Starting with Whitehead Lynn Sargent De Jonghe, 2022-07-26 Parents and teachers want to give children the best opportunities for success in life But opinions may vary vehemently about the methods for accomplishing these aims *Starting with Whitehead* begins with the premise that today's children will need skills and values to live in a world of fast paced turbulent change creativity problem solving ability attitudes of life long learning emotional

resilience and appreciation of different perspectives As we seek guidance on these issues we are led to the work of Alfred North Whitehead who brilliantly perceived that the process of change itself is fundamental to our existence how we experience ourselves and others and how we interact with the world around us In his classic work *The Aims of Education* he elaborated a three stage process of learning involving romance precision and generalization His vision of education calls for exploring real experiences rather than packing scraps of information into passive students This book offers examples of learning events at each stage that illustrate how adults can help children thrive in a world of change based on the author s experience working with children as a parent teacher principal and policy maker Drawing on seminal psychological and educational research De Jonghe sets these events in the context of a vigorous theoretical foundation and proposes specific strategies for success Her recommendations have relevance for parents teachers principals and policy makers

Rewiring Education John D. Couch,2023-01-03 What if we could unlock the potential in every child As it turns out we can Apple s iconic cofounder Steve Jobs had a powerful vision for education employing technology to make an enormous impact on the lives of millions of students To realize this vision Jobs tapped John D Couch a trusted engineer and executive with a passion for education Couch believed the real purpose of education was to help children discover their unique potential and empower them to reach beyond their perceived limitations Today technology is increasingly integrated into every aspect of our lives rewiring our homes our jobs and even our brains Most important it presents an opportunity to rewire education to enrich and strengthen our schools children and society In *Rewiring Education* Couch shares the professional lessons he s learned during his 50 plus years in education and technology He takes us behind Apple s major research study *Apple Classrooms of Tomorrow ACOT* and its follow up *ACOT 2* highlighting the powerful effects of the Challenge Based Learning framework Going beyond Apple s walls he also introduces us to some of the most extraordinary parents educators and entrepreneurs from around the world who have ignored the failed promises of memorization and instead utilize new science backed methods and technologies that benefit all children from those who struggle to honor students *Rewiring Education* presents a bold vision for the future of education looking at promising emerging technologies and how we as parents teachers and voters can ensure children are provided with opportunities and access to the relevant creative collaborative and challenging learning environments they need to succeed
