Bridge Leadership Autumn K. Tooms, Christa Boske, 2010-01-01. This is the first chronicle of the history of social justice as a line of inquiry within the field of educational administration. Editors Tooms and Boske have amassed a collective voice of leaders in the field of Educational Administration who have broken barriers and expanded the field through their own work and scholarship within a national and international arena. Many of these narratives are the first time tellings of the challenges and successes found in the works of this group of scholars of historic significance. This collection is written and organized into practical and easy-to-digest sections. They are part history lesson and part practical teaching tool for those who prepare school leaders. Anyone from school leaders to academics interested or charged with unpacking the messy intersections between school leadership and issues of social justice will find inspiration and easy-to-understand explanations of leadership and equity work within the chapters presented. Endorsement Bridge Leadership is a powerful and fascinating new volume that explores the intersections of social justice and educational leadership. What distinguishes it from other social justice work is that it is much more personal than most such texts. Many of the book's authors share poignant excerpts of their life stories and connect them to the theoretical constructs, historical events, and political struggles of social justice. The foregrounding of these personal stories and the bridges they create with social justice gives the volume a raw power not found in other social justice works. I could not put the volume down. Ulrich C. Reitzug, University of North Carolina Greensboro.
