## Past Exams Uea:

*UEA Papers in Linguistics* University of East Anglia, 1991      *The History of the University of East Anglia, Norwich* Michael Sanderson, 2002-01-01 The University of East Anglia at Norwich was one of a number of new universities founded in Britain in the 1960s in response to the need to increase the provision for higher education Remarkable for its architecture primarily by Denys Lasdun and for its superb Sainsbury Art Collection its history is a telling commentary on the opportunities and problems faced by British universities over the last forty years The History of the University of East Anglia Norwich is a full account of UEA's foundation growth and distinctive character Michael Sanderson highlights both the university's successes and failures at the same time painting a picture of life teaching and research on the campus By examining the real problems faced by a leading British university he has provided an important contribution to British educational history

*History and Legacy of the Suffragette Fellowship* Eileen Luscombe, 2023-10-20 History and Legacy of the Suffragette Fellowship provides a biographical account of the scope and depth of the memory work of the now forgotten commemorative group the Suffragette Fellowship active from the 1920s to the 1970s The Suffragette Fellowship comprised members from the militant suffrage groups known as the Women's Social and Political Union the Women's Freedom League and the Actress Franchise League This research provides a comprehensive analysis of the Fellowship's attempts to form and sustain a collective Suffragette identity across four decades of activity It considers the legacy of contested histories attached to militant campaigning that pressured Fellowship leaders to take control of the public memory of suffrage history With close attention given to a neglected piece of feminist history this book highlights the cultural and political impacts that the Fellowship enacted in their memory of the women's suffrage movement Richly illustrated with images of members artefacts and publications this extensive study of the Suffragette Fellowship adds to transnational suffrage histories in the United Kingdom and Australia and will be of interest to scholars in memory studies and women's history      Purely Formal Legal

Theory Ottavio Quirico, 2025-04-16 This book elaborates on deontic logic and network theory to present a reductionist theory of the law disclosing a simple understanding of legal norms based on minimum necessary and sufficient notions The analysis explores the concept of a norm as a claim obligation relation that regulates conduct that is action and inaction among subjects in space and time Based on these five minimum notions the study illustrates legal systems as networks of substantive right duty relations that are procedurally organised according to time The research relies on basic Kripke style semantics as social matrixes to explain fundamental normative concepts and further on network science social network theory and graph theoretic notation based on ties and nodes to elaborate a formal representation of minimum necessary notions and of legal systems as deontic networks The book will be of interest to academics researchers and practitioners working in the areas of legal philosophy legal theory and international law      **Violent Environments** Nancy Lee Peluso, Michael Watts, 2001 Do environmental problems and processes produce violence Current U S policy about

environmental conflict and scholarly work on environmental security assume direct causal links between population growth resource scarcity and violence This belief a staple of governmental decision making during both Clinton administrations and widely held in the environmental security field depends on particular assumptions about the nature of the state the role of population growth and the causes of environmental degradation The conventional understanding of environmental security and its assumptions about the relation between violence and the environment are challenged and refuted in *Violent Environments* Chapters by geographers historians anthropologists and sociologists include accounts of ethnic war in Indonesia petro violence in Nigeria and Ecuador wildlife conservation in Tanzania and friendly fire at Russia's nuclear weapons sites *Violent Environments* portrays violence as a site specific phenomenon rooted in local histories and societies yet connected to larger processes of material transformation and power relations The authors argue that specific resource environments including tropical forests and oil reserves and environmental processes such as deforestation conservation or resource abundance are constituted by and in part constitute the political economy of access to and control over resources *Violent Environments* demands new approaches to an international set of complex problems powerfully arguing for deeper more ethnographically informed analyses of the circumstances and processes that cause violence
