The Burden of Conscience Henry A. Giroux, 2025-02-20 In *The Burden of Conscience* Giroux confronts the insidious rise of fascism infiltrating today's politics and education alongside the suffocating silence that paralyzes our will to resist and speak truth to power. He decries the moral apathy in the face of the slaughter of children in Israel and the mass killing in Gaza, positioning this silence as part of a broader ominous affliction of our age: the fusion of colonialism and neoliberal capitalism. He calls for a groundswell of resistance, urging a movement to reclaim education as a public good where critical education becomes an expression of freedom, a crucible of literacy, liberation, and collective empowerment. Drawing on his own childhood, he intertwines the personal with the political, unearthing the complexities of class, whiteness, and race, showing that individual and collective actions must converge to dismantle oppressive systems. Finally, he argues that education is a powerful tool, giving us, in the words of Gayatri Chakravorty Spivak, the power to think the absent. Only through this awakening can a critical public consciousness emerge, sparking a multiracial working-class movement capable of challenging entrenched systems of oppression and bringing about true social transformation and radical democracy.

Reading the Nineteenth-Century Medical Journal Sally Frampton, Jennifer Wallis, 2020-12-18 This book explores medical and health periodicals of the nineteenth century: their contemporary significance, their readership, and how historians have approached them as objects of study. From debates about women doctors in lesser-known titles such as the *Medical Mirror* to the formation of professional medical communities within French and Portuguese periodicals, the contributors to this volume highlight the multi-faceted nature of these publications as well as their uses to the historian. Medical periodicals, far from being the preserve of doctors and nurses, were also read by the general public. Thus, the contributions collected here will be of interest not only to the historian of medicine but also to those interested in nineteenth-century periodical culture more broadly. The chapters in this book were originally published as a special issue of the journal *Media History*.

Precarity and Ageing Amanda Grenier, Chris Phillipson, Richard A. Settersten Jr., 2021-07-14 This edited collection develops an exciting new approach to understanding the changing cultural, economic, and social circumstances facing different groups of older people.

Thinking of Questions Peter Limm, 2015-09-23 This is not a conventional book. It is designed to stimulate and challenge all people who are curious to find out about the world they inhabit and their place within it. It does this by suggesting questions and lines of questioning on a wide range of topics. The book does not provide answers or model arguments but prompts people to create their own questions and a reading log or journal. To this end, almost all questions have a list of books or articles to provide a starter for stimulating further reading. Once you start, you will be hooked. Never stop questioning.

Change and Future Justice Catriona McKinnon, 2012-03-12 Climate change creates unprecedented problems of intergenerational justice What do members of the current generation owe to future generations in virtue of the contribution they are making to climate change Providing important new insights within the theoretical framework of political liberalism Climate Change and Future Justice presents arguments in three key areas Mitigation the current generation ought to adopt a strong precautionary principle in formulating climate change policy in order to minimise the risks of serious harm from climate change imposed on future generations Adaptation the current generation ought to create a fund to which members of future generations may apply for compensation if the risks of climate change harm imposed on them by the current generation ripen into harms Triage future generations ought to keep alive hope for a return to the framework of justice for the social cooperation of future people less burdened by climate change harms This work presents agenda setting applications of important principles of democratic equality to the most serious set of political challenges ever faced by human society It should be required reading for political theorists and environmental philosophers [Soft Edge: Nat Hist&Future Info](#) Paul Levinson, 2005-08-08 The Soft Edge is a one of a kind history of the information revolution In his lucid and direct style Paul Levinson historian and philosopher of media and communications gives us more than just a history of information technologies The Soft Edge is a book about theories on the evolution of technology the effects that human choice has on this evolution and what is in store for us in the future Paul Levinson's engaging voice guides us on a tour that explains how communications media have been responsible for major developments in history and for profound changes in our day to day lives Levinson presents the intriguing argument that technology actually becomes more human We see how information technologies are selected on the basis of how well they meet human needs Why is email more like speech than print is Why didn't the arrival of television destroy the radio These and many more thought provoking questions are answered in The Soft Edge Boldly extending and deepening the pathways blazed by McLuhan Paul Levinson has provided us with a brilliant and exciting study of life with our old media our new media and the media still to come **The Nature Essay** Simone Schröder, 2019-01-04 The Nature Essay Ecocritical Explorations is the first extended study of a powerful literary form born out of the traditions of Enlightenment and Romanticism It traces the varied stylistic paradigms of the nature essay down to the present day Reading essays as platforms for ecological discourse the book analyses canonical and marginalised texts mainly from German English and American literature Simone Schröder argues that the essay's environmental impact is rooted in its negotiation of scientific poetic spiritual and ethical modes of perceiving nature Together the chapters on these four aspects form a historical panorama of the nature essay as a genre that continues to flourish in our time of ecological crisis Authors discussed include Alexander von Humboldt Henry David Thoreau Virginia Woolf Robert Musil Ernst Jünger W G Sebald Kathleen Jamie and David Foster Wallace **Controlling Urban Events** Andrea Pavoni, 2017-12-06 How does order emerge out of the multiplicity of bodies objects ideas and practices that constitute the urban This book explores the relation

between space law and control in the contemporary city and particularly in the context of urban mega events through a combined geographical and normative analysis Informed by the recent spatial affective and material turns in the humanities and social sciences Andrea Pavoni addresses this question by pursuing an innovative and trans disciplinary approach capable of accounting for the emergence of order in urban space both at the conceptual and empirical levels Two overarching objectives are pursued First to account for the increasing convergence of logics techniques and technologies of law security and marketing into novel potentially oppressive spatial configurations Second to envisage a consistent ethico political strategy to counter this evolution by rethinking originally and in radically spatial terms the notion of justice Forging a sophisticated and original analysis this book offers an analysis that will be of considerable interest to those working in critical urban geography critical legal studies critical event studies surveillance and control studies **Rethinking Global Health**

Rochelle A. Burgess, 2023-09-29 This book reflects and analyses the working of power in the field of global health and what this goes on to produce In so doing Rethinking Global Health asks the pivotal questions of who is global health for and what is it that limits our ability to build responses that meet people where they are Covering a wide range of topics from global mental health to Ebola this book combines power analyses with interviews and personal reflections spanning the author's decade long career in global health It interrogates how the search for global solutions can often end up far from where we anticipated It also introduces readers to different frameworks for power analyses in the field including an adaptation of the matrix of domination for global health practice Through this work Dr Burgess develops a new model of Transformative Global Health a framework that calls researchers and practitioners to adopt new orienting principles placing community interests and voices at the heart of global health planning and solutions at all times This book will be beneficial to students and academics working in the global and public health landscape It will also hold appeal to activists practitioners and individuals invested in the discipline and in health equity around the world The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution NonCommercial NoDerivatives CC BY NC ND 4.0 International license **Sex and Gender**

Hilary M. Lips, 2020-04-10 Are sex and gender really two different things How malleable is gender identity Do both gender and sex have to be conceptualized as binaries as having two distinct but complementary categories Should we emphasize gender differences or is that the wrong question When should we call a gender difference small Are women really nonaggressive or does that label stem from stereotyping How does subtle or modern sexism work on its targets Scholarship on these and other gender related questions has exploded in recent years Hilary Lips synthesizes that research for students in an accessible and readable way Concepts on sex and gender are presented with the social context in which they were developed As in previous editions Lips takes a multicultural approach discussing the gender experiences of people from a wide range of races cultures socioeconomic statuses and gender and sexual identities She emphasizes empirical research but takes a critical approach to that research **Digital Humanities**

in the India Rim Hart Cohen,Ujjwal Jana,Myra Gurney,2024-11-06 This varied collection delves into illuminating examples of Digital Humanities research and practice currently being undertaken by academics in India and Australia and seeks to understand the shared challenges as well as the points of similarity and difference between them From the influence of Netflix on International Relations to contemporary digital adaptations of Mary Shelley's Frankenstein via detours into erotobots empathic robots and the cultural specificity of online dating these essays convey the distinctive breadth and imagination of research in this field Digital Humanities is a relatively new discipline in the India Rim and this novelty has created space for innovative research ideas as well as the use of traditional methodologies and software in different ways within these unique cultural spaces that could potentially influence how Digital Humanities is conceptualised internationally For example drawing on Indian classical logic leads to novel designs and applications of computation This lively volume offers a fresh look at the Digital Humanities and an important overview of the work taking place in a region other than the Western countries that typically dominate the field It has much to offer both experienced researchers and those new to the Digital Humanities

The Routledge Handbook of International Law and Anthropocentrism Vincent Chapaux,Frédéric Mégret,Usha Natarajan,2023-06-15 This handbook explores contextualises and critiques the relationship between anthropocentrism the idea that human beings are socially and politically at the centre of the cosmos and international law While the critical study of anthropocentrism has been under way for several years it has either focused on specific subfields of international law or emanated from two distinctive strands inspired by the animal rights movement and deep ecology This handbook offers a broader study of anthropocentrism in international law as a global legal system and academic field It assesses the extent to which current international law is anthropocentric contextualises that claim in relation to broader critical theories of anthropocentrism and explores alternative ways for international law to organise relations between humans and other living and non living entities This book will interest international lawyers environmental lawyers legal theorists social theorists and those concerned with the philosophy and ethics of ecology and the non human realms Chapter 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Funded by University of Gothenburg and Lund University

Misunderstanding the Internet James Curran,Natalie Fenton,Des Freedman,2016-02-05 The growth of the internet has been spectacular There are now more than 3 billion internet users across the globe some 40 per cent of the world's population The internet's meteoric rise is a phenomenon of enormous significance for the economic political and social life of contemporary societies However much popular and academic writing about the internet continues to take a celebratory view assuming that the internet's potential will be realised in essentially positive and transformative ways This was especially true in the euphoric moment of the mid 1990s when many commentators wrote about the internet with awe and wonderment While this moment may be over its underlying

technocentrism the belief that technology determines outcomes lingers on and with it a failure to understand the internet in its social economic and political contexts Misunderstanding the Internet is a short introduction encompassing the history sociology politics and economics of the internet and its impact on society This expanded and updated second edition is a polemical sociologically and historically informed guide to the key claims that have been made about the online world It aims to challenge both popular myths and existing academic orthodoxies that surround the internet **Democratic Governance and Social Entrepreneurship** Denise Marie Horn, 2013 Democratic Governance and Social Entrepreneurship addresses the intersection between emerging approaches to development microfinance microenterprise and social entrepreneurship It examines the ability of societies to generate their own public goods when the state is incapable of doing so These approaches to development have impacts on development and civil society building but do not necessarily amount to political empowerment per se they may add to the growth of civil society but not in the ways that advocates of democratization
