Observations On The Spiritual Situation Of The Age:

Observations on "the Spiritual Situation of the Age" Jürgen Habermas, 1984 The essays in this collection provide an unusually rich set of original reflections on current German political social cultural religious and intellectual life

Observations on the Spiritual Situation of the Age Jürgen Habermas, 1984 **The Rise and Demise of German Statism** Gregg Kvistad, 1999-03-01 German statism as a political ideology has been the subject of many historical studies Whereas most of these focus on theoretical texts cultural works and vague traditions this study understands German statism as a functioning logic of political membership a logic that has helped to determine who is in and who is out with regard to the German political community Tracing statism from the early 19th century through German unification and beyond in the 1990s the author argues that with its central concern for a political loyalty that is vetted from above it historically served the function of stabilizing the political order and containing democratic mobilization Beginning in the 1960s however a mobilized German democratic consciousness from below gradually rejected statism as anachronistic for informing political and policy debate and German political institutions began to respond to kind **Academia and the Luster of Capital** Sande Cohen, Ideas says Sande Cohen have attained commodity status in the academy and knowledge is now seen as another capitalistic industry In Academia and the Luster of Capital Cohen both reveals and interrogates the specific and material workings of this economy of the marketplace of ideas Cohen uses paradigms from Baudrillard Lyotard Deleuze and Guattari to assemble a war machine against the well oiled apparatus of self preservation and self reproduction of the academic institution In detailed and concrete arguments he challenges accepted theories of criticism especially university based myths Academia and the Luster of Capital constitutes a compelling statement for the abandonment of legitimating officiating paradigms of thought in all academic disciplines and outlines possibilities for the emergence of the new in thought in action **Weimar Intellectuals and the Threat of Modernity** Dagmar Barnouw, 1988-06-22 the range power and archival resourcefulness of Barnouw s book will make it impossible for anyone working in the field to ignore this powerful and disturbing historical meditation on the societal function and responsibility of the intellectual The German Quarterly a work of real value for patient readers American Journal of Sociology a forceful and compelling thesis that challenges our understanding of several seminal figures writing during the first half of the century Monatshefte In this challenging study of a complex period Barnouw investigates the works of seven representative figures of the Weimar republic Walter Rahtenau Robert Musil Thomas Mann Walter Benjamin Ernst J nger Hermann Broch and Alfred D blin **The Vitality of Critical Theory** Harry F. Dahms, 2011-05-19 States that the critical theory of the Frankfurt School is as important today if not more so as it was at its inception during the 1930s This title looks at the distinguishing features of this tradition and how it is critical yet also complementary of other approaches in the social sciences especially in sociology **Dark Territory in the Information Age** Matthew G. Hannah, 2017-05-15 Through a detailed account of the West German census controversies of the 1980s this

book offers a robust and geographical sense of what effective resistance and empowerment might mean in an age when the intensification of surveillance society appears to render us ever more passive and incapable of controlling our own registration

Feminist Interpretations and Political Theory Carole Pateman, Mary Lyndon Shanley, 1991 This volume brings together exciting and provocative new feminist readings of famous classic and contemporary texts from Plato to Habermas The collection also includes examinations of the writings of Mary Wollstonecraft and Simone de Beauvoir that are usually excluded from the works conventionally held to comprise Western political thought The essays raise fundamentally important questions about the significance of sexual difference in the great works of political theory and draw attention to neglected arguments and silences in the texts No single feminist view of either the texts or the theoretical way forward informs these essays A wide diversity of feminist approaches and theoretical frameworks are represented forming a rich variety of interpretations and argument about such questions as the patriarchal construction of central political categories the relation between public and private life and the problem of equality and difference including differences among women This refreshing and stimulating collection will be indispensable for students of political thought and offers all those interested in the connection between the classic writings and current political discussions as accessible introduction to feminist argument

Poststructuralism and Critical Theory's Second Generation Alan D. Schrift, 2014-09-11 Poststructuralism and Critical Theory's Second Generation analyses the major themes and developments in a period that brought continental philosophy to the forefront of scholarship in a variety of humanities and social science disciplines and that set the agenda for philosophical thought on the continent and elsewhere from the 1960s to the present Focusing on the years 1960-1984 the volume examines the major figures associated with poststructuralism and the second generation of critical theory the two dominant movements that emerged in the 1960s Althusser Foucault Deleuze Derrida Lyotard Irigaray and Habermas Influential thinkers such as Serres Bourdieu and Rorty who are not easily placed in standard histories of the period are also covered Beyond this thematic essays engage with issues as diverse as the Nietzschean legacy the linguistic turn in continental thinking the phenomenological inheritance of Gadamer and Ricoeur the influence of psychoanalysis the emergence of feminist thought and a philosophy of sexual difference the renewal of the critical theory tradition and the importation of continental philosophy into literary theory

A Council that Will Never End Paul Lakeland, 2013 Lumen Gentium Vatican II's Dogmatic Constitution on the Church changed how the church thinks about the laity holiness baptism and even the nature and purpose of the church itself In *A Council That Will Never End* the highly regarded ecclesiologist Paul Lakeland marks the fiftieth anniversary of this document's promulgation by taking up three major themes of the constitution analyzing the text and identifying some of the questions with which it leaves us Lakeland is convinced that Lumen Gentium leaves much unfinished business as any historical document must that attending to it will take us beyond much of the now sterile ecclesial divisions and that the ecclesiology of humility it implies marks the way that theology must guide the church

in the years ahead **Words Made Flesh** Elaine Graham,2013-01-25 Words Made Flesh draws together a number of Elaine Graham s shorter writings and essays and thereby maps out the work of a pioneer theological thinker and the development of pastoral and practical theology in the last twenty years Elaine Graham considers the theological significance of topics as diverse as nativity plays science fiction gender consumerism cyberspace and urban regeneration They all share a concern with the way the sources and norms of the Christian tradition can enter into a creative and critical conversation with contemporary experience in order to generate the practical wisdom by which the life of the Church can be directed They reflect Elaine Graham s fundamental conviction that theology as talk about God in the world is always practical and public and that it begins and ends in the complexities of the human condition where words become flesh Architecture in the Age of Divided Representation Dalibor Vesely,2004 Reclaiming the humanistic role of architecture in the age of technology an examination of architecture s indispensable role as a cultural force throughout history **Germany in the Age of Kaiser Wilhelm II** James Retallack,1996-05-01 This lively and concise book uses a dual approach to introduce students and non specialists to Wilhelmine Germany 1888 1918 It surveys social economic political cultural and diplomatic developments in an age of tumultuous upheaval It also explains why historians have so often reversed the interpretative switches guiding research on this period By highlighting the breadth of historical change under Wilhelm II and the evolution of opposing viewpoints about its significance this book provides easy access to an epoch and a debate characterised more by controversy than consensus **Karl Jaspers and the Role of "conversion" in the Nuclear Age** Gregory J. Walters,1988 Analyzes and critiques Karl Jaspers philosophy on the atom bomb and its relation to the future of humanity This work studies the human transformations called for by Jaspers in science politics and religion and develops the limits and possibilities of Jaspers ideas from the perspective of present nuclear capabilities contemporary moral discourse and Christian faith *COVID-19 and Public Policy in the Digital Age* Andrea Monti,Raymond Wacks,2020-12-23 COVID 19 and Public Policy in the Digital Age explores how states and societies have responded to the COVID 19 pandemic and their long term implications for public policy and the rule of law globally It examines the extent to which existing methods of protecting public safety and national security measure up in a time of crisis The volume also examines how these ideas themselves have undergone transformation in the context of the global crisis This book Explores the intersection of public policy individual rights and technology Analyzes the role of science in determining political choices Reconsiders our understanding of security studies on a global scale arising out of antisocial behaviour panic buying and stockpiling of food and in the United States arms Probes the role of fake news and social media in crisis situations and Provides a critical analysis of the notion of global surveillance in relation to the pandemic A timely prescient volume on the many ramifications of the pandemic this book will be essential reading for professionals scholars researchers and students of public policy especially practitioners working in the fields of technology and society security studies law media studies and public health **Abundance of Life** Harry R. Abundance of Life Auslegung ,1987 **Spirit as Sculptor of the Human Organism** Rudolf Steiner,2014 Let us be courageous and not draw back in fear when realities of the world of spirit that play into human life are unveiled You see the future of humanity depends on us learning to live with the world of spirit in the same way that we live with the physical world here on earth Rudolf Steiner In a wide ranging series of lectures Rudolf Steiner demonstrates the integral nature of spirit and matter and their manifold connections Speaking to audiences in London Holland Germany and Switzerland Steiner explains how through a process of evolving consciousness humanity lost its knowledge and direct experience of the spiritual sources of existence but now needs to reconnect with them Spirit is the essence and power of life which in Steiner s vivid image strikes a match in our whole being when we allow it to inform us fully Our world cannot be understood only in physical terms but is inseparable from the divine realities continually creating and sustaining it Reconnecting with the spirit calls upon us to heal the fractures between everyday consciousness and the metaphysical realms in which we are already embedded In Steiner s descriptions there is no end to the numerous reconnections possible between our past present and future between the active individualizing principle of the I and the physical human body it works upon and shapes between our physical actions and limb movements in one life and the forming or sculpting of our head in a future one and above all between the moral actions and insights we develop whilst alive on earth and our developing eye for spiritual reality in the life after death with all that this can mean for the future of human evolution Taking a truly holistic approach Rudolf Steiner tackles an eclectic series of subjects throughout these sixteen lectures all united by the common theme of rediscovering how spirit pervades life Apart from a focus on education in several lectures he discusses experiences during sleep the human spirit and soul between death and a new birth how spirit sculpts the human organism Christ from the perspective of anthroposophy the battle for human nature between luciferic and ahrimanic beings karma and the creation of conditions for our return to a new life on earth human experience of the etheric cosmos and the human being s faculties of hearing speaking singing walking and thinking Together these lectures offer a cornucopia of spiritual insights and wisdom for the present day *Unmodern Observations* The Late William Arrowsmith,Friedrich Wilhelm Nietzsche,William Arrowsmith,1990-01-01 **Observations on Various Passages of Scripture** Thomas Harmer,1817
