Nothing Like It in the World Stephen E. Ambrose, 2012-12-11 NOTHING LIKE IT IN THE WORLD is the story of the men who built the transcontinental railroad the investors who risked their businesses and money the enlightened politicians who understood its importance the engineers and surveyors who risked and sometimes lost their lives and the Irish and Chinese immigrants the defeated Confederate soldiers and the other labourers who did the backbreaking and dangerous work on the tracks The US government pitted two companies the Union Pacific and the Central Pacific Railroads against each other in a race for funding encouraging speed over caution Locomotives rails and spikes were shipped from the East through Panama or around South America to the West or lugged across the country to the Plains In Ambrose s hands this enterprise with its huge expenditure of brainpower muscle and sweat comes vibrantly to life

Presenting History Peter J. Beck, 2017-10-04 Who reads academic histories Should historians reach out more beyond academia to the general public Why do Hollywood films historical novels and television histories prove more successful in presenting the past to a wider audience What can historians do to improve their effectiveness in reaching and engaging their target audience in a digital age The way history is presented to an audience is often taken for granted even ignored Presenting History explores the vital role played by presenters in both establishing why history matters in today s world and communicating the past to audiences within and outside academia Through case studies of leading historians historical novelists Hollywood filmmakers and television history presenters this book looks critically at alternative literary and visual ways of presenting the past as both academic history and popular history Historians discussed include Stephen Ambrose Niall Ferguson Eric Hobsbawm Robert A Rosenstone Simon Schama Joan Wallach Scott and A J P Taylor Chapter topics include Hollywood and history

Michael Bellesiles controversial history of gun rights in the USA Philippa Gregory's historical novels historians and the David Irving trial and Terry Deary's Horrible Histories Raising serious questions about the nature study and communication of history Presenting History is an essential text for historians and history students as well as anyone involved in listening to reading or watching presenters of the past

The Victors Stephen E. Ambrose, 1999-07-15 From America's preeminent military historian Stephen E. Ambrose comes the definitive telling of the war in Europe from D Day June 6 1944 to the end eleven months later on May 7 1945 This authoritative narrative account is drawn by the author himself from his five acclaimed books about that conflict most particularly from the definitive and comprehensive D Day and Citizen Soldiers about which the great Civil War historian James McPherson wrote If there is a better book about the experience of GIs who fought in Europe during World War II I have not read it Citizen Soldiers captures the fear and exhilaration of combat the hunger and cold and filth of the foxholes the small intense world of the individual rifleman as well as the big picture of the European theater in a manner that grips the reader and will not let him go No one who has not been there can understand what combat is like but Stephen Ambrose brings us closer to an understanding than any other historian has done The Victors also includes stories of individual battles raids acts of courage and suffering from Pegasus Bridge an account of the first engagement of D Day when a detachment of British airborne troops stormed the German defense forces and paved the way for the Allied invasion and from Band of Brothers an account of an American rifle company from the 506th Parachute Infantry Regiment who fought died and conquered from Utah Beach through the Bulge and on to Hitler's Eagle's Nest in Germany Stephen Ambrose is also the author of Eisenhower the greatest work on Dwight Eisenhower and one of the editors of the Supreme Allied Commander's papers He describes the momentous decisions about how and where the war was fought and about the strategies and conduct of the generals and officers who led the invasion and the bloody drive across Europe to Berlin But as always with Stephen E. Ambrose it is the ranks the ordinary boys and men who command his attention and his awe The Victors tells their stories how citizens became soldiers in the best army in the world Ambrose draws on thousands of interviews and oral histories from government and private archives from the high command Eisenhower Bradley Patton on down through officers and enlisted men to re-create the last year of the Second World War when the Allied soldiers pushed the Germans out of France chased them across Germany and destroyed the Nazi regime

Comrades Stephen E. Ambrose, 2000-09-17 From the author of Undaunted Courage and D Day comes this celebration of male friendship taken both from the pages of history and from Ambrose's own life Acclaimed historian Stephen Ambrose begins his examination with a glance inward he starts this book with his brothers his first and forever friends and the shared experiences that join them for a lifetime overcoming distance and misunderstandings He writes of Dwight D. Eisenhower who had a golden gift for friendship and who shared a perfect trust with his younger brother Milton in spite of their apparently unequal stations With great feeling Ambrose brings to life the relationships of the young soldiers of Easy Company who fought and died together

from Normandy to Germany and he describes with admiration three who fought in different armies on different sides in that war and became friends later He recounts the friendships of Lewis and Clark and of Crazy Horse and He Dog and he tells the story of the Custer brothers who died together at the Little Big Horn Comrades concludes with the author s moving recollection of his own friendship with his father He was my first and always most important friend I didn t learn that until the end when he taught me the most important thing that the love of father son father son is a continuum just as love and friendship are expansive

The Oxford Handbook of World War II G. Kurt Piehler,Jonathan A. Grant,2023 World War II dramatically transformed human life and society resulting in the deaths of 100 million people and shaping the worldview and psyches of generations The Oxford Handbook of World War II broadens traditional narratives of the war and in the process changes our understanding of this epic conflict Spanning the rise and fall of the Versailles system to the postwar reintegration of veterans and the eventual commemoration of the conflict and its victims The Oxford Handbook of World War II marks a landmark contribution to the historical literature of war
