Politics Across the Hudson Philip Mark Plotch, 2018-06-20 Winner of the 2015 American Planning Association New York Metro Chapter Journalism Award The State of New York built one of the world's longest widest and most expensive bridges the new Tappan Zee Bridge stretching more than three miles across the Hudson River approximately thirteen miles north of New York City In **Politics Across the Hudson** urban planner Philip Plotch offers a behind the scenes look at three decades of contentious planning and politics centered around this bridge recently renamed for Governor Mario M Cuomo the state's governor from 1983 to 1994 He reveals valuable lessons for those trying to tackle complex public policies while also confirming our worst fears about government dysfunction Drawing on his extensive experience planning megaprojects interviews with more than a hundred key figures including governors agency heads engineers civic advocates and business leaders and extraordinary access to internal government records Plotch tells a compelling story of high stakes battles between powerful players in the public private and civic sectors He reveals how state officials abandoned viable options squandered hundreds of millions of dollars forfeited more than three billion dollars in federal funds and missed out on important opportunities Faced with the public's unrealistic expectations no one could identify a practical solution to a vexing problem a dilemma that led three governors to study various alternatives rather than disappoint key constituencies This revised and updated edition includes a new epilogue and more photographs and continues where Robert Caro's *The Power Broker* left off and illuminates the power struggles involved in building New York's first major new bridge since the Robert Moses era Plotch describes how one governor Andrew Cuomo shrewdly overcame the seemingly insurmountable obstacles of onerous environmental regulations vehement community opposition insufficient funding interagency battles and overly optimistic expectations

Healthy, Resilient, and Sustainable Communities After Disasters Institute of Medicine, Board on Health Sciences Policy, Committee on Post-Disaster Recovery of a Community's Public Health, Medical, and Social Services, 2015-09-10 In the devastation that follows a major disaster there is a need for multiple sectors to unite and devote new resources to support the rebuilding of infrastructure the provision of health and social services the restoration of care delivery systems and other critical recovery needs In some cases billions of dollars from public private and charitable sources are invested to help communities recover National rhetoric often characterizes these efforts as a return to normal But for many American communities pre disaster conditions are far from optimal Large segments of the U S population suffer from preventable health problems experience inequitable access to services and rely on overburdened health systems A return to pre event conditions in such cases may be short sighted given the high costs both economic and social of poor health Instead it is important to understand that the disaster recovery process offers a series of unique and valuable opportunities to improve on the status quo Capitalizing on these opportunities can advance the long term health resilience and sustainability of communities thereby better preparing them for future challenges **Healthy Resilient and Sustainable Communities After**

Disasters identifies and recommends recovery practices and novel programs most likely to impact overall community public health and contribute to resiliency for future incidents This book makes the case that disaster recovery should be guided by a healthy community vision where health considerations are integrated into all aspects of recovery planning before and after a disaster and funding streams are leveraged in a coordinated manner and applied to health improvement priorities in order to meet human recovery needs and create healthy built and natural environments The conceptual framework presented in Healthy Resilient and Sustainable Communities After Disasters lays the groundwork to achieve this goal and provides operational guidance for multiple sectors involved in community planning and disaster recovery Healthy Resilient and Sustainable Communities After Disasters calls for actions at multiple levels to facilitate recovery strategies that optimize community health With a shared healthy community vision strategic planning that prioritizes health and coordinated implementation disaster recovery can result in a communities that are healthier more livable places for current and future generations to grow and thrive communities that are better prepared for future adversities

Dying and Living in the Neighborhood Prabhjot Singh, 2016-09-15 Have neighborhoods been left out of the seismic healthcare reform efforts to connect struggling Americans with the help they need Even as US spending on healthcare skyrockets impoverished Americans continue to fall ill and die of preventable conditions Although the majority of health outcomes are shaped by non medical factors public and private healthcare reform efforts have largely ignored the complex local circumstances that make it difficult for struggling men women and children to live healthier lives In Dying and Living in the Neighborhood Dr Prabhjot Singh argues that we must look beyond the walls of the hospital and into the neighborhoods where patients live and die to address the troubling rise in chronic disease Building on his training as a physician in Harlem Dr Singh draws from research in sociology and economics to look at how our healthcare systems are designed and how the development of technologies like the Internet enable us to rethink strategies for assembling healthier neighborhoods In part I Singh presents the story of Ray a patient whose death illuminated how he had lived his neighborhood context and the forces that accelerated his decline In part II Singh introduces nationally recognized pioneers who are acting on the local level to build critical components of a neighborhood based health system In the process he encounters a movement of people and organizations with similar visions of a porous neighborhood embedded healthcare system Finally in part III he explores how civic technologies may help forge a new set of relationships among healthcare public health and community development Every rising public health leader frontline clinician and policymaker in the country should read this book to better understand how they can contribute to a more integrated and supportive healthcare system

Sport Development in the United States Peter Smolianov, Dwight Zakus, Joseph Gallo, 2014-09-15 The development of both elite high performance sport and mass participation grassroots level sport are central concerns for governments and sports governing bodies This important new study is the first to closely examine the challenges and opportunities for sports development in the United States a global sporting giant with a unique

market driven sporting landscape Presenting an innovative model of integrated sports development the book explores the inter relationship between elite and mass sport across history drawing on comparative international examples from Australia to the former USSR and Eastern bloc countries At the heart of the book is an in depth empirical study of three traditional and emerging sports in the US tennis soccer and rugby that offer important lessons on the development of elite sport methods for increasing participation and the establishment of new sports in new markets No other book has attempted to model sports development in the United States in such depth before Therefore this should be essential reading for all students researchers administrators or policy makers with an interest in sports development sports management sports policy or comparative international sport studies
