Oaxacan Woodcarving The Magic In The Trees:

Oaxacan Woodcarving Shepard Barbash,1993-04 Examines the work of traditional Mexican woodcarvers Oaxacan Woodcarving Shepard Barbash,1993 Tells the story of the carvers and their rise from subsistence farmers to celebrated artisans The creations of the wood carvings range from angels mermaids devils and skeletons to dogs cats rabbits chickens and nahuals or animal people **Between Art and Artifact** Ronda L. Brulotte,2012-07-01 Oaxaca is internationally renowned for its marketplaces and archaeological sites where tourists can buy inexpensive folk art including replicas of archaeological treasures Archaeologists art historians and museum professionals sometimes discredit this trade in fakes that occasionally make their way to the auction block as antiquities Others argue that these souvenirs represent a long cultural tradition of woodcarving or clay sculpting and are genuine artifacts of artisanal practices that have been passed from generation to generation allowing community members to preserve their cultural practices and make a living Exploring the intriguing question of authenticity and its relationship to cultural forms in Oaxaca and throughout southern Mexico **Between Art and Artifact** confronts an important issue that has implications well beyond the commercial realm Demonstrating that identity politics lies at the heart of the controversy Ronda Brulotte provides a nuanced inquiry into what it means to present authentic cultural production in a state where indigenous ethnicity is part of an awkward social and racial classification system Emphasizing the world famous woodcarvers of Arrazola and the replica purveyors who come from the same community Brulotte presents the ironies of an ideology that extols regional identity but shuns its artifacts as forgeries Her work makes us question the authority of archaeological discourse in the face of local communities who may often see things differently A departure from the dialogue that seeks to prove or disprove authenticity **Between Art and Artifact** reveals itself as a commentary on the arguments themselves and what the controversy can teach us about our shifting definitions of authority and authorship **The Eagle on the Cactus** Angel Vigil,2000-06-15 This beautiful tapestry of traditional tales history folk arts and dance offers you a glimpse into the living legacy of Mexican folklore After an overview of Mexico s history from the Mesoamerican indigenous era to modern times Vigil explores the fascinating traditions of Oaxacan wood carving Huichol bead and yarn art folk masks folklorico dance costumes and Mexican folklore A collection of tales follows including classic tales pourquoi creation tales from native people of pre Hispanic Mexico and tales from the Spanish colonial era of Mexican history trickster tales adventure and wonder stories and animal fables Lively reading for older students and adults the tales may also be used for read alouds with younger students With 15 of the 44 tales presented in Spanish as well as in English this is an excellent resource for Spanish classes and for Spanish speaking readers The fascinating background material also makes the book an excellent source for reports and research Color plates *Adventures into Mexico* Nicholas Dagen Bloom,2006-05-09 Moving beyond the tequila soaked clichés of Mexican tourism this multifaceted book explores the influence and experiences of Americans in Mexico since World War II The authors trace Mexico s growing role as an

important refuge for Americans seeking not only sun and fun but also an alternative cultural and social model And on the other side of the border Mexican citizens and politicians have responded in creative and unexpected ways to growing numbers of migrants from their northern neighbor Delving into the rich and varied worlds of political exiles students art dealers retiree artist colonies and tourist zones this work illustrates why large numbers of Americans have been irresistibly drawn to Mexico for the past sixty years Specialists in literature anthropology history and geography bring their unique perspectives to the stories of both short and long term migrants Together their essays illuminate the complex goals and impact of American tourism offering a fascinating interpretation to all those interested in modern Mexican history border studies tourism and retirement in Mexico Contributions by Diana Anhalt Dina M Berger Nicholas Dagen Bloom Michael Chibnik Drew Way Wayne Gunn Janet Henshall Momsen Rebecca M Schreiber Rebecca Torres David Truly and Richard W Wilkie

depth look at the international trade in Oaxacan wood carvings including their history production marketing and cultural representations Drawing on interviews he conducted in the carving communities and among wholesalers retailers and consumers he follows the entire production and consumption cycle from the harvesting of copal wood to the final purchase of the finished piece Along the way he describes how and why this invented tradition has been promoted as a Zapotec Indian craft and explores its similarities with other local crafts with longer histories He also fully discusses the effects on local communities of participating in the global market concluding that the trade in Oaxacan wood carvings is an almost paradigmatic case study of globalization

Made in Mexico Chris Goertzen,2010-10-21 Made in Mexico examines the aesthetic political and sociopolitical aspects of tourism in southern Mexico particularly in the state of Oaxaca Tourists seeking authenticity buy crafts and festival tickets and spend even more on travel expenses What does a craft object or a festival moment need to look like or sound like to please both tradition bearers and tourists in terms of aesthetics Under what conditions are transactions between these parties psychologically healthy and sustainable What political factors can interfere with the success of this negotiation and what happens when the process breaks down With Subcommandante Marcos and the Zapatistas still operating in neighboring Chiapas and unrest on the rise in Oaxaca itself these are not merely theoretical problems Chris Goertzen analyzes the nature and meaning of a single craft object a woven pillowcase from Chiapas thus previewing what the book will accomplish in greater depth in Oaxaca He introduces the book's guiding concepts especially concerning the types of aesthetic intensification that have replaced fading cultural contexts and the tragic partnership between ethnic distinctiveness and oppressive politics He then brings these concepts to bear on crafts in Oaxaca and on Oaxaca's Guelaguetza the anchor for tourism in the state and a festival with an increasingly contested meaning

The Value of Aesthetics Alanna Cant,2019-09-01 Unlike many other handicrafts in the Mexican state of Oaxaca which have long cultural and historical trajectories Oaxacan woodcarving began in the second half of the twentieth century and has always been done for the commercial market In The Value of Aesthetics Alanna Cant explores how one family s workshop in the village of San Mart n Tilcajete has become the most critically and economically successful surpassing those of neighbors who use similar materials and techniques The dominance of this family is tied to their ability to produce a new aesthetic that appeals to three key economies of culture the tourist market for souvenirs the national market for traditional Mexican artesan as and the international market for indigenous art Offering a new analytical model by which anthropologists can approach visual aesthetics and conceptualize the power of artworks as socially active objects The Value of Aesthetics shows how aesthetic practices produce and redefine social and political relationships By investigating the links between aesthetics

and issues of production authorship ownership and identity Cant shows aesthetic change to be a process that ultimately repackages everyday life into commodified objects in Oaxaca Day of the Dead in the USA, Second Edition Regina M Marchi,2022-08-12 Examines how Day of the Dead celebrations among America s Latino communities have changed throughout history discussing how the traditional celebration has been influenced by mass media consumer culture and globalization Women in Mexican Folk Art Eli Bartra,2013-12-15 The aim of this book is to engender Mexican folk art and locate women at its centre by studying the processes of creation distribution and consumption as well as examining iconographic aspects and elements of class and ethnicity from the perspective of gender The author will demonstrate that the topic provides unique insights into Mexican culture and has enormous relevance within and without the country given the fact that much folk art is made for the United States and Europe either in terms of the tourists who buy it on coming to Mexico or that which is exported Reconceptualizing The Peasantry Michael Kearney,2018-02-07 The concept of peasant has been constructed from residual images of pre industrial European and colonial rural society Spurred by Romantic sensibilities and modern nationalist imaginations the images the word peasant brings to mind are anachronisms that do not reflect the ways in which rural people live today In this path breaking book Michael Kearney shows how the concept has been outdistanced by contemporary history He situates the peasantry within the current social context of the transnational and post Cold War nation state and clears the way for alternative theoretical views Reconceptualizing the Peasantry looks at rural society in general and considers the problematic distinction between rural and urban Most definitions of and debates about peasants have focused on their presumed social economic cultural and political characteristics but Kearney articulates the way in which peasants define themselves in a rapidly changing world In the process he develops ethnographic and political forms of representation that correspond to contemporary postpeasant identities Moving beyond a reconsideration of peasantry the book situates anthropology in global context showing how the discipline reconstructs itself and its subjects according to changing circumstances
