University Expansion In A Changing Global Economy:

University Expansion in a Changing Global Economy Martin Carnoy, Prashant Loyalka, Maria Dobryakova, Rafiq Dossani, Isak Froumin, Katherine Kuhns, Jandhyala Tilak, Rong Wang, 2013-07-17 This is a study of higher education in the world's four largest developing economies Brazil Russia India and China Already important players globally by mid century they are likely to be economic powerhouses But whether they reach that level of development will depend in part on how successfully they create quality higher education that puts their labor forces at the cutting edge of the information society Using an empirical comparative approach this book develops a broad picture of the higher education system in each country in the context of both global and local forces The authors offer insights into how differing socioeconomic and historic patterns of change and political contexts influence developments in higher education In asking why each state takes the approach that it does this work situates a discussion of university expansion and quality in the context of governments educational policies and reflects on the larger struggles over social goals and the distribution of national resources

Globalisation and Higher Education Reforms Joseph Zajda, Val Rust, 2016-02-12 This volume explores the interrelationship between ideology the state and higher education reforms setting it in a global context It examines some of the major higher education reforms and policy issues in a global culture particularly in the light of recent shifts in quality and standards driven education and policy research In doing so the book provides a comprehensive picture of the intersecting and diverse discourses of globalisation and policy driven reforms in higher education Representing scholarly research on major discourses in the field of higher education reforms the book draws upon recent studies in the areas of globalisation equality and the role of the state in higher education reforms It critiques the neo liberal ideological imperatives of current higher education and policy reforms and illustrates the way that shifts in the relationship between the state and higher education policy affect current trends in higher education reforms Individual chapters critically assess the dominant discourses and debates on higher education and policy reforms Using diverse comparative education paradigms from critical theory to historical comparative research the chapters focus on globalisation ideology and higher education reforms and examine both the reasons and outcomes of higher education reforms and policy change Anyone who has been involved in higher education over the past few decades cannot fail to be affected by the impact of globalisation and neo liberal policies on universities and society at large In *Globalisation and Higher Education Reforms* the 15th volume of the series *Globalisation Comparative Education and Policy Research* Joseph Zajda and Val Rust present chapters on education reform in the USA and in international contexts that highlight the inroads that neo liberalism has made into policy making at higher education institutions The chapters also illustrate the way universities have been reinventing themselves to meet the demands of a knowledge society in which corporate values of efficiency performance and managerialism drive the agenda What are the effects of internationalisation on higher education in the universities of today With chapters from internationally respected

scholars from around the globe this book seeks to address the many issues of the new reality in higher education This is a welcome accessible volume for all those concerned with research policy making and curriculum development Professor Suzanne Majhanovich Western University Castells in Africa Johan Muller,Nico Cloete,2017-11-28 Castells in Africa Universities and Development collects the papers produced by Manuel Castells on his visits to South Africa and publishes them in a single volume for the first time The book also publishes a series of empirically based papers which together display the multi faceted and far sighted scope of his theoretical framework and its fecundity for fine grained detailed empirical investigations on universities and development in Africa Castells in his afterword to this book always looking forward assesses the role of the university in the wake of the upheavals to the global economic order He decides the universitys function not only remains but is more important than ever This book will serve as an introduction to the relevance of his work for higher education in Africa for postgraduate students reflective practitioners and researchers Includes two previously unpublished public lectures and an Afterword by Manuel Castells *The Political Economy of Education* Martin Carnoy,2024-02-15 The Political Economy of Education provides academically rigorous yet clear explanations of the economics and politics driving today s educational systems and how economists analyze them The book covers a host of topics central to teaching about education and crucial to educational policy These include how to use the tools of economic and political theory to take critical measure of education s role in social mobility and economic growth whether good teachers can overcome social class and race achievement gaps the effectiveness of early childhood and vocational education and debates on school accountability and whether increasing spending on schooling improves quality The book also explores worldwide changes in higher education especially massification and increased stratification and privatization Written for upper undergraduate and graduate students in economics public policy and education and packed with real world examples this is an essential text for anyone interested in gaining fresh and international perspectives on education

Understanding Global Higher Education Georgiana Mihut,Philip G. Altbach,Hans de Wit,2017-08-24 This volume brings together selected articles published in University World News UWN and International Higher Education IHE between 2011 and 2016 Researchers policy makers and practitioners alike further the development of higher education as a field of study through public and ongoing conversations It is news analysis and commentary publications like UWN and IHE that facilitate this dialogue and keep pace with the most up to date developments in the field Together the articles included in this volume alongside the section introductions offer a rich and relevant picture of the dynamic state of higher education globally While both publications are freely available online this book provides a thematically coherent selection of articles offering an accessible and analytic perspective on the pressing concerns of contemporary higher education *International Handbook on Education Development in the Asia-Pacific* Wing On Lee,Phillip Brown,A. Lin Goodwin,Andy Green,2023-11-20 The Springer International Handbook of Educational Development in Asia Pacific breaks new ground with a comprehensive fine

grained and diverse perspective on research and education development throughout the Asia Pacific region In 13 sections and 127 chapters the Handbook delves into a wide spectrum of contemporary topics including educational equity and quality language education learning and human development workplace learning teacher education and professionalization higher education organisations citizenship and moral education and high performing education systems The Handbook is grounded in specific Asia Pacific contexts and scholarly traditions using unique country specific narratives for example Vietnam and Melanesia and socio cultural investigations through lenses such as language identity or colonisation while offering parallel academic discourse and analyses framed by broader policy commentary from around the world

Routledge Handbook of the Sociology of Higher Education James E. Côté, Sarah Pickard, 2022-03-21 Higher education has come under increasing public scrutiny in recent years assailed with demands for greater efficiency accountability cost reduction and above all job training Drawing upon examples from across the world with an emphasis on Anglo American higher education systems this handbook employs sociological approaches to address these pressing concerns The second edition is thoroughly updated and adds several new chapters to shed further light on the transformations wrought by the interrelated processes of massification vocationalization and marketization that have swept through universities in the wake of neoliberal reforms introduced by governments since the 1980s The handbook explores recent developments in higher education systems and policy as well as the everyday experiences of students and staff and ongoing problems of inequality and diversity within universities In doing so the chapters address a number of current issues concerning the legitimacy of higher educational credentials from the continuing debate regarding traditional pedagogies and the role of universities in social class reproduction to more recent concerns about standards in mass systems Collectively this handbook demonstrates that the sociology of higher education has the potential to play a leadership role in improving the myriad higher education systems around the world that are now part of an interrelated set of subsystems replete with both persistent problems and promising prospects This book is therefore necessary reading for a variety of stakeholders within academia as well as professionals and policy makers interested in understanding higher education and the acute challenges it faces

Knowledge Production and Contradictory Functions in African Higher Education Nico Cloete, Peter Maassen, 2015-03-01 The dominant global discourse in higher education now focuses on world class universities inevitably located predominantly in North America Europe and increasingly East Asia The rest of the world including Africa is left to play catch up But that discourse should focus rather on the tensions even contradictions between excellence and engagement with which all universities must grapple Here the African experience has much to offer the high participation and generously resourced systems of the so called developed world This book offers a critical review of that experience and so makes a major contribution to our understanding of higher education

Altbach, 2016-04 The single best book on higher education as a global phenomenon Over the past half century globalization has had a profound impact on postsecondary education The twin forces of mass higher education and the global knowledge economy have driven an unprecedented transformation These fundamental changes have pulled in opposite directions one pushes for wider access and accompanying challenges of quality the other toward exclusive world class research oriented universities In *Global Perspectives on Higher Education* renowned higher education scholar Philip G Altbach offers a wide ranging perspective on the implications of these key forces and explores how they influence academe everywhere Altbach begins with a discussion of the global trends that increasingly affect higher education including the implications of mass enrollments the logic of mass higher education systems around the world and specific challenges facing Brazil Russia India and China He considers the numerous implications of globalization including the worldwide use of the English language university cross border initiatives the role of research universities in developing countries the impact of the West on Asian universities and the expansion of private higher education Provocative and wide ranging *Global Perspectives on Higher Education* considers how the international exchange of ideas students and scholars has fundamentally altered higher education **The Fifth Wave** Michael M. Crow, William B. Dabars, 2020-04-14 Out of the crises of American higher education emerges a new class of large scale public universities designed to accelerate social change through broad access to world class knowledge production and cutting edge technological innovation America's research universities lead the world in discovery creativity and innovation but are captive to a set of design constraints that no longer aligns with the changing needs of society Their commitment to discovery and innovation which is carried out largely in isolation from the socioeconomic challenges faced by most Americans threatens to impede the capacity of these institutions to contribute decisively and consistently to the collective good The global preeminence of our leading institutions moreover does not correlate with overall excellence in American higher education Sadly admissions practices that flatly exclude the majority of

academically qualified applicants are now the norm in our leading universities both public and private In *The Fifth Wave* Michael M Crow and William B Dabars argue that colleges and universities need to be comprehensively redesigned in order to educate millions more qualified students while leveraging the complementarities between discovery and accessibility Building on the themes of their prior collaboration *Designing the New American University* this book examines the historical development of American higher education the first four waves and describes the emerging standard of institutions that will transform the field What must emerge in this Fifth Wave of universities Crow and Dabars posit are institutions that are responsive to the needs of students focused on access embedded in their regions and committed to solving global problems *The Fifth Wave in American higher education* Crow and Dabars write comprises an emerging league of colleges and universities that aspires to accelerate positive social outcomes through the seamless integration of world class knowledge production with cutting edge technological innovation This set of institutions is dedicated to the advancement of accessibility to the broadest possible demographic that is representative of the socioeconomic and intellectual diversity of our nation Recognizing the fact that both cooperation and competition between universities is essential if higher education hopes to truly serve the needs of the nation Fifth Wave schools like Arizona State University are already beginning to spearhead a network spanning academia business and industry government agencies and laboratories and civil society organizations Drawing from a variety of disciplines including design economics public policy organizational theory science and technology studies sociology and even cognitive psychology and epistemology *The Fifth Wave* is a must read for anyone concerned with the future of higher education in our society
