Pastor Chuck Baldwin Montana:

Hatreds We Love Stephen J. Ducat, 2024-06-25 An in depth psychological anthropological neuroscientific and historical look at MAGA Republicans and the American Far Right Fueled by conspiracy thinking and a growing indifference to facts some Americans especially on the Right are increasingly seeing their fellow citizens as threats that must be eliminated We are witnessing an epidemic of domestic terrorism with a rapidly accumulating body count This may be the most serious challenge to the integrity of the United States since the Confederate insurrectionists launched their assault on Fort Sumpter in 1861 While an in depth psychological reading of political events **Hatreds We Love The Psychology of Political Tribalism in Post Truth America** is grounded in the scholarship and insights of social psychologists anthropologists historians psychoanalysts neuroscientists and the many intrepid journalists increasingly threatened by authoritarians who have good reasons to fear truthful reporting And of course author Stephen J Ducat draws on his own experiences visions and values A major topic addressed in the book is the malignant mindset animating MAGA neo fascism s zealous partisans Donald Trump s fortunes may fade in the coming months and years but Trumpism will likely remain ascendant Of course xenophobic bigotry violent aversion to democracy political cults of personality and indifference to facts are global phenomena and not limited to the United States But America plays a prominent role even abroad In December 2022 it was revealed that a right wing coup attempt in Germany was to some extent modeled on America s own post election insurrection which was planned and executed by the paramilitary wing of the MAGA movement That German episode was not the first time that the actions of American anti democratic and white supremacist groups became the template for similar efforts worldwide In the 1930s German fascists looked to America as a blueprint for implementing race based tribalism Hitler so admired Jim Crow laws in the United States especially concerning citizenship and anti miscegenation laws that he sent a team of legal scholars to study their statutory framework for addressing the problem of racial pollution While the Nazis initially found a lot to love and incorporate into the Nuremberg Laws they ironically rejected much of the American model as too harsh Many pundits have decried the extremism of Trumpian lynch mob politics On the contrary **Hatreds We Love** argues that it is contiguous with the long history of American conservatism going back at least to the antebellum South From this perspective the worldview and actions of the GOP s MAGA faction are the logical outcomes of the consistently expressed right wing ethos of domination xenophobia and the freedom to harm Although there is much handwringing about the toxic synergy of authoritarian political forces white identity politics and the embrace of post factuality there is insufficient understanding of the links between them Chief among those links is tribal psychology Nearly every political pundit decries political tribalism Yet public discussion rarely addresses more than its most disturbing symptoms **Hatreds We Love** speaks to the causes and underlying dynamics of what is now one of the greatest threats to the viability of what remains of American democracy and global democratic governance more broadly

Alt-America David Neiwert, 2017-10-17 This important piece of investigative reportage studies the roots of right wing extremism in American culture and history to understand its modern day resurgence in the Trump era Just as Donald Trump s victorious campaign for the U S presidency shocked the world the seemingly sudden national prominence of white supremacists xenophobes militia leaders and mysterious alt right figures mystifies many But the American extreme right has been growing steadily in number and influence since the 1990s with the rise of patriot militias Following 9 11 conspiracy theorists found fresh life and in virulent reaction to the first black U S president militant racists have come out of the woodwork Nurtured by a powerful right wing media sector in radio TV and online the far right Tea Party movement conservatives and Republican activists found common ground Figures such as Stephen Bannon Milo Yiannopoulos and Alex Jones once rightly dismissed as cranks now haunt the reports of mainstream journalism Investigative reporter David Neiwert has been tracking extremists for more than two decades In Alt America he provides a deeply researched and authoritative report on the growth of fascism and far right terrorism the violence of which in the last decade has surpassed anything inspired by Islamist or other ideologies in the United States The product of years of reportage and including the most in depth investigation of Trump s ties to the far right this is a crucial book about one of the most disturbing aspects of American society

Not Invited to the Party James T. Bennett, 2009-10-03 Not Invited to the Party demonstrates how the dominant political parties the Democrats and Republicans have co-opted the system to their advantage James Bennett examines the history and array of laws regulations subsidies and programs that benefit the two major parties and discourage even the possibility of a serious challenge to the Democrat Republican duopoly The American Founders as it

has been generally forgotten distrusted political parties Nowhere in the U S Constitution are parties mentioned much less given legal protection or privilege This provocative book traces how by the end of the Civil War the Republicans and Democrats had guaranteed their dominance and subsequently influenced a range of policies developed to protect the duopoly For example Bennett examines how the Federal Election Campaign Act of 1971 as amended in 1974 and 1976 which was sold to the public as a nonpartisan act of good government reformism actually reinforced the dominance of the two parties While focused primarily on the American experience the book also considers the prevalence of two party systems around the world especially in emerging democracies and the widespread contempt with which they are often viewed Featuring incisive commentary on the 2008 election and a foreword by third party iconoclast Ralph Nader the book considers the potential of truly radical reform toward opening the field to vigorous lively contentious independent candidacies that might finally offer alienated voters a choice not an echo
