Peer Support Strategies For Improving All Students Social Lives And Learning:

Peer Support Strategies for Improving All Students' Social Lives and Learning Erik W. Carter, Lisa S. Cushing, Craig H. Kennedy, 2009 User friendly guide that provides practical strategies for using various peer supports within middle and high school to facilitate inclusion for students with moderate to severe disabilities The FRIEND® Program for Creating Supportive Peer Networks for Students with Social Challenges, including Autism Holly Sokol, Sheri S. Dollin, Sharman Ober-Reynolds, Christopher J. Smith, Lori Vincent, 2019-10-21 FRIEND is a social communication and play based program to help school aged children with social challenges All students deserve a positive school experience where they can reach their social and academic potential However this can prove difficult for students with challenges such as attention deficit anxiety or autism spectrum disorders who may struggle daily with social situations This manual provides everything educators need to support these students with their social skills in everyday situations throughout their school years This program is designed to help any student with social challenges no matter how subtle For students without social challenges it teaches tolerance acceptance and understanding The characteristics of successful social skills programs are described with an emphasis on how FRIEND implements them through three key components the Peer Sensitivity Curriculum the FRIEND Lunch Program and the FRIEND Playground Program These can be implemented individually or in any combination as a comprehensive program Parents and family are offered information on working together with schools and implementing FRIEND strategies at home and in the community Emphasizing peer sensitivity education and a supportive environment FRIEND is for any educator wanting to create an inclusive and safe atmosphere for students to learn social skill building strategies Practical Social Skills for Autism Spectrum Disorders Kathleen Koenig, 2012-03-06 Building a child's social repertoire for more effective autism treatment High Leverage Practices and Students with Extensive Support Needs Robert Pennington, Melinda Ault, Ginevra Courtade, J. Matt Jameson, Andrea Ruppert, 2022-11-21 Building on the formative work of High Leverage Practices HLP for Inclusive Classrooms this critical companion explores how HLP can be applied to the education of students with extensive support needs ESN Each chapter walks readers through a different HLP exploring its implications for students with ESN and aligning it with current practice supports and terminology Edited by researchers and teacher educators with decades of experience in serving students with ESN and their teachers this book is packed with rich examples of and detailed supports for implementing HLPs to ensure every student has access to all aspects of their school community A Practical Guide to Autism Fred R. Volkmar, Lisa A. Wiesner, 2009-08-17 Autism is in the public spotlight now more than ever as new research and information appears almost daily Although in many ways this is a positive development it also presents challenges to families and practitioners who want to keep up with the latest developments and are left to sift through new information by themselves to see what is credible and relevant for them Each of us needs a personal research assistant who can determine which information we need to pay attention to and let us know how it might

affect our daily work and the children we are living with or serve Since we each don't have our own research assistants on staff I am delighted to recommend this wonderful book by Fred Volkmar and Lisa Wiesner Both of these talented professional leaders have combined their scientific skills and understanding of the field with great practical experience and ideas about how research can be translated into clinical practice The result is a book that provides the best and most comprehensive information about recent scientific developments and a splendid practical guide for how they are being implemented and what we are learning in the process The issues are presented in all of their complexity but translated into language that is clear direct and easy to follow The format also lends itself to understanding the complex issues and their implications through excellent charts question and answer sections and chapters that vary from describing diagnostic issues to stating very specifically how to expand and evaluate the services one is receiving The comprehensive references and lists of additional resources also add greatly to the overall package As a professional dedicated to understanding scientific advances and helping families and teachers to utilize them most effectively I am very pleased to have an ally like this book available I am very grateful to the authors for providing a very credible practical and relevant addition to our field to help the many advocates and family practitioners to better understand the exciting new developments and how they can be implemented in our day to day work Those taking the time to read through this superb volume will find it time well spent that pays back dividends in many different ways FOREWORD by Gary B Mesibov Ph D Professor and Director of TEACCH Treatment and Education of Autistic and Related Communication Handicapped Children University of North Carolina at Chapel Hill
