questions for each chapter Activities to engage readers Recommended reading suggestions Over 150 illustrations  
Bibliography Glossary The Power of Comics deals exclusively with comic books and graphic novels One reason for this focus is that no one text can hope to do justice to both strips and books there is simply too much to cover Preference is given to comic books because in their longer form the graphic novel they have the greatest potential for depth and complexity of expression As comic strips shrink in size and become more inane in content comic books are becoming a serious art form
