Película La Vida Conyugal:

Casting Masculinity in Spanish Film Mary T. Hartson, 2017-09-13 The rise of consumerism in the twentieth and twenty first centuries radically changed the way we perceive ourselves and the world around us And as it has throughout history the social construct of ideal masculinity both reflects and responds to that lived reality helping individuals adapt Through a close study of Spanish film of the twentieth and twenty first centuries this book investigates hegemonic or dominant masculinity in the wake of dramatic consumer changes that occurred in Spain It explores the ways in which masculine identity as represented in Spanish film positions itself in relation to desire and consumption focusing especially on representations of hegemonic masculinity from the almost 40 year dictatorship of General Francisco Franco through the transition to democracy and into the early 1990s Using psychoanalytic theory as employed primarily by Todd McGowan and Slavoj i ek this book analyzes cinematic representations of hegemonic masculine models along with those portrayed as less favorable to understand how political social and economic changes in Spain in the twentieth and early twenty first centuries affect the process of masculine identity formation In the shift from a society of prohibition to a society of commanded enjoyment hegemonic masculinity as represented in Spanish film changes dramatically initially organizing itself around prohibition and self renunciation in the early Franco dictatorship and later with neoliberal reforms and mass media promotion of consumerist values starting in the 1950s reorienting itself around desire and enjoyment embodied for example in the sexually promiscuous fashionable young man of the 1970s Personal pleasure and the satisfaction of one s desires replace submission obedience and self abnegation leading to a reconstruction of masculine identities in a social context that appears increasingly fragmented plural and individualistic The primary innovation of this text involves the repositioning of consumerism as a fundamental force in the formation of Spanish masculinity and showing how widely disseminated masculine models serve to accommodate political social and economic demands **Quince directores del cine mexicano** Alejandro Medrano

Historia mundial del cine I. II Gian Piero Brunetta, 2012-11-02 En su conjunto el cine estadounidense parece un territorio idílico en el que aplicar con ptimos resultados las lecciones de los historiadores de los Annales donde la historia breve y la de larga duración la superficial y la profunda la de los hechos y la de la mentalidad la del imaginario y la económica pueden coexistir sostenerse iluminarse e incorporarse unas a otras Los conjuntos a los que he procurado dar más valor y en torno a los que he hecho trabajar a mis colaboradores han sido los siguientes los géneros fundamento y estructura portante del cine estadounidense los ritos y divos y el papel de Hollywood como fábrica de sueños la leyenda como patrimonio y fuente de inspiración constante la contribución fundacional de las minorías étnicas y de las múltiples raíces culturales a la construcción de una identidad sujeta a diversas transformaciones el papel del paisaje la interferencia de la política y las formas de presión y de control ideológico y cultural y por último el desarrollo de la economía el mercado y las transformaciones de los modos de consumo desde los nickelodeones hasta la llegada de la era televisiva y los grandes éxitos de las últimas décadas Con estas palabras sintetiza Gian Piero Brunetta el contenido y la orientación de estos dos magníficos volúmenes Un empeño difícil dada la envergadura y complejidad de la empresa pero con un resultado incuestionable el lector tiene entre sus manos una de las visiones de conjunto más completas y ambiciosas publicadas hasta la fecha sobre la cinematografía de los Estados Unidos cuya consulta será ineludible para cualquiera que quiera penetrar o profundizar en la realidad de una industria que para muchos es sinónimo de cine El segundo volumen cuenta con un capítulo de Javier H Estrada en el que se analizan las principales tendencias del cine norteamericano en la primera década del siglo XXI

Cuando el cine español buscó una tercera vía (1970-1980) Asión Suñer, Ana, 2019-01-08 El periodo tardofranquista supuso el comienzo de toda una serie de cambios políticos económicos sociales y culturales que tuvieron su punto de inflexión en la muerte de Franco y el fin de la dictadura La Tercera Vía es el espejo donde pueden leerse muchas de estas transformaciones Se trata de una tendencia cinematográfica impulsada por el productor José Luis Dibildos que apostó por películas a medio camino entre el cine comercial y el cine de autor Resulta interesante observar a través de sus protagonistas Roberto Bodegas o José Sacristán el papel que desempeñaron los años setenta esta corriente ya que aportó toda una serie de comedias que incluyeron una cierta perspectiva crítica sobre la realidad española de aquel instante

El cambio ya está aquí. 50 películas para entender la Transición española Ana Asión Suñer, 2018-09-12 La segunda mitad del siglo XX en España estuvo caracterizada por una serie de cambios que tuvieron su punto de inflexión con la muerte de Franco y el fin de la dictadura una sucesión de transiciones y transformaciones que sin duda marcaron el devenir de la sociedad actual El recorrido que se propone con las cincuenta películas seleccionadas pretende mostrar cómo afectaron todos

estos cambios sociales económicos políticos culturales y emocionales a la población española los trabajos que hablan de la apertura de España al exterior y la llegada de la modernidad pero también de la salida de un Régimen que durante cuarenta años había paralizado en muchos sentidos al país

Las películas del "art cinema" y sus públicos Valeria Camporesi, 2023-10-05 En cuanto al cine los años setenta es una década compleja para el discurso de la historia De hecho normalmente se acopla o bien a la etapa de los Nuevos Cines o a la denostada etapa del cine de los ochenta El recorrido que se propone en estas páginas tiene un doble objetivo Por un lado pretende contribuir a perfeccionar la reconstrucción de la historia del cine global en los años setenta ligándola a un caso muy concreto el del Estado español a menudo considerado marginal y por el otro aspira a reencuadrar la forma en la que se tiende a conceptualizar la relación entre las películas y la historia en este país La ambición es que el lector encuentre en estas páginas no solo una reconsideración de lo que ocurre con la producción cinematográfica en España en la década de los setenta y su relevancia para comprender lo que ocurre en el marco global sino también una manera diferente de pensar el tardofranquismo y la Transición
