University Rankings William Yat Wai Lo, 2014-02-17 This book adopts a qualitative case study approach to provide the readers with a systematic delineation and interpretation of the implications of the university ranking phenomenon for Taiwan s higher education system It reviews the literature on different theories concerning the global transformation of higher education and presents basic information on higher education in Taiwan The author develops a four dimensional framework for the analysis of the ranking phenomenon in the island state First the technological ecological dimension aims to look into how the rankings have impacted Taiwan s higher education based on empirical findings from five Taiwanese public universities Next the technological geographical dimension examines how Taiwan can use rankings to promote its interests in global higher education The two conceptual dimensions focus on the relationship between the rankings and power in higher education They show how the phenomenon can be read and explained through theoretical lenses from ecological and geographical perspectives From an ecological perspective the empirical evidence suggests that the influence of rankings varies throughout the academic hierarchy in Taiwan The theoretical analysis then illustrates the relationship between the ranking phenomenon and the power structure in academic hierarchy Geographically while the empirical analysis is based on data from Taiwan the theoretical analysis offers essential insights that help readers to understand the changing global landscape of higher education and its implications in East Asia *Decolonising African University Knowledges, Volume 2* Amasa P. Ndofirepi, Felix Maringe, Simon Vurayai, Gloria Erima, 2022-10-14 This book explores the influence of neoliberal globalisation on African higher education considering the impact of the politics of neoliberal ideology on the nature and sources of knowledge in African universities Written by African scholars the book engages with debates around the commodification of knowledge socially just knowledge knowledge transformation collaboration and partnerships and indigenous knowledge systems It challenges the neoliberal approach to knowledge production and dissemination in African universities and contributes to debates around decolonising knowledge production in Africa The chapters draw on experiences from universities in different sub Saharan countries to show how the manifestation of neo colonialism through

the pursuit of the hegemonic neoliberal philosophy is impacting on decolonising university knowledge in Africa Providing a unique critique of the impact of neoliberal higher education in Africa the book will be essential reading for researchers scholars and postgraduate students in the field of Sociology of Education decolonising education Inclusive Education and Education Policy Research Handbook on University Rankings Hazelkorn, Ellen, Mihut, Georgiana, 2021-12-10 Gathering unique and thoughtful contributions from leading international scholars this timely Research Handbook offers diverse perspectives on university rankings twenty years after the first global rankings emerged It presents an in depth analysis that reflects the current state of research on rankings their influence and impact Higher Education in Taiwan Angela Yung-Chi Hou, Tung-liang Chiang, Sheng-Ju Chan, 2020-12-30 This book discusses the situation of Taiwanese universities facing a rapidly changing domestic and global environment It examines the social structure drawing on professional perspectives data based and systematic analysis The book fills gaps in the literature of higher education systems in East Asia of which Taiwan is a representative nation It provides the readers with great opportunities to understand the historical political and cultural background of the higher education system in Taiwan and shares Taiwan s experience of how higher education institutions respond to the new challenges such as an ageing society the pursuit of equity and inclusion execution of talent recruitment and the use of technological innovation Finally the book discusses the implication of institutional research in university governance Professorial Pathways Martin J. Finkelstein, Glen A. Jones, 2019-05-21 What makes a professor The answer depends on where in the world you are Winner of the CIHE Award for Significant Research on International Higher Education by the Association for the Study of Higher Education In the twenty first century universities worldwide have found themselves thrust into a great brain race as nations both developed and developing seek to enhance their place in the global knowledge economy As the concept of the de localized university one that has radically expanded perhaps even beyond national borders grows competing nations have begun reshaping aspects of their national systems to accommodate global standards and metrics In Professorial Pathways Martin J Finkelstein and Glen A Jones consider how academic careers vary in countries that are fundamentally different in their organization and dynamics Building on 25 years of scholarship the book confronts major questions What can we learn from the experience of other nations as they seek to balance the seemingly contradictory imperatives of expanding access and ensuring global competitiveness What are the implications of this rapidly changing policy environment for the health of the academic professions on which university teaching and scholarship depends And how can we advance the comparative study of higher education and in particular of the academic profession The volume brings together detailed case studies of the latest and ever changing educational developments in ten countries across Europe France Germany United Kingdom Russia Asia China India Japan North America United States Canada and South America Brazil Essays written by respected scholars in the field identify the major structural features of national higher education systems and academic markets that directly shape academic work and careers

Natural Compounds and Their Role in Apoptotic Cell Signaling Pathways, Volume 1171 Marc Diederich, 2009-09-08

Apoptosis is a highly regulated mechanism by which cells undergo cell death in an active way. As one of the most challenging tasks concerning cancer is to induce apoptosis in malignant cells, researchers increasingly focus on natural products to modulate apoptotic signaling pathways. This book reviews the main effects of natural compounds on the different apoptotic signaling pathways, including the intrinsic and extrinsic apoptosis pathways, the NF- κ B mediated pathway, the PI3K/Akt signaling, and other main pathways. Among the topics specially covered are: Effects of natural compounds on cancer cells; Natural compounds as inducers of cell death; Diet in health and disease; Inflammation and cancer; Natural compounds as kinase inhibitors; Natural compounds in neurodegenerative diseases; Natural compounds as inhibitors of ROS. Pay-to-Play Ryan Kraski, 2021-07-16. Pay to Play bietet einen zugänglichen Ansatz zum Verständnis zweier Systeme zur Wissenserschaffung und -verbreitung, die in das US-Rechtssystem eingebettet sind: private gemeinnützige Universitäten und das Urheberrecht. Pay to Play zeigt die harte Realität auf, dass ein umfangreicher Bestand an akademischen Werken hinter gewinnorientierten digitalen Paywalls verschlossen bleibt. Der Zugang zu diesen Werken ist für den Einzelnen unerschwinglich und wird in der Regel nur durch noch teurere institutionelle Mitgliedschaften ermöglicht. Infolgedessen werden die meisten Menschen unregelmäßig vom Innovationsprozess ausgeschlossen, der den Kern der Urheberrechtsklausel der Verfassung darstellt.

Path to Prosperity Jason Furman, Jason E. Bordoff, 2009-10-01. Since its launch in 2006, the Hamilton Project at Brookings has produced extensive research on how to create a growing economy that benefits all Americans. Its pragmatic work aims to increase opportunities for broad-based wealth, economic security, and enduring growth. *Path to Prosperity*, the first book to emerge from the Hamilton Project, presents important and original work to that end. *Path to Prosperity* focuses on three key criteria for fostering broadly shared economic growth: enhancing economic security, building a highly skilled workforce, and reforming the tax system. Income security proposals offer methods for reforming unemployment insurance, protecting against the risk of reemployment at a lower wage after job loss, and improving incentives for retirement saving. Education proposals build human capital by improving each level of education, from preschool programs for poor children to graduate fellowships in math and science. The tax proposals seek to make taxation simpler, more progressive, and better suited to a global economy. Contributors include Roger C. Altman, Reuven S. Avi-Yonah, Jason E. Bordoff, Kimberly A. Clausing, Susan M. Dynarski, Molly E. Fifer, Richard B. Freeman, Jason Furman, William G. Gale, Austan Goolsbee, Robert Gordon, Jonathan Gruber, Thomas J. Kane, Lori Kletzer, Jeffrey R.
