Nursing Children And Young People With Adhd:

Nursing Children and Young People with ADHD Noreen Ryan, Tim McDougall, 2009-01-21 ADHD is one of the most commonly diagnosed behavioural disorders in children and young people. It is a complex and contested condition with potential causes and treatments in biological, psychological and social domains. This is the first comprehensive text for nurses and other health professionals in this field. *Nursing Children and Young People with ADHD* explores the evidence incorporating and expanding on the new NICE guidelines for practice in this area to provide an essential knowledge base for practice. The text covers causes, diagnosis, comorbidity, user and carer perspectives, assessment, treatment and interventions including those suitable for use in schools, prescribing and the legal background. An invaluable text for pre-registration student nurses on mental health and children branches, this will also be a useful reference work for post-registration nurses and health professionals seeking evidence-based recommendations for practice.

Essentials of Nursing Children and Young People Jayne Price, Orla McAlinden, Zoë Veal, 2023-12-15 This book is a one-stop shop for the vast majority of children and young people's nursing students. The editors for the new edition are Jayne Price from Kingston University, Orla McAlinden previously from Queen's University Belfast and Zoë Veal from UWE Bristol, all with vast experience in nursing children and young people. A high level of research has gone into developing and refining the key features for this edition, such as updated voices and implementing new NMC standards. This book maps to the content of the majority of pre-registration child nursing programmes and, by adopting a 5-part structure, it clearly covers the core parts of training and practice that you will need: Part 1 Principles of nursing children and young people; Part 2 Wellbeing and development; Part 3 Caring for children and young people with acute health care needs and injury; Part 4 Caring for children and young people with complex and high dependency needs; Part 5 Being a professional children and young people's nurse.

Ethical and Philosophical Aspects of Nursing Children and Young People Gosia M. Brykczynska, Joan Simons, 2011-01-19 Nurses and healthcare professionals are constantly faced with ethical and philosophical dilemmas when working with children in everyday practice. *Ethical and Philosophical Aspects of Nursing Children and Young People* is a comprehensive text on the ethics and philosophy behind paediatric nursing that reflects the contemporary issues encountered while working with children and young people. The title provides a philosophical and historical analysis of the subject, looking at a review of sociological and political theories concerning the nature of childhood and providing a critical analysis of contemporary notions about childhood. It then goes on to look at moral theories and their application to paediatric nursing practice, ethical issues when caring for children of all ages from infancy to adolescence. It considers issues of disabled children, confidentiality, mental health issues, children's rights and pain management. With case studies and activities throughout, this book will enable students and newly qualified nurses both to understand philosophical concepts and issues but also to articulate their own reflections and observations on these subjects. Written by children's nurses for children's nurses. With contributions from

internationally recognised experts in the field Reflective scenarios further reading extensive referencing case studies guided questions and resources throughout Includes appendices on the RCPCH Guidelines on Withdrawal of Treatment the ICN Ethical Code the Summary of the UNCRC and the RCPCH Guidelines for the Conduct of Ethical Research **Nursing In Child And Adolescent Mental Health** Dogra, Nisha,Leighton, Sharon,2009-10-01 Fiona Smith Adviser in Children s and Young People s Nursing Royal College of Nursing UK **Children and Young People's Mental Health** Tim McDougall,2016-10-04 Children and Young People s Mental Health equips nurses and healthcare professionals with the essential skills and competencies needed to deliver effective assessment treatment and support to children and young people with mental health problems and disorders and their families Drawing on McDougall s Child and Adolescent Mental Health Nursing and taking the Cavendish Report and Willis Commission into account this new textbook has been designed to ensure those working in CAMHS can continue to provide a high quality evidence based service The book explores best practice in a variety of settings and addresses issues such as eating disorders self harm ADHD forensic mental health issues and misuse of drugs and alcohol in children and young people as well as child protection clinical governance safeguarding and legal requirements Furthermore with young people contributing directly to several chapters the book reflects the importance of involving them in planning delivering and evaluating CAMHS services It is essential reading for all health and social care professionals and students working with children and young people particularly those working in specialist child and adolescent mental health settings *Specialist Mental Healthcare for Children and Adolescents* Tim McDougall,Andy Cotgrove,2013-12-17 A need for comprehensive services for young people requiring more intensive mental health services has been identified and this book explores what works in Child and Adolescent Mental Health CAMHS at this level Specialist Mental Healthcare for Children and Adolescents looks at intensive outpatient and community services assertive outreach teams inpatient residential and secure provision and other highly specialised assessment consultation and intervention services Based on the best available evidence each chapter provides key points research summaries and an overview of available treatments It outlines emerging good practice guidance service models assessment and training and workforce development requirements This accessible text is essential reading for commissioners and professionals including psychiatrists psychologists nurses therapists social workers and teachers working in specialist CAMHS services as well as all those studying for qualifications in child and adolescent mental health Helping Children and Young People who Self-harm Tim McDougall,Marie Armstrong,Gemma Trainor,2010-07-12 Every year thousands of children and young people attend emergency departments with problems resulting from self harm More still come to the attention of CAMHS teams school nurses and other community based services Helping Children and Young People who Self harm provides clear and practical guidance for health professionals and other members of the children s workforce who are confronted by this complex and difficult area Providing accessible evidence based advice this textbook looks at what we mean by self harm and its prevalence
