re after him and he doesn't know why There's a word they say A word that kills And they want it back **Spent** Kerry Cohen, 2014-09-23 In *Spent* editor Kerry Cohen opens the closet doors wide to tales of women's true relationships with shopping from humorous stories of love-hate relationships with the mall to heartbreaking tales of overspending to fix relationships With a contributor list that includes notable female writers like Emily Chenoweth Ophira Eisenberg Allison Amend and Aryn Kyle the essays each shine light on the particular impact shopping has on all of us Whether they're cleaning out closets of loved ones hiding a shoplifting habit trying out extreme couponing dividing up family possessions or buying a brand new car while in labor the book's contributors vacillate between convincing themselves to spend and struggling not to This illuminating anthology links the effects shopping has on our emotions whether it fills us with guilt happiness resentment or doubt our self-worth and our relationships with parents grandparents lovers children and friends **HandiLand** Elizabeth A. Wheeler, 2019-08-21 *HandiLand* looks at young adult novels fantasy series graphic memoirs and picture books of the last 25 years in which characters with disabilities take center stage for the first time These books take what others regard as weaknesses for instance Harry Potter's headaches or Hazel Lancaster's oxygen tank and redefine them as part of the hero's journey *HandiLand* places this movement from sidekick to hero in the political contexts of disability rights movements in the United States the United Kingdom and Ghana Elizabeth A. Wheeler invokes the fantasy of *HandiLand* an ideal society ready for young people with disabilities before they get there as a yardstick to measure how far we've come and how far we still need to go toward the goal of total inclusion The book moves through the public spaces young people with disabilities have entered including schools nature and online communities As a disabled person and parent of children with disabilities Wheeler offers an inside look into families who collude with their kids in shaping a better world Moving funny and beautifully written *HandiLand* *The Crippest Place on Earth* is the definitive study of disability in contemporary literature for young readers *Making Black History* Dominique Haensell, 2021-10-04 This study proposes that rather than trying to discern the normative value of Afropolitanism as an identificatory concept politics ethics or aesthetics Afropolitanism may be best approached as a distinct historical and cultural moment that is a certain historical constellation that allows us to glimpse the shifting and multiple silhouettes which Africa as signifier as real and imagined locus embodies in the globalized yet predominantly Western cultural landscape of the 21st century As such *Making Black History* looks at contemporary fictions of the African or Black Diaspora that have been written and received in the moment of Afropolitanism Discursively this moment is very much part of a diasporic conversation that takes place in the US and is thus informed by various negotiations of blackness race class and cultural identity Yet rather than interpreting Afropolitan literatures merely as a rejection of racial solidarity as some commentators have they should be read as ambivalent responses to post-racial discourses dominating the first decade of the 21st century particularly in the US which oscillate between moments of intense hope and acute disappointment Please read our interview with Dominique Haensell here <https://blog.degruyter.com/degruyters/10th-open>

access book anniversary dominique haensell and her winning title making black history      **That Book Is Dangerous!** Adam Szetela,2025-08-12 An alarming expos of the new challenges to literary freedom in the age of social media when anyone with an identity and an internet connection can be a censor In *That Book Is Dangerous* Adam Szetela investigates how well intentioned and often successful efforts to diversify American literature have also produced serious problems for literary freedom Although progressives are correct to be focused on right wing attempts at legislative censorship Szetela argues for attention to the ways that left wing censorship controls speech within the publishing industry itself The author draws on interviews with presidents and vice presidents at the Big Five publishers literary agents at the most prestigious agencies award winning authors editors marketers sensitivity readers and other industry professionals to examine the new publishing landscape What he finds is unsettling mandatory sensitivity reads morality clauses in author contracts even censorship of dangerous books in the name of antiracism feminism and other forms of social justice These changes to acquisition practices editing policies and other aspects of literary culture are a direct outgrowth of the culture of public outcries on X Goodreads Change org and other online platforms where users accuse authors justifiably or not of racism sexism homophobia and other transgressions But rather than genuinely address the economic inequities of literary production this current moral crusade over literature serves only to entrench the status quo While the right is remaking the world in its image he writes the left is standing in a circular firing squad Compellingly argued and incisively written the book is a much needed wake up call for anyone who cares about reading writing and the publication of books as well as the generations of young readers we are raising      On Unemployment, Volume II Mark R. Reiff,2015-10-07 With unemployment at historically high rates that show signs of becoming structural there is a pressing need for an in depth exploration of this economic injustice Unemployment is one of the problems most likely to put critical pressure on our political institutions disrupt the social fabric of our way of life and even threaten the continuation of liberalism itself Despite the obvious importance of the problem of unemployment however there has been a curious lack of attention paid to this issue by contemporary non Marxist political philosophers *On Unemployment* explores the moral implications of the problem of unemployment despite the continuing uncertainty involving both its causes and its cures Reiff takes up a series of questions about the nature of unemployment and what justice has to tell us about what we should do if anything to alleviate it The book comprehensively discusses the related theory and suggests how we might implement these more general observations in the real world It addresses the politics of unemployment and the extent to which opposition to some or all of the book s various proposals stem not from empirical disagreements about the best solutions but from more basic moral disagreements about whether the reduction of unemployment is indeed an appropriate moral goal This exciting new text will be essential for scholars and readers across business economics and finance as well as politics philosophy and sociology      *Defending Frequently Challenged Young Adult Books* Pat R. The Triple Package Amy Chua, Jed Rubenfeld, 2014-02-04 That certain groups do much better in America than others as measured by income occupational status test scores and so on is difficult to talk about In large part this is because the topic feels racially charged The irony is that the facts actually debunk racial stereotypes There are black and Hispanic subgroups in the United States far outperforming many white and Asian subgroups Moreover there's a demonstrable arc to group success in immigrant groups it typically dissipates by the third generation puncturing the notion of innate group differences and undermining the whole concept of model minorities Mormons have recently risen to astonishing business success Cubans in Miami climbed from poverty to prosperity in a generation Nigerians earn doctorates at stunningly high rates Indian and Chinese Americans have much higher incomes than other Americans Jews may have the highest of all Why do some groups rise Drawing on groundbreaking original research and startling statistics The Triple Package uncovers the secret to their success A superiority complex insecurity impulse control these are the elements of the Triple Package the rare and potent cultural constellation that drives disproportionate group success The Triple Package is open to anyone America itself was once a Triple Package culture It's been losing that edge for a long time now Even as headlines proclaim the death of upward mobility in America the truth is that the old fashioned American Dream is very much alive but some groups have a cultural edge which enables them to take advantage of opportunity far more than others Americans are taught that everyone is equal that no group is superior to another But remarkably all of America's most successful groups believe even if they don't say so aloud that they're exceptional chosen superior in some way Americans are taught that self esteem feeling good about yourself is the key to a successful life But in all of America's most successful groups people tend to feel insecure inadequate that they have to prove themselves America today spreads a message of immediate gratification living for the moment But all of America's most successful groups cultivate heightened discipline and impulse control But the Triple Package has a dark underside too Each of its elements carries distinctive pathologies when taken to an extreme they can have truly toxic effects Should people strive for the Triple Package Should America Ultimately the authors conclude that the Triple Package is a ladder that should be climbed and then kicked away drawing on its power but breaking free from its constraints Provocative and profound The Triple Package will transform the way we think about success and achievement

**The Age of Accountability** Dominic Belmonte, 2020-05-14 It's clear that American public education has been under assault for more than the last 30 years So much of this current age of accountability has focused on blame both of teachers and those who prepare them Somehow unlike in other professions declarations were made to the effect that anyone could teach better than teachers including business leaders and people from top universities without teacher preparation The Age of Accountability scrutinizes the attack on teachers through weaponized data While an effective corporate tool to improve bottom line goals its use in education became more sinister and misanthropic International PISA scores imply the mediocre ability of American students fueling a belief that American education needed more than an upgrade The only answer that would placate many was a complete upheaval a redefinition of a teacher and who should be permitted to become one We teachers ceded authority to these business and legislative forces Their subsequent fervor for testing overwhelmed teaching and drove the joy out of schooling for students It is time for a recounting of what has been done to the profession and to our children Young teachers need encouragement and veteran teachers need reminding of their valiant and effective efforts Perfect for courses such as History of Education Assessment in Teacher Evaluation Value Added Metrics Urban Education University Teacher Preparation Teaching and Learning
