After a full review of the patient's chart:

1. History Components

- Patient Interview: to collect information first-hand from the patient about the nature and course of impairment. This information pertains to the specific body functions and structures that are impaired. Patient-perceptions on functional limitations and perceived disabilities are also included. This information pertains to the activities the patient is involved in and the participation limitations experienced as a result of the patient's impairments. In addition, personal factors are emphasized to determine the emotional impact of the current impairment.
- Partner Interview: to collect information on partner perceptions related to the patient's impairment and how the impairment impacts daily life. This information pertains to the specific body functions and structures that are impaired in addition to their functional impact on activities and participation. Information on family resources is also included. Knowing and incorporating the strengths and social circles of the family will promote successful intervention.

2. Physical Examination

- Oral Mechanism Examination: to assess each component of the speech system separately and to define and classify notable changes by cranial nerves (V, VII, IX, X, XII). The face, lips, jaw, tongue, and palate are all assessed for the following: strength, speech, range of motion, tone, and coordination. Pertinent questions related to patient history are included throughout to supplement the physical examination findings. A test for apraxia of speech is included, but should only be used if groping is present during the evaluation.

3. Motor Speech Evaluation

- Oral Mechanism Examination: an overview of RPRAP components are also included within the oral mechanism examination to screen for changes in respiration, phonation, resonance, articulation, and prosody. This includes the

A Guide to Clinical Assessment and Professional Report Writing in Speech-Language Pathology Renee Fabus, 2024-06-01

Learning to assess speech and language disorders and write diagnostic reports may be an overwhelming experience especially when most texts don't cover both topics at once. With that in mind, *A Guide to Clinical Assessment and Professional Report Writing in Speech Language Pathology* Second Edition combines the latest assessment protocols and diagnostic techniques with vital diagnostic report writing tools into a single definitive guide. Cyndi Stein, Rubin, Renee Fabus, and their contributors recognize that clinical assessment is inextricably linked to report writing and have updated this Second Edition to synthesize the two. Following the introductory chapters which discuss the basics of assessment and report writing, each subsequent chapter focuses on a particular disorder, provides in-depth assessment tools, and presents a corresponding sample report.

Key Features:

- An inventory and explanation of formal and informal assessment measures
- A glossary of key vocabulary
- Sample case histories with assessment tools
- Relevant and useful interview questions
- Each disorder's background and characteristics
- Assessment parameters
- A differential diagnosis section
- A model report

The accessible format of *A Guide to Clinical Assessment and Professional Report Writing in Speech Language Pathology* Second Edition will help students learn how to assess and document speech and language disorders and will also make for a perfect reference for them as clinicians for years to come.

Diagnostic Report Writing In Speech-Language Pathology Steven Blaustein, 2024-06-01

Designed to improve the report writing skills of speech language pathology students, communication sciences and disorders students, Clinical Fellows, and professionals alike, *Diagnostic Report Writing in Speech Language Pathology: A Guide to Effective Communication* is a one-of-a-kind text entirely dedicated to the production of an effective diagnostic speech and language evaluation. In today's academic and health care climate, accurate and clear documentation has never been more important. *Diagnostic Report Writing in Speech Language Pathology* seeks to demystify and simplify the challenges many students and clinicians face while learning to write speech and language evaluations by combining the science and art of assessment with an effective presentation. Dr. Steven H. Blaustein uses his more than 50 years of experience as a clinician, consultant, and professor to logically guide the reader through the necessary steps involved in the documentation of a speech and language evaluation. From discussing the initial reason for the referral and case history to the final summary, impressions, and recommendations, each step of the writing process is clearly explained. Topics included in *Diagnostic Report Writing in Speech Language Pathology* include: speech sound production, oral peripheral examinations, issues of law, fairness, and ethics, critical information for the approval of services and third-party reimbursement, common report writing errors to avoid, and images and tables to illustrate the process of documenting a speech and language evaluation. There is no one-size-fits-all template for documenting an evaluation. *Diagnostic Report Writing in Speech Language Pathology: A Guide to Effective Communication* provides the reader with the skills and knowledge necessary to compile an effective professional report that meets the needs
