Peace Operations Seen From Below U N Missions And Local People:

Peace Operations Seen from Below Béatrice Pouligny, 2006 Explores many ways local populations think about and respond to peacekeepers Timely reflection on nature of peacekeeping operations occupation and conflict resolution or escalation Engagingly written suitable for undergraduate level courses Cambodia Somalia Mozambique El Salvador Bosnia Haiti Sierra Leone all have been the subject of interventions by UN peacekeeping forces sent to stabilize these societies torn by political and ethnic conflict Yet little is known or has been investigated about how local inhabitants interact with and respond to peacekeepers in their midst In *Peace Operations Seen From Below* B atrice Pouligny argues that much of what is being rebuilt in societies emerging from war or in some cases what is continuing to be destroyed often lies in the ordinary daily lives of both local populations and the staff of UN peacekeeping missions Pouligny s close analysis of UN interventions based on first hand observation of how local people intermingle with UN soldiery and civilians sheds light on a neglected but crucial dimension of international peace enforcement By foregrounding the experiences of ordinary people she renders visible those who are often hidden within the fog of both war and peace *How Peace Operations Work* Jeni Whalan, 2013-12 When powerful states and international organizations decide to respond to violent conflict around the world their preferred policy instrument is to deploy peace operations institutions that must serve both the international politics of their creation as well as the fractured local societies they aim to transform But while their international face has been widely analysed we know less about how peace operations function on the ground In *How Peace Operations Work* Jeni Whalan addresses this critical dimension of peacekeeping She analyses the effectiveness of peace operations through a local lens asking new questions about how they work and generating new insights about how they might be made to work better What emerges is the overriding importance of local legitimacy the perception among local actors that a peace operation its personnel and its objectives are right fair and appropriate *How Peace Operations Work* demonstrates that when local actors perceive a peace operation to be legitimate they are more likely to help the operation achieve its goals This book combines novel theoretical progress with rich empirical work drawing on in depth case studies of the United Nations Transitional Authority in Cambodia UNTAC and the Regional Assistance Mission to Solomon Islands RAMSI to propose a new approach to studying the effectiveness of peace operations and a set of practical recommendations that challenge key elements of prevailing peace operations policy *Sex in Peace Operations* Gabrielle Simm, 2013-04-25 This book critically re evaluates the problem of sex between international personnel and local people and offers regulatory solutions to legal problems **UN Peace Operations and International Policing** Charles T. Hunt, 2014-09-15 This book addresses the important question of how the United Nations UN should monitor and evaluate the impact of police in its peace operations UN peace operations are a vital component of international conflict management Since the end of the Cold War one of the foremost developments has been the rise of UN policing UNPOL Instances of UNPOL action have increased dramatically in number and have evolved

from passive observation to participation in frontline law enforcement activities Attempts to ascertain the impact of UNPOL activities have proven inadequate This book seeks to redress this lacuna by investigating the ways in which the effects of peace operations and UNPOL in particular are monitored and evaluated Furthermore it aims to develop a framework tested through field research in Liberia for Monitoring and Evaluation M E that enables more effective impact assessment By enhancing the relationship between field level M E and organisational learning this research aims to make an important contribution to the pursuit of more professional and effective UN peace operations This book will be of much interest to students of peace operations conflict management policing security studies and IR in general *Peace Operations in the Francophone World* Bruno Charbonneau, Tony Chafer, 2014-05-09 This book critically examines peacebuilding humanitarian intervention and peace operation practices and experiences in francophone spaces Francophone Africa as a specific space is relatively little studied in the peace and security literature despite the fact that almost half of all peacekeepers are deployed or were deployed in this part of Africa during the last decade It is an arena for intervention that deserves more serious attention if only because it provides fertile ground for exploring the key questions raised in the peacekeeping and peacebuilding literature For instance in 2002 a French operation Licorne was launched and in 2003 a UN force was deployed in C te d Ivoire alongside the French force there Filling a gap in the current literature *Peace Operations in the Francophone World* critically examines peacekeeping and peacebuilding practices in the francophone world including but not limited to conflict prevention and resolution security sector reform SSR francophone politics and North South relations The book explores whether peace and security operations in francophone spaces have exceptional characteristics when compared with those carried out in other parts of the world and assesses whether an analysis of these operations in the francophone world can make a specific and original contribution to wider international debates about peacekeeping and peacebuilding This book will be of much interest to students of peacekeeping peacebuilding peace and conflict studies African politics security studies and IR in general *Peace Operations* Paul F. Diehl, Alexandru Balas, 2014-06-05 As peace operations become the primary mechanism of conflict management used by the UN and regional organizations understanding their problems and potential is essential for a more secure world In this revised and updated second edition Paul Diehl and Alexandru Balas provide a cutting edge analysis of the central issues surrounding the development operation and effectiveness of peace operations Among many features the book Traces the historical development of peace operations from their origins in the early 20th century through the development of modern peacebuilding missions and multiple simultaneous peace operations Tracks changes over time in the size mission and organization of peace operations Analyses different organizational financial and troop provisions for peace operations as well as assessing alternatives Lays out criteria for evaluating peace operations and details the conditions under which such operations are successful Drawing on a wide range of examples from those between Israel and her neighbours to more recent operations in Bosnia Somalia Darfur East Timor and the Congo this new edition

brings together the body of scholarly research on peace operations to address those concerns It will be an indispensable guide for students practitioners and general readers wanting to broaden their knowledge of the possibilities and limits of peace operations today *Sexual Exploitation and Abuse in UN Peacekeeping* Kelly Neudorfer, 2014-12-31 While serving in United Nations peacekeeping missions some peacekeepers sexually exploit and abuse the local population a fact which erupted into a scandal published by many media outlets in 2005 and 2006 This book analyzes factors which may increase the risk of such behavior as well as measures the UN has taken which may have decreased the number of incidents Using a mixed methods design the book argues that previous analyses have been largely undertheorized with the exception of gender theories and turns to criminology to look at the phenomenon of so called Sexual Exploitation and Abuse SEA in a new light The three risk factors found to increase the likelihood of SEAs are an environment of sexual violence in the mission s host country the presence of internally displaced persons close to the mission and a lack of supervised or regulated contact with the local population In turn the presence of an office whose purpose is to collect reports and investigate allegations training on preventing SEAs for the incoming peacekeepers and campaigns to empower the local population on these issues all seem to reduce the risk of sexual exploitation and abuse occurring By using a statistical analysis followed by case studies of the UN peacekeeping missions in the Democratic Republic of the Congo Liberia and the Golan Heights the author demonstrates the importance these factors have in the peacekeepers behavior on the mission providing a solid basis upon which future policy recommendations can be made *Building Sustainable Peace* Arnim Langer, Graham K. Brown, 2016-06-17 Countries emerging from civil war or protracted violence often face the daunting challenge of rebuilding their economy while simultaneously creating the political and social conditions for a stable peace The implicit assumption in the international community that rapid political democratisation along with economic liberalisation holds the key to sustainable peace is belied by the experiences of countries such as Iraq and Afghanistan Often the challenges of post conflict reconstruction revolve around the timing and sequencing of different reform that may have contradictory implications Drawing on a range of thematic studies and empirical cases this book examines how post conflict reconstruction policies can be better sequenced in order to promote sustainable peace The book provides evidence that many reforms that are often thought to be imperative in post conflict societies may be better considered as long term objectives and that the immediate imperative for such societies should be people centred policies **The Oxford Handbook of International Organizations** Jacob Katz Cogan, Ian Hurd, Ian Johnstone, 2016-11-24 Virtually every important question of public policy today involves an international organization From trade to intellectual property to health policy and beyond governments interact with international organizations in almost everything they do Increasingly individual citizens are directly affected by the work of international organizations Aimed at academics students practitioners and lawyers this book gives a comprehensive overview of the world of international organizations today It emphasizes both the practical aspects of their organization and operation and the

conceptual issues that arise at the junctures between nation states and international authority and between law and politics While the focus is on inter governmental organizations the book also encompasses non governmental organizations and public policy networks With essays by the leading scholars and practitioners the book first considers the main international organizations and the kinds of problems they address This includes chapters on the organizations that relate to trade humanitarian aid peace operations and more as well as chapters on the history of international organizations The book then looks at the constituent parts and internal functioning of international organizations This addresses the internal management of the organization and includes chapters on the distribution of decision making power within the organizations the structure of their assemblies the role of Secretaries General and other heads budgets and finance and other elements of complex bureaucracies at the international level This book is essential reading for scholars practitioners and students alike

Peacekeeping Under Fire Robert A. Rubinstein, 2015-11-17 The international community increasingly responds to civil wars humanitarian crises and other intrastate conflicts through the instrument of UN peacekeeping Nearly all of these interventions take place in non Western areas and involve interactions among militaries and nongovernmental organizations from all around the globe In this wide ranging book Rubinstein draws on decades of his own research on peacekeeping and on other current and historical cases to develop a broad understanding of the roles that culture plays in peacekeeping s success or failure *Peacekeeping under Fire* shows that cultural considerations are key elements at all levels of peacekeeping operations Culture influences what happens between peacekeepers and local populations how military and nongovernmental organizations interact and even how missions are planned and authorized *Peacekeeping under Fire* analyzes how political symbolism and ritual are critical to peacekeeping and demonstrates how questions of power identity and political perception emerge from the cultural context of peacekeeping

Peacekeeping in Africa Marco Wyss, Thierry Tardy, 2014-02-24 This book provides a comprehensive analysis of peacekeeping in Africa Recent events in the Democratic Republic of Congo DRC and Mali remind us that violence remains endemic and continues to hamper

the institutional social and economic development of the African continent Over the years an increasing number of actors have become involved in the effort to bring peace to Africa The United Nations UN has been joined by regional organisations most prominently the African Union AU and the European Union EU and by sub regional organizations like the Economic Community of West African States ECOWAS Meanwhile traditional and emerging powers have regained an interest in Africa and as a consequence in peacekeeping This book provides a comprehensive analysis of the trends and challenges of international peacekeeping in Africa with a focus on the recent expansion of actors and missions Drawing upon contributions from a range of key thinkers in the field Peacekeeping in Africa concentrates on the most significant and emerging actors the various types of missions and the main operational theatres thus assessing the evolution of the African security architecture and how it impacts on peace operations This book will be of much interest to students of peacekeeping and peace operations African politics war and conflict studies security studies and IR

The End of Peacekeeping Marsha Henry, 2024-03-12 In *The End of Peacekeeping* Marsha Henry makes use of feminist postcolonial and anti militarist frameworks to expose peacekeeping as an epistemic power project in need of abolition Drawing on critical concepts from Black feminist thought and from postcolonial and critical race theories Henry shows how contemporary peacekeeping produces gender and racial inequalities through increasingly militarized strategies The book's intersectional analysis of peacekeeping is based on data amassed through more than fifteen years of ethnographic fieldwork on peacekeeping missions and training centers around the world including interviews with UN peacekeepers humanitarian aid personnel and local populations Henry demonstrates how focus on the policy and practice of peacekeeping has obscured the geopolitical knowledge project at peacekeeping's root allowing its harms to persist unquestioned by mainstream scholarship Arguing that we must recover critical theoretical contributions that have been sidelined within the field she brings the insights of feminist and postcolonial scholarship to bear on peacekeeping studies whose production of empirical data and evidence continues to provide the justification and foundation for policy and global governance actions Revealing that peacekeeping is not the benign apolitical project it is often purported to be this book encourages readers to imagine and enact alternative futures to peacekeeping

Evaluating Peacekeeping Missions Sarah-Myriam Martin- Brûlé, 2016-07-15 This book offers a new perspective on peace missions in intra state wars based on comparative field research In theoretical terms this book proposes a new definition of peace operation success based on two crucial elements the re establishment of order and the accomplishment of the mandate The work presents a new typology for assessing peace operations as failures partial failures partial successes or successes This focus on blurry outcomes provides a clearer theoretical framework to understand what constitutes successful peace operations It explains the different outcomes of peace operations based on the type of success failure by outlining the effect s of the combination of the key ingredients strategy and the type of interveners Empirically this book tests the saliency of the theoretical framework by examining the peace operations which took place in Somalia Sierra Leone and Liberia This book refutes the classification of these three cases as the worst context for transitional politics and demonstrates that peace operations may succeed partially or totally in challenging contexts and that the diverse outcomes are better explained by the type of intervener and the strategy employed than by the type of context This work shows that for a peace operation in an intra state war the adoption of a deterrence strategy works best for re establishing order while the involvement of a great power facilitates the accomplishment of the mandate This book will be of much interest to students of peacekeeping conflict resolution civil wars security studies and IR in general

Entangled Peace Ignasi Torrent, 2021-08-30 This book unfolds an exploratory journey intended to scrutinise the suitability of entanglements and relations as a mode of thinking and seeing peacebuilding events Through a reflection upon the UN s limited results in the endeavour towards securing lasting peace in war torn scenarios Torrent critically engages with three relevant debates in contemporary peacebuilding literature including the inclusion of the locals the achievement of organisational system wide coherence and

the increasingly questioned agential condition of peacebuilding actors Inattentive to the relational vulnerability of involved stakeholders it is suggested that the UN seeks to secure a totalising modern distory defined in the book as a story that undoes other stories Whilst affirming the entangled ontogenesis of actors and processes in the conflict affected configuration Entangled Peace also delves into a cautionary argument about what the author refers to as entanglement fetishism namely the celebratory normative deterministic and exclusionary projection of a relational world Inspired by Alfred North Whitehead Entangled Peace is an invitation to speculate over the peacebuilding milieu and by extension the broader theatre of the real as radical openness in which events emanate from the collision of an infinite multiplicity of possible worlds *African Peacekeeping Training Centres* Anne Flaspöler,2018-10-26 Peacekeeping training centres play a crucial role in preparing peacekeepers for their deployment However despite their popularity within the international community as a tool for achieving international security development and state building objectives they have not received a great deal of analysis or academic attention This book provides an in depth analysis of peacekeeping training in Africa tracing how centres have adapted to the operational and normative changes of peace operations over time and raising questions about the expectations attached to these training efforts and their impact The book examines training content and methods in detail exploring the potential of peacekeeping training centres as sites for socialisation and diffusing international norms in an effort to change and shape peacekeepers behaviour The analysis is based on two contrasting case studies selected to show the spectrum of training centres operating in Africa namely the Kofi Annan International Peacekeeping Training Centre KAIPTC in Accra Ghana and the African Centre for the Constructive Resolution of Disputes ACCORD in Durban South Africa At a time when impact is being determined by the number of course attendees this book provides an important critical assessment of training efforts and what they are supposed to achieve It will be of interest to scholars and practitioners within the fields of international security peacekeeping and African development *Morality of Peacekeeping* Daniel H. Levine,2013-12-11 Peacekeeping peace enforcement and stability operations ask soldiers to use violence to create peace defeat armed threats while having no enemies and uphold human rights without taking sides The challenges that face peacekeepers cannot be easily reduced to traditional just war principles Built on insights from care ethics case studies including Darfur the Democratic Republic of the Congo Haiti and Liberia and scores of interviews with peacekeepers trainers and planners in the field in Africa India and more Daniel H Levine sheds light on the challenges of peacekeeping And he asserts that the traditional holy trinity of peacekeeping principles consent impartiality and minimum use of force still provide the best moral guide for peacekeepers Studying 'Effectiveness' in International Relations Hendrik Hegemann,Regina Heller,Martin Kahl,2012-12-18 The question of how effective political tools actually are is among the most hotly debated in contemporary IR theory There is no unanimity how to even measure the effectiveness and impact different political measures produce This book comprehensively introduces social science students and scholars to the various fields of effectiveness and

impact research in the study of international relations
