Mothers, Daughters, and Body Image Hillary L. McBride, 2017-10-31 When women are told that what is important about us is how we look it becomes increasingly difficult for us to feel comfortable with our appearance and how we feel about our bodies We are told over and over if we just lost weight fit into those old jeans or into a new smaller pair we will be happier and feel better about ourselves The truth is so many women despise their appearance weight and shape that experts who study women s body image now consider this feeling to be normal But it does not have to be that way It is possible for us as women to love ourselves our bodies as we are We need a new story about what it means to be a woman in this world Based on her original research Hillary L McBride shares the true stories of young women and their mothers and provides unique insights into how our relationships with our bodies are shaped by what we see around us and the specific things we can do to have healthier relationships with our appearance and all the other parts of ourselves that make us women In Mothers Daughters and Body Image McBride tells her own story of recovery from an eating disorder and how her struggles led her to dream of a new vision for womanhood from one without body shame negative comparisons or insecurities to one of freedom connection and acceptance

American Motherhood , 1908

The Language of Mothers Rain Wright, 2025-02-12 The Language of Mothers is a hybrid memoir grounded in the power of prose and poetry It is an imaginative tapestry of women s storytelling that punctures narrative craft to illuminate the inheritance of domestic trauma and the voicing of familial stories that are healing spaces that carry through time The Language of Mothers is about two mothers caught in abusive

relationships impoverished with children with few avenues of escape These stories shed light on the culture of American motherhood as a failure for women perpetuating a system of patriarchal ideals that only values the nuclear family as whole spaces of abundance love and worth At nineteen Rain Wright's mother left Dronfield England traveling through Europe before landing in New York in the turbulent 1960s Swept up in the changing societal wave Elizabeth her mother travels to California where she meets her future abuser Rain's father This memoir is the story of Elizabeth's courageous escape with three young children and it is the story of Rain's escape decades later The Language of Mothers navigates the inheritance of trauma finding that storytelling and art for both women become the impetus for healing Elizabeth packs her children's belongings in black plastic bags and hides them in the brush along Elk Ridge Road in California making her daring escape with the help of friends and an ex lover She flies with her children across an ocean to the safety of Hawai'i where she finds art lomi lomi music and security After Elizabeth's passing from breast cancer in 1996 her stories inherited from years of car rides around Hawai'i Island are the language of mythmaking The Language of Mothers is an intimate look at why women stay too long in abusive relationships and an act of defiance and regenerative love Rain's story is a tapestry of early childhood trauma as witness to her mother's abuse domestic terror at the hands of her children's father and her own escape narrative The Language of Mothers deeply sees the aftereffects of domestic abuse including her eldest daughter's suicide attempts her middle daughter's strive for perfection and her youngest daughter's need for control through anorexia Women's stories can heal Rain interweaves traumatic parts of her past but recounts acts of love telling her daughters stories and becoming their storyteller

The PTA Magazine, 1914 **Renegotiating Patriarchy** Naila Kabeer, 2024-09-26 The idea of the Bangladesh paradox describes the unexpected social progress that Bangladesh has made in recent decades that has been both pro poor and gender equitable This began at a time when the country was characterised by extreme levels of poverty poor quality governance an oppressive patriarchy and rising Islamic orthodoxy This paradox has evoked a great deal of interest within the international development community because Bangladesh had been dubbed an international basket case at the time of its independence in 1971 seemingly trapped in a development impasse Previous attempts to explain this paradox have generally taken a top down approach focusing on the role of leading institutional actors donors government NGOs and the private sector In *Renegotiating Patriarchy* Gender Agency and the Bangladesh Paradox Naila Kabeer starts with the rationale that policy actions taken at the top are unlikely to materialise into actual changes if they are not acted on by the mass of ordinary

women and men But what led these women and men to act And why did they act in ways that modified some of the more oppressive aspects of patriarchy in the country That is what this book sets out to investigate It describes the history of the Bengal delta and the forces that gave rise to the kind of society that Bangladesh was at the time of its independence It considers the policy and politics that characterised post independence Bangladesh and how these contributed to the progress captured in the idea of the Bangladesh paradox But the key argument of the book is that much of this progress reflected the agency exercised by ordinary often very poor women in the course of their everyday lives Their agency helped to translate institutional actions into concrete changes on the ground To explore why and how this happened the book draws on a rich body of ethnographic qualitative and quantitative research on social change in Bangladesh including studies by the author herself The book is therefore about how norms and practices can change in progressive ways despite unpropitious circumstances as a result of the efforts of poor women in Bangladesh to renegotiate what had been described as one of the most non negotiable patriarchies in the world
