was the physical manifestation of more than a decade of new media diffusion use and experimentation that empowered ordinary people during their everyday lives In this book Billie Jeanne Brownlee offers a refreshing insight into the way new media can facilitate a culture of resistance and dissent in authoritarian states Investigating the root causes of the Syrian uprising of 2011 New Media and Revolution shows how acts of online resistance prepared the ground for better organised street mobilisation The book interprets the uprising not as the start of Syria's social mobilisation but as a shift from online to offline contestation and from localised and hidden practices of digital dissent to tangible mass street protests Brownlee goes beyond the common dichotomy that frames new media as either a deus ex machina or a means of expression to demonstrate that in Syria media was a nontraditional institution that enabled resistance to digitally manifest and gestate below within and parallel to formal institutions of power To refute the idea that the population of Syria was largely apathetic and apolitical prior to the uprising Brownlee explains that social media and technology created camouflaged geographies and spaces where individuals could protest without being detected Challenging the myth of authoritarian stability New Media and Revolution uncovers the dynamics of grassroots resistance blossoming under the radar of ordinary politics

Nationalism and Islamism in the Kurdistan Region of Iraq Mohammad Salih Mustafa, 2020-11-29 Exploring a new political phenomenon in the Middle East this book studies the reconciliation of nationalism and Islamism by Islamic political parties in the context of nation states Islamism in Kurdistan has become significantly framed by the politics of nationalism Although the concept of religious nationalism has been discussed substantially before this work highlights a new brand of religious nationalism that has emerged as a result of intertwining nationalism and Islamism The focus of this study is on the development of religious nationalism in the

continuously tumultuous region of the Middle East The volume investigates whether Islamism in Kurdistan is limited by the politics of nationalism which is an accentuated example for the whole Middle East region By looking at the Kurdistan Islamic Union KIU the research studies Islamism in the Kurdistan Region to elaborate on this new type of politics This is essentially due to the absence of a politically recognised nation state which renders Kurds to be particularly susceptible to various manifestations of nationalism Offering an account on the spread of the Muslim Brotherhood in the Kurdistan Region this original research on Kurdish nationalism will be a key text for students and researchers interested in nationalism Islamism and Middle East politics

Democracy's Double-Edged Sword Catie Snow Bailard, 2014-09-11 Playing into the hands of neither the cyber optimists nor the cyber pessimists this book makes a major contribution to our understanding Talia Stroud author of *Niche News The Politics of News Choice* The beauty of democracy is not only that citizens can vote a candidate into office but that they can also vote one out As digital media has grown omnipresent it becomes more important for political scientists and communication scholars to understand its influence on all aspects of the political process from campaigning to governance Catie Snow Bailard argues that the Internet by altering the quantity and range of information available to citizens directly influences the ability of individuals to evaluate government performance It also affects public satisfaction with the quality of available democratic practices and helps motivate political activity and organization Bailard originates two theories for democratization specialists to consider mirror holding and window opening which she tests using data collected from dozens of countries and two randomized field experiments Mirror holding explores how accessing the Internet allows citizens to see a more detailed and nuanced view of their own government's performance Window opening however enables those same citizens to glimpse how other governments perform particularly in comparison to their own This book offers a robust empirical foundation for testing the Internet's effects on democratic attitudes and reminds us that access to information does not necessarily ensure that democracy will automatically flourish An outstanding book on democracy and the Internet highly original Choice

Strategic Communication, Social Media and Democracy W. Timothy Coombs, Jesper Falkheimer, Mats Heide, Philip Young, 2015-08-11 Today almost everyone in the developed world spends time online and anyone involved in strategic communication must think digitally The magnitude of change may be up for debate but the trend is unstoppable dramatically reconfiguring business models organisational structures and even the practice of democracy Strategic Communication Social Media and Democracy provides a wholly new framework for understanding this reality a reality that is transforming the way both practitioners and theoreticians navigate this fast moving environment Firmly rooted in empirical research and resisting the lure of over optimistic communication dreams it explores both the potential that social media offers for changing the relationships between organisations and stakeholders and critically analyses what has been achieved so far This innovative text will be of great interest to researchers educators and advanced students in strategic communications public relations corporate communication new media social media and communication management

Neoliberal Governmentality and the Future of the State in the Middle East and North Africa Emel

Akçali,2016-01-26 This volume is a theoretical analysis of the current crises of state and societal transformations in the Middle East and North Africa The emphasis on the impact and limits of neoliberal governmentality places these uprisings within the specific contextual and structural environment of neoliberal globalization *Twilight of the Social* Henry A.

Giroux,2015-12-03 In *The Twilight of the Social* Henry A Giroux looks at the decline of social spaces which enable grievances to be dealt with and considers new ways in which citizens can create social spaces today After decades of neoliberalism today s young people lack a voice and are saddled with economic political and social conditions that have rendered them marginalised and ultimately disposable Giroux covers a broad range of topics from youth and the promise of new media technologies the economic Darwinism of globalisation and the need for a renewed democratic culture *The Twilight of the Social* is a compelling account of the erosion in recent decades of the very idea of the social in America and other societies

Human Rights, Digital Society and the Law Mart Susi,2019-05-31 The Internet has created a formidable challenge for human rights law and practice worldwide International scholarly and policy oriented communities have so far established a consensus regarding only one main aspect human rights in the internet are the same as offline There are emerging and ongoing debates regarding not only the standards and methods to be used for achieving the sameness of rights online but also whether classical human rights as we know them are contested by the online environment The internet itself in view of its cross border nature and its ability to affect various areas of law requires adopting an internationally oriented approach and a perspective strongly focused on social sciences In particular the rise of the internet enhanced also by the influence of new technologies such as algorithms and intelligent artificial systems has influenced individuals civil political and social rights not only in the digital world but also in the atomic realm As the coming of the internet calls into question well established legal categories a broader perspective than the domestic one is necessary to investigate this phenomenon This book explores the main fundamental issues and practical dimensions related to the safeguarding of human rights in the internet which are at the focus of current academic debates It provides a comprehensive analysis with a forward looking perspective of bringing order into the somewhat chaotic online dimension of human rights It addresses the matter of private digital censorship the apparent inefficiency of existing judicial systems to react to human rights violations online the uncertainty of liability for online human rights violations whether the concern with personal data protection overshadows multiple other human rights issues online and will be of value to those interested in human rights law and legal regulation of the internet **Routledge Handbook on Arab Cinema** Noha Mellor,2024-06-28 Building on a growing body of literature this Handbook provides an up to date and authoritative survey of Arab cinema The collection includes contributions from academics and filmmakers from across the Arab region Europe and North America and fills a gap in media studies by examining the entire Arab region rather than focusing on one country or theme The Handbook also sheds light on the

heterogeneity of Arab filmmaking not only within the Arab region but also globally within diasporic communities It is split into six parts Part 1 provides an overview of each sub region in the Arab world including a chapter on Arab animation films Parts 2 3 and 4 address topical themes encompassing the representation of gender religion and identity politics in Arab cinema Part 5 discusses the theme of diaspora and Part 6 concludes the volume with reflective essays penned by selected diasporic filmmakers This book is an essential reference for Arab media and cinema scholars students and professional filmmakers With case studies from across the Arab region it s also a valuable resource for anyone interested in film and media global cinema and the Middle East generally

The Aesthetics of Rule and Resistance Lisa Bogerts,2022-03-11 Effective visual communication has become an essential strategy for grassroots political activists who use images to publicly express resistance and make their claims visible in the struggle for political power However this aesthetics of resistance is also employed by political and economic elites for their own purposes making it increasingly difficult to distinguish from the aesthetics of rule Through illuminating case studies of street art in Buenos Aires Bogot Caracas and Mexico City The Aesthetics of Rule and Resistance explores the visual strategies of persuasion and meaning making employed by both rulers and resisters to foster self legitimization identification and mobilization

Parliamentary Representation of Political Minorities Osnat Akirav,2024-04-01 This book assesses parliamentary speeches given by Arab representatives in the Israeli Knesset over the last 70 years in order to throw light on the representation of political minorities It examines several political identities available to legislators with intersectional representation including gender religion and nationality and considers the ways in which legislators utilise these various identities when representing their constituencies to further their political aims The book also puts forward a new theoretical framework to better assess intersectional representation especially in multi national settings It will appeal to all those interested in public policy political representation and comparative politics as well Middle Eastern politics

Social Media in Southeast Turkey Elisabetta Costa,2016-02-29 This book presents an ethnographic study of social media in Mardin a medium sized town located in the Kurdish region of Turkey The town is inhabited mainly by Sunni Muslim Arabs and Kurds and has been transformed in recent years by urbanisation Elisabetta Costa uses her 15 months of ethnographic research to explain why public facing social media is more conservative than offline life Yet at the same time social media has opened up unprecedented possibilities for private communications between genders and in relationships among young people Costa reveals new worlds of intimacy love and romance She also discovers that when viewed from the perspective of people s everyday lives political participation on social media looks very different to how it is portrayed in studies of political postings separated from their original complex and highly socialised context neoliberalism and political events

Rated Agency Michel Feher, 2021-09-14 The hegemony of finance compels a new orientation for everyone and everything companies care more about the moods of their shareholders than about longstanding commercial success governments subordinate citizen welfare to appeasing creditors and individuals are concerned less with immediate income from labor than appreciation of their capital goods skills connections and reputations That firms states and people depend more on their ratings than on the product of their activities also changes how capitalism is resisted For activists the focus of grievances shifts from the extraction of profit to the conditions under which financial institutions allocate credit While the exploitation of employees by their employers has hardly been curbed the power of investors to select investees to decide who and what is deemed creditworthy has become a new site of social struggle In clear and compelling prose Michel Feher explains the extraordinary shift in conduct and orientation generated by financialization Above all he articulates the new political resistances and aspirations that investees draw from their rated agency

Human Factors in Effective Counter-Terrorism Richard Warnes, 2024-02-29 This book seeks to provide a comparative assessment of the significance of human factors in effective counter terrorism The phrase human factors is used to describe personal relationships individual capabilities effective leadership technical interface organisational culture and the community engagement necessary to effectively minimise counter and control the threat of terrorism Unlike many works in the field this book is constructed around the input of experienced knowledge from over 170 semi structured interviews of specialist military policing intelligence and security practitioners those actors actually involved in countering terrorism These practitioners come from seven countries the United Kingdom Ireland France Spain Israel Turkey and the United States all of which have suffered over the years from different types of terrorist threat and responded

with a mixture of counter terrorist measures Where military practitioners also discussed overseas counter insurgency measures that material has been included since terrorism forms a key aspect of such wider insurgencies The resulting interview data was analysed through a variant of Grounded Theory to identify key emerging themes and issues both positive and negative relevant to human factors in the individual countries and more generically This book incorporates the informed operational experiences and insights of the interviewees while seeking to provide examples of successful counter terrorist measures at the strategic operational and tactical levels This book will be of much interest to students of counter terrorism defence studies and security studies in general *Choice* ,2008 The Makers of Modern Syria Sami
