Pro Android Flash Stephen Chin, Dean Iverson, Oswald Campesato, Paul Trani, 2011-11-25 Did you know you can take your Flash skills beyond the browser, allowing you to make apps for Android, iOS, and the BlackBerry Tablet OS? Build dynamic apps today, starting with the easy-to-use Android smartphones and tablets. Then take your app to other platforms without writing native code. Pro Android Flash is the definitive guide to building Flash and other rich Internet applications (RIAs) on the Android platform. It covers the most popular RIA frameworks for Android developers: Flash and Flex, and shows how to build rich, immersive user experiences on both Android smartphones and tablets. You'll learn how to incorporate multimedia, animation, and special effects into your apps for maximum visual appeal. You'll also cover advanced topics including input methods, hardware inputs, deployment, and performance optimization.

Extending Your Business to Mobile Devices with IBM Worklight Andreas Dannhauer, Ming Zhe Huang, Paul Idstein, Todd Kaplinger, Hossam Katory, Christian Kirsch, Kearan McPherson, Leonardo Olivera, Susan Hanson, IBM Redbooks, 2013-08-12 The mobile industry is evolving rapidly. An increasing number of mobile devices, such as smartphones and tablets, are sold every year, and more people are accessing services from a mobile device than ever before. For an enterprise, this can mean that a growing number of customers, business partners, and even employees now expect to access services on a mobile channel. This opens new opportunities for the business but also presents new challenges, both in terms of business processes and information technology (IT) infrastructure. IBM Worklight is an open mobile application platform. It helps organizations of all sizes to efficiently develop, connect, run, and manage HTML5 hybrid and native applications. IBM Worklight provides the essential elements needed for complete mobile application development, deployment, and management within a business. This IBM Redbooks publication provides information necessary to design, develop, deploy, and maintain mobile applications using IBM Worklight Version 5.0.5. It includes information about decision points that the IT organization will need to make, the roles that are involved in a mobile strategy, and the responsibilities of the individuals in those roles. It also describes integration points with other IBM products that can enhance the mobile solution. This book has two parts. Part 1 is for a business-oriented IT audience and addresses business aspects of the mobile industry. It is for the IT architect or CTO who can translate business needs into information technology solutions. Part 2 is intended for a technical audience, including application developers, testers, and system administrators.

Introductory Statistics Textbook Equity Edition, 2014-02-09 Introductory Statistics is designed for the one-semester introduction to statistics course and is geared toward students majoring in fields other than math or engineering. This text assumes students have been exposed to intermediate algebra and it focuses on the applications of statistical knowledge rather than the theory.

behind it The foundation of this textbook is Collaborative Statistics by Barbara Illowsky and Susan Dean Additional topics examples and ample opportunities for practice have been added to each chapter The development choices for this textbook were made with the guidance of many faculty members who are deeply involved in teaching this course These choices led to innovations in art terminology and practical applications all with a goal of increasing relevance and accessibility for students We strove to make the discipline meaningful so that students can draw from it a working knowledge that will enrich their future studies and help them make sense of the world around them
