International Handbook of Green Criminology Nigel South, Avi Brisman, 2020-04-14 The Routledge International Handbook of

Green Criminology was the first comprehensive and international anthology dedicated to green criminology. It presented green criminology to an international audience, described the state of the field, offered a description of a range of environmental issues of regional and global importance, and argued for continued criminological attention to environmental crimes and harms, setting an agenda for further study. In the six years since its publication, the field has continued to grow and thrive. This revised and expanded second edition of the Handbook reflects new methodological orientations, new locations of study such as Asia, Canada, and South America, and new responses to environmental harms. While a number of the original chapters have been revised, the second edition offers a range of fresh chapters covering new and emerging areas of study such as conservation criminology, eco feminism, environmental victimology, fracking, migration, and eco rights and e waste. This handbook continues to define and capture the field of green criminology and is essential reading for students and researchers engaged in green crime and environmental harm.

The Routledge International Handbook of Research on Teaching Thinking Rupert Wegerif, Li Li, James C. Kaufman, 2015-05-22. The Routledge International Handbook of Research on Teaching Thinking is a comprehensive guide to research on teaching thinking. Teaching thinking is key to growing a more successful economy, is needed for increased democratic engagement, and is vital for the well being of individuals faced with the complexity of a globalised world. However, there are questions about what we mean by thinking, how best to teach it, and how best to assess it, and it is these questions that this handbook explores and addresses. Containing surveys and summaries of international cutting edge research on every aspect of teaching thinking in a range of contexts, the handbook is thorough in its delivery, examining many different approaches and methods to help readers understand what teaching thinking is and how we can best take this movement forward. Key topics include: Theoretical perspectives on teaching thinking; Approaches for teaching thinking; Developing creative thinking; Developing critical thinking and metacognition; The assessment of thinking; Teaching thinking in the context of STEM; Collaborative thinking and new technology; Neuro educational research on teaching thinking. This book is an essential guide for policy makers, teachers, and researchers who are interested in teaching thinking.

The Routledge International Handbook of Critical Autism Studies Damian Milton, Sara Ryan, 2022-12-22. This handbook provides an authoritative and up to date overview of Critical Autism Studies and explores the different kinds of knowledges and their articulations, similarities and differences across cultural contexts, and key tensions within this subdiscipline. Critical Autism Studies is a developing area occupying an exciting space of development within learning and teaching in higher education. It has a strong trajectory within the autistic academic and advocate community in resistance and response to the persistence of autism, retaining an identity as a genetic disorder of the brain. Divided into four parts: Conceptualising autism; Autistic identity; Community and culture; Practice and comprising 24 newly commissioned chapters written by academics and activists, it explores areas of education, Critical Race Theory, domestic violence and abuse, sexuality, biopolitics, health, and social care practices. It will be of interest to all scholars and students of disability studies, sociology,

Handbook of the Crimes of the Powerful** Gregg Barak,2015-06-05 Across the world most people are well aware of
ordinary criminal harms to person and property Often committed by the powerless and poor these individualized crimes are
catalogued in the statistics collected annually by the FBI and by similar agencies in other developed nations In contrast the
more harmful and systemic forms of injury to person and property committed by powerful and wealthy individuals groups and
national states are neither calculated by governmental agencies nor annually reported by the mass media As a result most
citizens of the world are unaware of the routinized crimes of the powerful even though they are more likely to experience
harms and injuries from these types of organized offenses than they are from the atomized offenses of the powerless
Research on the crimes of the powerful brings together several areas of criminological focus involving organizational and
institutional networks of powerful people that commit crimes against workers marketplaces taxpayers and political systems
as well as acts of torture terrorism and genocide This international handbook offers a comprehensive authoritative and
structural synthesis of these interrelated topics of criminological concern It also explains why the crimes of the powerful are
so difficult to control Edited by internationally acclaimed criminologist Gregg Barak this book reflects the state of the art of
scholarly research covering all the key areas including corporate global environmental and state crimes The handbook is a
perfect resource for students and researchers engaged with explaining and controlling the crimes of the powerful
