Peasant-Citizen and Slave Ellen Meiksins Wood,2015-11-03 The controversial thesis at the center of this study is that despite the importance of slavery in Athenian society the most distinctive characteristic of Athenian democracy was the unprecedented prominence it gave to free labor Wood argues that the emergence of the peasant as citizen juridically and politically independent accounts for much that is remarkable in Athenian political institutions and culture From a survey of historical writings of the eighteenth and nineteenth centuries the focus of which distorted later debates Wood goes on to take issue with recent arguments such as those of G E M de Ste Croix about the importance of slavery in agricultural production The social political and cultural influence of the peasant citizen is explored in a way which questions some of the most cherished conventions of Marxist and non Marxist historiography

Social Formations in the Ancient World Rakesh Kumar,2024-02-27 This book encapsulates a long period of history of human progress by highlighting crucial social economic and cultural dynamics It presents recent historiography and new analytical tools used to analyse multi dimensional themes involved in social formations in different parts of the world This is a reader friendly book with simple and lucid language and fulfils the pressing needs of students studying the course on Social Formations and Cultural Patterns of the ancient and medieval world at various universities across the world The summary key words and representative questions at the end of each chapter would assist in revision and a better understanding of the issues dealt with therein A detailed chapter end reference would enable and motivate the readers to engage in further studies for a better understanding of the themes This book will be of interest to students researchers and academics in the area of history ancient and medieval world history in particular and anthropology It will also be an interesting read for general readers interested in knowing about the ancient and medieval world

Land and Liberalism Andrew Phemister,2023-03-09 Irish land in the 1880s was a site of ideological conflict with resonances for liberal politics far beyond Ireland itself The Irish Land War internationalised partly through the influence of Henry George the American social reformer and political economist came at a decisive juncture in Anglo American political thought and provided many radicals across the North Atlantic with a vision of a more just and morally coherent political economy Looking at the discourses and

practices of these agrarian radicals alongside developments in liberal political thought Andrew Phemister shows how they utilised the land question to articulate a natural and universal right to life that highlighted the contradictions between liberty and property In response to this popular agrarian movement liberal thinkers discarded many older individualistic assumptions and their radical democratic implications in the name of protecting social order property and economic progress Land and Liberalism thus vividly demonstrates the centrality of Henry George and the Irish Land War to the transformation of liberal thought

A Companion to Greek and Roman Political Thought Ryan K. Balot, 2012-12-26 A COMPANION TO GREEK AND ROMAN POLITICAL THOUGHT Justice virtue and citizenship were at the center of political life in ancient Greece and Rome and were frequently discussed by classical poets historians and philosophers This Companion illuminates Greek and Roman political thought in all its range diversity and depth Thirty four essays from leading scholars in history classics philosophy and political science provide stimulating discussions of classical political thought ranging from the Archaic Greek epics to the final days of the Roman Empire and beyond These essays strike a judicious yet thought provoking balance between theoretical and historical perspectives A Companion to Greek and Roman Political Thought is an authoritative guide to the ancient Greek and Roman political questions that continue to shape and challenge the modern world

Demopolis Josiah Ober, 2017-07-14 What did democracy mean before liberalism What are the consequences for our lives today Combining history with political theory this book restores the core meaning of democracy as collective and limited self government by citizens That rather than majority tyranny is what democracy meant in ancient Athens before liberalism Participatory self government is the basis of political practice in Demopolis a hypothetical modern state powerfully imagined by award winning historian and political scientist Josiah Ober Demopolis residents aim to establish a secure prosperous and non tyrannical community where citizens govern as a collective both directly and through representatives and willingly assume the costs of self government because doing so benefits them both as a group and individually Basic democracy as exemplified in real Athens and imagined Demopolis can provide a stable foundation for a liberal state It also offers a possible way forward for religious societies seeking a realistic alternative to autocracy

Postnationalist Ireland Richard Kearney, 2002-11 This work provides a recasting of contemporary Irish politics culture literature and philosophy by examining the concept of absolute national sovereignty and asking if it is a luxury we can afford in the new emerging Europe

Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas

and Clifford Geertz whose theoretical contributions have informed historical debate. Additionally, the Encyclopedia includes some 200 essays treating the development of national, regional, and topical historiographies from the Ancient Near East to the history of sexuality. In addition to the Western tradition, it includes substantial assessments of African, Asian, and Latin American historians and debates on gender and subaltern studies.

Ancient Greek Houses and Households Bradley A. Ault, Lisa C. Nevett, 2011-01-01. Seeking to expand both the geographical range and the diversity of sites considered in the study of ancient Greek housing, *Ancient Greek Houses and Households* takes readers beyond well-established studies of the ideal classical house and now famous structures of Athens and Olynthos. Bradley A. Ault and Lisa C. Nevett have brought together an international team of scholars who draw upon recent approaches to the study of households developed in the fields of classical archaeology, ancient history, and anthropology. The essays cover a broad range of chronological, geographical, and social contexts and address such topics as the structure and variety of households in ancient Greece, facets of domestic industry, regional diversity in domestic organization and status distinctions as manifested within households. *Ancient Greek Houses and Households* views both Greek houses and the archaeological debris found within them as a means of investigating the basic unit of Greek society, the household. Through this approach, the essays successfully point the way toward a real integration between material and textual data between archaeology and history. Contributors include William Aylward (University of Wisconsin-Madison), Nicholas Cahill (University of Wisconsin-Madison), Manuel Fiedler (Freie Universität Berlin), Franziska Lang (Humboldt Universität Berlin), Monike Trümper (Universität Heidelberg), and Barbara Tsakirgis (Vanderbilt University, Nashville).

Caliphs and Merchants Fanny Bessard, 2020-10-09. *Caliphs and Merchants: Cities and Economies of Power in the Near East 700-950* offers fresh perspectives on the origins of the economic success of the early Islamic Caliphate, identifying a number of previously unnoticed or underplayed yet crucial developments such as the changing conditions of labour, attitudes towards professional associations, and the interplay between the state, Islamic religious institutions, and the economy. Moving beyond the well-studied transition between the death of Justinian in 565 and the Arab-Muslim conquests in the seventh century, the volume focuses on the period between 700 and 950 during which the Islamic world asserted its identity and authority. Whilst the extraordinary prosperity of Near Eastern cities and economies during this time was not unprecedented when one considers the early Imperial Roman world, the aftermath of the Arab-Muslim conquests saw a deep transformation of urban retail and craft, which marked a distinct break from the past. It explores the mechanisms effecting these changes from the increasing involvement of caliphs and their governors in the patronage of urban economies to the empowerment of enriched entrepreneurial life from the ninth century. Combining detailed analysis of a large corpus of literary sources in Arabic with presentation of new physical and epigraphic evidence and utilizing an innovative approach which is both comparative and global, the discussion lucidly locates the Middle East within the contemporary Eurasian context and draws instructive parallels between the Islamic world and Western Christendom.

Byzantium South East Asia and China **Rome at War** Nathan Rosenstein,2005-12-15 Historians have long asserted that during and after the Hannibalic War the Roman Republic's need to conscript men for long term military service helped bring about the demise of Italy's small farms and that the misery of impoverished citizens then became fuel for the social and political conflagrations of the late republic Nathan Rosenstein challenges this claim showing how Rome reconciled the needs of war and agriculture throughout the middle republic The key Rosenstein argues lies in recognizing the critical role of family formation By analyzing models of families needs for agricultural labor over their life cycles he shows that families often had a surplus of manpower to meet the demands of military conscription Did then Roman imperialism play any role in the social crisis of the later second century B C Rosenstein argues that Roman warfare had critical demographic consequences that have gone unrecognized by previous historians heavy military mortality paradoxically helped sustain a dramatic increase in the birthrate ultimately leading to overpopulation and landlessness **The Domestic Sources of International Institutions** Kendall Stiles,2022-12-30 This book explores a new way of thinking about diplomacy warfare trade and collective goods that begins with the notion that key international actors project their domestic institutions onto the regional or global arena Exploring the emergence consolidation and decay of international norms the author puts forward a general argument designed to identify patterns across time and space combining key insights from constructivist liberal classical realist English School and feminist thinking By moving from institution to institution each chapter presents a coherent story ranging from antiquity to the contemporary world allowing us to see not only the patterns but also to begin to develop conjectures about other causal stories implicit in the narrative The book will be used by scholars and students of international relations international organization and law security studies political economy historical sociology regionalism and a wide range of specific topics such as arms control trade migration identity and collective goods **Socio-Informatics** Volker Wulf,Volkmar Pipek,David Randall,Markus Rohde,Kjeld Schmidt,Gunnar Stevens,2018-03-02 The book is an exploration of the theoretical conceptual and methodological foundations of human centred design Specifically it critically examines the notion of practice and argues for an understanding of the concept which emanates from engagement with design problems rather than simply from social scientific theory The contributors to the book in their various ways all subscribe to a systematic account of how practice oriented studies can inform design Using the perspective of grounded design it pursues a long term view of the design process arguing for user engagement from the very earliest stages of design policy including methods for understanding user practices to inform initial design policies up to and including processes of appropriation as technologies are embedded in contexts of use Grounded design is a perspective which also deals with the vexed problem of appropriate generalization in design studies and the kinds of cross comparison that can usefully be done The book contains a number of case studies which exemplify these themes some of which are rooted in the use of technology in organizational contexts others of which deal with design in contexts such as care of the elderly firefighting and

multicultural education **Ranciere and Music** Cachopo Joao Pedro Cachopo,2020-04-15 The place of music in Ranciere's thought has long been underestimated or unrecognised This volume responds to this absence with a collection of 15 essays by scholars from a variety of music and sound related fields including an Afterword by Ranciere on the role of music in his thought and writing The essays engage closely with Ranciere's existing commentary on music and its relationship to other arts in the aesthetic regime revealed through detailed case studies around music sound and listening Ranciere's thought is explored along a number of music historical trajectories including Italian and German opera Romantic and modernist music Latin American and South African music jazz and contemporary popular music Ranciere's work is also set creatively in dialogue with other key contemporary thinkers including Adorno Althusser Badiou and Deleuze **Slavery and Slaving in World History: 1900-1991** Joseph Calder Miller,1999 This bibliography of 20th century literature focuses on slavery and slave trading from ancient times through the 19th century compiling listings from all Western European languages It contains over 10 000 entries The principal sections organize works by political geographical frameworks of the enslavers Subject keyword and author indexes provide immediate detailed access to the material **Sites of Exposure** John Russon,2017-08-28 John Russon draws from a broad range of art and literature to show how philosophy speaks to the most basic and important questions in our everyday lives In Sites of Exposure Russon grapples with how personal experiences such as growing up and confronting death combine with broader issues such as political oppression economic exploitation and the destruction of the natural environment to make life meaningful His is cutting edge philosophical work illuminated by original and rigorous thinking that relies on cross cultural communication and engagement with the richness of human cultural history These probing interpretations of the nature of phenomenology the philosophy of art history and politics are appropriate for students and scholars of philosophy at all levels **Democracy Against Capitalism** Ellen Meiksins Wood,2016-02-02 Historian and political thinker Ellen Meiksins Wood argues that theories of postmodern fragmentation difference and contingency can barely accommodate the idea of capitalism let alone subject it to critique In this book she sets out to renew the critical program of historical materialism by redefining its basic concepts and its theory of history in original and imaginative ways using them to identify the specificity of capitalism as a system of social relations and political power She goes on to explore the concept of democracy in both the ancient and modern world examining its relation to capitalism and raising questions about how democracy might go beyond the limits imposed on it *Pragmatism, Feminism, and Democracy* James Livingston,2013-02-01 Pragmatism Feminism and Democracy is James Livingston's virtuoso reflection on the period between 1890 and 1930 a primal scene of American history during which a wave of intellectual currents came together and fell apart to reorient society Tying in critical insights on corporate capitalism consumer culture populism and the American Left Livingston analyzes the intersections and similarities of pragmatism and feminism to yield an original provocative blend of historiography feminist theory and American intellectual history *The American Crucible* Robin

Blackburn,2013-08-06 For over three centuries slavery in the Americas fuelled the growth of capitalism But the stirrings of a revolutionary age in the late eighteenth century challenged this peculiar institution and set the scene for great acts of emancipation in Haiti in 1804 in the United States in the 1860s and Brazil in the 1880s Blackburn argues that the anti slavery movement helped forge the political and social ideals we live by today
