Gonzalez, Michelle Gonzalez Maldonado, 2024 The Oxford Handbook of Caribbean Religions offers a comprehensive overview of Caribbean religions The Caribbean is a microcosm of the world's religions but the small geographic space resulted in the encounter of global religions and indigenous religious practices The racial ethnic and cultural diversity of this region makes brief introductions to Caribbean religions incapable of truly addressing its complex and diverse religious landscape The Handbook also elaborates on the diversity of the religious traditions and the national particularity of the region while also considering multiple geographic settings It mentions how often Caribbean religion is studied through the perspective of a discrete religious tradition or geographic setting **Creole Religions of the Caribbean, Third Edition** Margarite Fernández Olmos, Lizabeth Paravisini-Gebert, 2022-08-23 An updated introduction to the religions developed in the Caribbean region Creole Religions of the Caribbean offers a comprehensive introduction to the overlapping religions that have developed as a result of the creolization process Caribbean peoples drew on the variants of Christianity brought by European colonizers as well as on African religious and healing traditions and the remnants of Amerindian practices to fashion new systems of belief From Vodou Santería Regla de Palo the Abakuá Secret Society and Obeah to Quimbois and Espiritismo the volume traces the historical cultural origins of the major Creole religions as well as the newer traditions such as Rastafari This third edition updates the scholarship by featuring new critical approaches that have been brought to bear on the study of religion such as queer studies environmental studies and diasporic studies The third edition also expands the regional considerations of the diaspora to the US Latinx communities that are influenced by Creole spiritual practices taking into account the increased significance of material culture art music literature and healing practices influenced by Creole religions [Healers and Empires in Global History](#) Markku Hokkanen, Kalle Kananoja, 2019-04-15 This book explores cross cultural medical encounters involving non Western healers in a variety of imperial contexts from the Arctic Asia Africa Americas and the Caribbean It highlights contests over healing knowledge and medicines through the frameworks of hybridisation and pluralism The intertwined histories of medicine empire and early globalisation influenced the ways in which millions of people encountered and experienced suffering healing and death In an increasingly global search for therapeutics and localised definition of acceptable healing networks and mobilities played key roles Healers' engagements with politics law and religion underline the close connections between

healing power and authority They also reveal the agency of healers sufferers and local societies in encounters with modernising imperial states medical science and commercialisation The book questions and complements the traditional narratives of triumphant biomedicine reminding readersthat traditional medical cultures and practitioners did not often disappear but rather underwent major changes in the increasingly interconnected world **Creole Religions of the**

T&T Clark Handbook of Theology and the Arts Stephen M. Garrett, Imogen Adkins, 2025-04-24 This volume presents the theology arts conversation from a distinctly Christian perspective as a witness of the Gospel of Christ to the world A widespread interest in the historical socio cultural and political embeddedness of theology and the arts permeates it This theme of embeddedness tracks through several

overarching and interlocking concerns the relationship between form and content in both art and theology the intensification of the metaphysical and the theological contra materialist and positivist reductionisms the expansion of the epistemological possibilities of the theology art conversation and a robust understanding of the world as the theatre of God s glory Several chapters have been co written by theologians and artists as part of demonstrating the kind of conversation that this book commends A thorough going commitment to Scripture is also woven into the many different habits of thought represented in this volume Part I surveys different approaches to the theology arts conversation Part II focuses on how particular art forms bring theological issues to the surface and how theological and denominational traditions shape the making and receiving of the arts Part III delves into key topics in the current theology arts scene and asks how artistic and theological performance can both speak to theological and artistic knowing and help to celebrate and interrogate embodied lived reality
