Peace And Democratic Society:

Peace and Democratic Society Amartya Sen, 2011 Civil Paths to Peace contains the analyses and findings of the Commonwealth Commission on Respect and Understanding established in response to the 2005 request of Commonwealth Head of Government for the Commonwealth Secretary General to explore initiatives to promote mutual understanding and respect among all faiths and communities in the Commonwealth This report focuses particularly on the issues of terrorism extremism conflict and violence which are much in ascendancy and afflict Commonwealth countries as well as the rest of the world It argues that cultivating respect and understanding is both important in itself and consequential in reducing violence and terrorism It further argues that cultivated violence is generated through fomenting disrespect and fostering confrontational misunderstandings The report looks at the mechanisms through which violence is cultivated through advocacy and recruitment and the pre existing inequalities deprivations and humiliations on which those advocacies draw These diagnoses also clear the way for methods of countering disaffection and violence In various chapters the different connections are explored and examined to yield general policy recommendations Accepting diversity respecting all human beings and understanding the richness of perspectives that people have are of great relevance for all Commonwealth countries and for its 1.8 billion people They are also importance for the rest of the world The civil paths to peace are presented here for use both inside the Commonwealth and beyond its boundaries The Commonwealth has survived and flourished despite the hostilities associated with past colonial history through the use of a number of far sighted guiding principles The Commission argues that those principles have continuing relevance today for the future of the Commonwealth and also for the world at large *Peace and Democratic Society* Amartya Kumar Sen, Commonwealth Secretariat, 2011-10

Peace and Democratic Society (Indian Edition) AMARTYA. SEN, 2012 **Peace or Democracy?** Izabela Pereira Watts, 2023-04-03 Contrary to the common belief that peace and democracy go hand in hand after a civil war Pereira Watts argues they are in fact at a crossroads Offering an innovative framework based on Philosophical Actors and Tactical considerations Pereira Watts identifies 14 dynamic dilemmas in democratic peacebuilding with respective trade offs She focuses on explaining the contradictions in modern post conflict recovery the challenges facing interim governments and the international community's role Based on an analysis of more than 40 countries between 1989 and 2022 and more than 60 UN peace operations she presents critical issues that commonly need to be addressed in such scenarios Elections and Political Parties the Constitution Checks Balances and Power sharing Transitional Justice Human Rights Amnesty Truth Commissions and War Crimes Tribunals Disarmament Demobilization and Reintegration and Media Reform and Civil Society Solving any of these dilemmas leads to others that shape a complex apparatus for restoring peace and installing a new political regime An essential resource for decision takers policymakers international analysts and practitioners in the field of peacebuilding that will also be of great value to students of International Relations and Peace Studies as well as anyone interested in

War, Peace and the Military Franz Kernic, 2023-03-17 This book is a comprehensive analysis of the various social science approaches to explaining and interpreting war peace and the military Its central aim is to trace and reconstruct those basic assumptions constructed and thought processes undertaken by modern social sciences in their research and conceptualization of military violence and the use of force In addition to such reconstruction the aim is also to enquire into the preconditions of such thought This study therefore eschews the development of an explicit strategy in the sense of a research strategy but instead is much more concerned with thinking about its subject matter by means of re thinking and reflecting upon different theoretical approaches and problems The investigation includes a critical reexamination of the tradition of military sociological research from the beginning of modern sociology to late twentieth century theoretical approaches regarding the security focused and or war driven aspects of modern society

The Russian Quest for Peace and Democracy Metta Spencer, 2012-07-10 In The Russian Quest for Peace and Democracy Metta Spencer recounts the political and military changes that have occurred in Russia up to mid 2010 Using hundreds of interviews she conducted with officials dissidents and liberal intellectuals she describes the various groups forces and individuals that worked to liberalize the totalitarian Soviet Union and its fellow nations behind the Iron Curtain and which ultimately brought about the dissolution of those repressive governments Spencer identifies four political orientations to describe Soviet society Sheep ordinary citizens who accepted the undemocratic regime they lived in without challenging it Dinosaurs hard line Communist officials Termites including Mikhail Gorbachev and his advisers and government and Barking Dogs a few hundred dissidents who made a lot of noise protesting hoping to awaken a grass roots demand for democracy The strange rivalry between the Termites and Barking Dogs would ultimately doom perestroika Spencer s research dispels the widely held perception that US President Ronald Reagan won the Cold War by standing firm until the Soviet Union blinked first There are vitally important lessons to be learned from the Soviet period about how to assist citizens of totalitarian and authoritarian regimes around the world The irony is that transnational civil society organizations major sources of the progress in Soviet Russia are still needed today in authoritarian Russia under Vladimir Putin and Dmitry Medvedev for totalitarianism remains a potential social trap In The Russian Quest for Peace and Democracy Metta Spencer suggests new ways of building urgently needed social capital in today s Russia where democracy has yet to flourish

Democracy and Deterrence: Foundations for an Enduring World Peace Walter Gary Sharp, 2009-05 Two fundamental strategies are necessary to create lasting peace in the world facilitating the spread of democracy and maintaining comprehensive deterrence mechanisms targeted at individual world leaders Sharp surveys conventional approaches to avoiding war and presents evidence to validate the democratic peace principle the notion that democracies are inherently more peaceful than non democracies and the incentive theory of war avoidance formulated by John Norton Moore Sharp proposes a mathematical formula that can be used to predict the probability of peace for a given nation

The West, Civil Society and the Construction of Peace Mikkel Vedby Rasmussen, 2003-12-09 The West Civil Society and the Construction of Peace describes how the challenges of peacemaking following the First and Second World Wars defined the West In turn the difficulties in applying the Western recipe for peace to the new security challenges of a globalizing world is threatening to destroy the international community Mikkel Vedby Rasmussen explains how the values of civil society have held the West together and concludes that the democratic peace is not a law but a recipe for security

Post-Conflict Referendums and Peace Processes Kentaro Fujikawa, 2024-12-10 This book provides a comparative study of the impact of referendums on conflict resolution and peacebuilding in post conflict societies Post conflict referendums have increasingly been held as part of peace processes While policy makers are hopeful that these referendums serve peace and democracy the burgeoning literature on them has expressed significant reservations about their use particularly on territorial issues because referendums do not have mechanisms for compromise To gauge the actual impact of these referendums on peace processes the book systematically compares three post conflict referendums on self determination held with their respective central governments consent in Eritrea East Timor and Southern Sudan Relying on more than 70 elite interviews it examines 1 the rationales behind the decision to hold referendums 2 the referendums impact on resolving the original self determination conflicts and 3 their impact on post conflict peacebuilding inside the newly independent states The three case studies reveal various rationales behind such referendums and show that referendums play a limited albeit positive role in settling the original conflicts Furthermore holding referendums after civil wars has various positive negative and often unexpected impacts on domestic and international peacebuilding efforts inside newly independent states This book provides careful thorough and well balanced accounts of these referendums impact on peace processes This book will be of much interest to students of peace and conflict studies African and South East Asian politics and International Relations Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Politics, Polarity, and Peace ,2023-05-08 The arguments within the contemporary literature paint a clear picture popular discourse is marked with extreme partisanship and polarization threatening democracy tolerance diversity pluralism and cooperation Polarization simplifies and deforms language ideas and people Polarization reduces the complexities of social life into an oppositional binary based on crude distinctions revolving around partial and harmful reified conceptions of self and other Since the egocentric us versus them narratives catalyze conflicts which tend to violence polarization is itself a cause of violence The project of peace then is aided by the project of depolarization But what can we do to bring about a transformation away from polarity to peace What are the real polarities obscuring the path to peace Is it a question of freedom versus control Is it one of absolutism versus open mindedness Is it good versus evil In a time of increasingly poisonous national politics widening tribal polarity and fragmented and fragmenting communities what sense does it even make to appeal to reason discourse and compromise The authors in this volume attempt to answer these and other questions relating to polarity and politics in the pursuit of peace and justice the guiding ideals of the Concerned Philosophers for Peace and Brill s Philosophy of Peace series *Peace, Justice and International Order* A. Förster,2014-10-29 How can fair cooperation and a stable peace be reached in the international realm Peace Justice and International Order discusses this question in the light of John Rawls The Law of Peoples offers a new approach to Rawls international theory and contributes to the discourse on international peace and justice *UN Peace Operations* Eirin Mobekk,2016-12-08 This book assesses the UN Peace Operations in Haiti and establishes what lessons should be taken into account for future operations elsewhere Specifically the book examines the UN s approaches to security and stability demobilisation disarmament and reintegration DDR police justice and prison reform democratisation and transitional justice and their interdependencies through the seven UN missions in Haiti Drawing on extensive fieldwork and interviews conducted in Haiti it identifies strengths and weaknesses of these approaches and focuses on the connections between these different sectors It places these efforts in the broader Haitian political context emphasises economic development as a central factor to sustainability provides a civil society perspective and discusses the many constraints the UN faced in implementing its mandates The book also serves as a historical account of UN involvement in Haiti which comes at a time when the drawdown of the mission has begun In an environment where the UN is increasingly seeking to conduct security sector reform SSR within the context of integrated

missions this book will be a valuable contribution to the debate on intervention UN peace operations and SSR This book will be of interest to students of peace operations and peacekeeping conflict studies security studies and IR in general

Toward Peace Lyle R. Strathman, 2013-05-15

Toward Peace proposes that truth is essential in all matters of social intercourse for humanity to progress on any meaningful path toward peace The manuscript progresses from the notion that there is objective truth to the notion that the enactment of truth in human activity is essential for the establishment of peace but it admits that human beings tend to wander between knowledge and ignorance and between a beneficent will and a concupiscent will The manuscript explores among other matters the contemporary subjects of fundamentalism and laissez faireism individualism and collectivism economics evolution abortion education and government from philosophical scientific religious and artistic points of view This is accomplished by interweaving philosophical ideas expressed by Plato and Aristotle with parables and aphorisms expressed by ancient Indian and Chinese wise men with Judaic and Christian scripture and with contemporary economic data and in vogue political notions The book is organized into three distinct parts Part I Truth articles 1 through 5 establishes the notion that there is objective truth that humanity can at least partially know these truths and that a foundation of truth is essential for the establishment of any meaningful path toward peace It develops the notion that just as the laws of physics must correctly reflect the physical parameters that an object presents so too civil laws must correctly reflect the human parameters that a human being presents In other words law must reflect that truth which a being presents of itself itself The finality of this part suggests that truthful enactments by humanity are acts of love that pave the way toward peace Article 1 is a short dissertation on human discord It denotes that since the age of reason there has been an emerging notion that majority rule democracy coupled with humanity's technical prowess would lead toward peace but which history has shown not to be the case Article 2 establishes the accepted idea that there is a reality there is real being but also that human beings are limited in their ability to acquire complete knowledge of such reality Article 3 establishes the idea that there is truth in every being in every object there is objective truth The article presents the notion that objective truth presents itself as the nature of a thing in complete correspondence with its substance objective truth is the nature of a thing its act in agreement with its substance that which it is It also presents the notion that human beings come to know an object by that nature which the

object presents of itself subjective truth devolves from objective truth Article 4 advances the idea that laws are humanly contrived statements derived from the intrinsic truths in the beings to which they refer or relate true laws may not violate the intrinsic truths in the beings to which they refer or relate Article 5 proposes the idea that a love of truth and its compliment the enactment and application of true laws are precursors to the path leading toward peace Part II Contentions articles 6 through 11 offers commentaries on some of the more contentious matters that cause social conflict in the contemporary world The specific topics were chosen to show that truth is often marginalized or mutilated and even ignored or rejected during the course of humanity's search for answers in matters of social concern Article 6 is a dissertation on fundamentalism and laissez faireism and shows how each leads toward social discord Fundamentalism rejects those truths that fall outside its pre ordained dictum while laissez faireism simply rejects truths not of its choice Article 7 is a study of the human social composition including a logical diagram which analyses human fortune intellect free will and physical condition It develops the notion that because of human frailty and finitude majority opinion and majority rule a

John Dewey, America's Peace-Minded Educator Charles F. Howlett, Audrey Cohan, 2016-07-27 One of America's preeminent educational philosophers and public intellectuals John Dewey is perhaps best known for his interest in the study of pragmatic philosophy and his application of progressive ideas to the field of education Carrying his ideas and actions beyond the academy he tied his philosophy to pacifist ideology in America after World War I in order to achieve a democratic world order Although his work and life have been well documented his role in the postwar peace movement has been generally overlooked In John Dewey America's Peace Minded Educator authors Charles F Howlett and Audrey Cohan take a close look at John Dewey's many undertakings on behalf of world peace This volume covers Dewey's support of and subsequent disillusionment with the First World War as well as his postwar involvement in trying to prevent another world war Other topics include his interest in peace movements in education his condemnation of American military intervention in Latin America and of armaments and munitions makers during the Great Depression his defense of civil liberties during World War II and his cautions at the start of the atomic age The concluding epilogue discusses how Dewey fell out of favor with some academics and social critics in the 1950s and explores how Dewey's ideas can still be useful to peace education today Exploring Dewey's use of pragmatic philosophy to build a consensus for world peace Howlett and Cohan illuminate a previously neglected aspect of his contributions to American political and social thought and remind us of the importance of creating a culture of peace through educational awareness

The Future of Peace Alexandra Harrington, 2023-11-03 In this timely book Alexandra Harrington examines the legal and policy terms contained in transitional justice mechanisms through the lenses of intergenerational equity and justice and the impact on current and future generations Based on these findings she offers a new definition of transitional justice that focuses on generational incorporation to ensure a durable equitable and just peace
