Pella Dutch Door:

The Palimpsest, 1964 Prominent Dutch American Entrepreneurs C. Carl Pegels, 2011-08-01 The book presents the stories of the more successful Dutch American entrepreneurs active in the United States with some going back as far as 400 years The majority of the entrepreneurs covered in the book were active during the past 150 years Each of the individuals covered represent an enterprise that was well known during its respective era In some of the cases the individuals were better known than the enterprises they represented and some became historic figures Some of the more famous Dutch American entrepreneurs are Cornelius Vanderbilt and his son William Vanderbilt transportation entrepreneurs in the nineteenth century Also famous during the early nineteenth century was DeWitt Clinton the driving force behind the building of the Erie Canal During the twentieth century there were such famous Dutch American entrepreneurs as Cecil B DeMille Darryl Zanuck and others in the entertainment industry The most successful entrepreneurs still alive today are the billionaire businessmen the Koch brothers who own the multibillion dollar Koch Industries an oil and chemical industry firm The book's audience consists of academics the public and specifically the Dutch American public numbering from 6 to 10 million people The book is also an important source book and reader for college courses in Entrepreneurship American History Culture Society and Economy *Vernacular Buildings* Allen Noble, 2013-11-27 Constancy permits the evolution of types and characteristics to be identified even in widely spread locations It helps trace the origins of structures despite later modifications And change allows one to trace the effects of difference in environment fashion cultural ideas and economic influences Change and constancy operate together although one may or other may dominate at a particular time and place In *Vernacular Buildings* Allen Noble extends the global survey contained in his earlier highly successful *Traditional Buildings* to cover vernacular buildings and dwellings around the world In a truly comprehensive account he ranges from the fazenda of the pioneer Brazilian settlers the Masai dwellings of Tanzania and the gothic houses of Shanghai to Virginia Hall and Parlor houses the thatched dwellings of the Eifel region of Germany and the three decker houses of New York Acknowledging the value of archival research the author is also firmly convinced of the importance of field observation and the book is extensively illustrated with photographs from his own personal collection With a comprehensive bibliography and incorporating new material from cultural geographers historians folklorists and anthropologists *Vernacular Buildings* is a unique survey that will be welcomed by specialists and enthusiasts alike Iowa Letters Johannes Stellingwerff, 2004 Stellingwerff Free U of Amsterdam and Swierenga history Hope College Holland present an expanded edition of the original Dutch text published under the title *Amsterdamse Emigranten Buiten Schipperheijn* 1976 The text features some 215 immigrant letters relating to the midwestern frontier from archives and private holdings on both side The Dutch American Identity Terence Schoone-Jongen, 2008 Each year thousands of communities across the United States celebrate their ethnic heritages values and identities through the medium of festivals Drawing together elements of ethnic pride

nostalgia religious values economic motives cultural memory and a spirit of celebration these festivals are performances that promote and preserve a community's unique identity and heritage while at the same time attempting to place the ethnic community within the larger American experience Although these aims are pervasive across ethnic heritage celebrations two festivals that appear similar may nevertheless serve radically different social and political aims Accordingly *The Dutch American Identity* examines five Dutch American festivals three of which are among the oldest ethnic heritage festivals in the United States in order to determine what such festivals mean and do for the staging communities Although Dutch Americans were historically among the first ethnic groups to stage ethnic heritage festivals designed to attract outside audiences and despite the fact that several Dutch American festivals have met with sustained success little scholarship has focused on this ethnic group's festivals Moreover studies that have considered festivals staged by communities of European descent have typically focused on a single festival *The Dutch American Identity* thus on the one hand seeks to call attention to the historical development and current sociocultural significance of Dutch American heritage festivals On the other hand this study aims to elucidate the ties that bind the five communities that stage these festivals together rather than studying one festival in isolation from the others Creatively combining several methodologies *The Dutch American Identity* describes and analyzes how the social political and ethical values of the five communities are expressed performed acted out represented costumed and displayed in their respective festivals Rather than relying on familiar even stereotypical notions of the Midwest rural America conservative America etc that often appear in contemporary political discourse Schoone Jongen shows just how complex and contradictory these festivals are in the ways they represent each community At the same time by placing these festivals within the context of American history Schoone Jongen also demonstrates how and why each festival is a microcosm of particular cultural social and political developments in modern America *The Dutch American Identity* is an important book for sociology performance studies folklore immigration history anthropology and cultural history collections

America Goes to College John E. Seery, 2012-02-01 A rallying cry on behalf of a distinctly American institution of higher learning the small liberal arts college America Goes to College combines broad based scholarship with personal narrative and reflection In a highly entertaining manner John E Seery showcases the precarious successes of a well rounded liberal arts college education while at the same time signaling some of the dangers that loom on the horizon Seery contends that the liberal arts are best pursued within the face to face interactive setting characteristic of the small college classroom as opposed to the large university lecture hall Moreover and more provocatively he identifies political theorists as the proper custodians and practitioners of the liberal arts tradition as it unfolds today It is the unfettered freedom of the small liberal arts college where vision and practice can actually coincide that makes it the embodiment of the advantages of the American higher education system a national treasure deserving of support

Doctor Mary in Arabia Mary Bruins Allison, 2010-06-04 Until fairly recently Arab women rarely received professional health care since few women doctors had ever practiced in Arabia and their culture forbade them from consulting male doctors Not surprisingly Dr Mary Bruins Allison faced an overwhelming demand when she arrived in Kuwait in 1934 as a medical missionary of the Reformed Church of America Over the next forty years Dr Mary treated thousands of women and children faithfully performing the duties that seemed required of her as a Christian to heal the sick and seek converts These memoirs record a fascinating life Dr Allison briefly describes her upbringing and her professional training at Women s Medical College of Pennsylvania She then focuses on her experiences in Kuwait where women of all classes including royalty flocked to her care In addition to describing many of her cases Dr Allison paints a richly detailed picture of life in Kuwait both before and after the discovery of oil transformed the country Her recollections include invaluable details of women s lives in the Middle East during the early and mid twentieth century They add a valuable chapter to the story of modern medicine to the largely unsuccessful efforts of the Christian church to win converts in the Middle East and to the opportunities and limitations that faced American women of the period Dr Allison also worked briefly
