New breakthrough thinking in organizational learning leadership and change Continuous improvement understanding  
complex systems and promoting innovation are all part of the landscape of learning challenges today's companies face Amy  
Edmondson shows that organizations thrive or fail to thrive based on how well the small groups within those organizations  
work In most organizations the work that produces value for customers is carried out by teams and increasingly by flexible  
team like entities The pace of change and the fluidity of most work structures means that it's not really about creating  
effective teams anymore but instead about leading effective teaming Teaming shows that organizations learn when the  
flexible fluid collaborations they encompass are able to learn The problem is teams and other dynamic groups don't learn  
naturally Edmondson outlines the factors that prevent them from doing so such as interpersonal fear irrational beliefs about  
failure groupthink problematic power dynamics and information hoarding With Teaming leaders can shape these factors by  
encouraging reflection creating psychological safety and overcoming defensive interpersonal dynamics that inhibit the  
sharing of ideas Further they can use practical management strategies to help organizations realize the benefits inherent in  
both success and failure Presents a clear explanation of practical management concepts for increasing learning capability for  
business results Introduces a framework that clarifies how learning processes must be altered for different kinds of work  
Explains how Collaborative Learning works and gives tips for how to do it well Includes case study research on  
Intermountain healthcare Prudential GM Toyota IDEO the IRS and both Cincinnati and Minneapolis Children's Hospitals  
among others Based on years of research this book shows how leaders can make organizational learning happen by building  
teams that learn      **PC Mag** , 2006-12-05 PCMag.com is a leading authority on technology delivering Labs based
