### **Introduction to Corrections** Robert D.

Hanser,2023-05-12 Introduction to Corrections provides students with a comprehensive foundation of corrections that is practitioner driven and grounded in modern research and theoretical origins Experienced correctional practitioner scholar and author Robert D Hanser shows students how the corrections system works from classification security and treatment to demonstrating how and why correctional practices are implemented The Fourth Edition includes a special emphasis on the role of technology in each chapter new topics on medical care in jail female drug offenders and controversies around the death penalty and the impact of the COVID 19 pandemic on correctional practices Data and examples drawn from federal government documents along with exercises that reinforce concepts in the text further aid student learning *Closing the Justice Gap for Adult and Child Sexual Assault* Anne Cossins,2020-10-21 This book examines the justice gap and trial process for sexual assault against both adults and children in two jurisdictions England and Wales and New South Wales Australia Drawing on decades of research it investigates the reality of the policing and prosecution of sexual assault offences often seen as one of the hardest crimes to prosecute across two similar jurisdictions Despite the introduction of the many reform options detailed in the book satisfactory outcomes for victims and the public are still difficult to obtain Cossins takes a new approach by examining the nature and effects of adversarialism on vulnerable witnesses jury decision making and the structures of power within the trial process to show how and at what points that process is weighted against complainants of sexual assault in order to make evidence based suggestions for reform She argues that this justice gap is a result of a moralisticadversarial culture which fosters myths and misconceptions about rape and child sexual assault thus requiring the prosecution to prove a complainant s moral worthiness She argues this culture can only be eliminated by a radical replacement of the adversarial system with a trauma informed system By reviewing the relevant psychological literature this book documents the triggers for re traumatisation within an adversarial trial and discusses the reform measures that would be necessary to transform the sexual assault trial from one where the complainant s moral worthiness is on trial to a fully functioning trauma informed system It speaks to students and academics across subjects including law criminology gender studies and psychology and practitioners in law and victim services as well as policy makers The City Record New York (N.Y.),1920 Decision Making, Assessment and Risk in Social Work Brian J. Taylor,2017-04-10 At a time when accountability and the avoidance of risk are increasingly demanded of social workers the ability to make clear and informed decisions is essential This book written for practicing social workers undertaking their ASYE and compulsory CPD has been designed to help professionals make sound judgments in increasingly complex contexts and under pressure The focus is on empowering front line professionals through reflective practice so that they are able to draw on multiple factors and perspectives and make sound problem solving judgements The book begins with the core concepts client focus and legal background before moving on to consider the collaborative processes and the nature of individual judgements It then

considers particular dimensions of social work decision making such as safeguarding taking risks assessment and dynamic decision tools and processes It then concludes by look at the organisational context of decision management with a focus on supervision training and effective communication
