transforming it into your Authentic Home Creating an Authentic Home is about more than just aesthetics it s about creating a space that truly resonates with who you are Kathy Banak The craziness of the world we live in nowadays can easily overwhelm us and now more than ever we need to have a home that nestles us in comfort and peace and is a soothing place to restore our souls What Do I Teach Readers Tomorrow? Fiction, Grades 3-8 Gravity Goldberg, Renee Houser, 2017-03-14 Focus On Decisions That Impact Readers Skill Development In What Do I Teach Readers Tomorrow Fiction Gravity Goldberg and Renee Houser provide a daily protocol for deciding what to teach next The simple secret Focus on the thinking involved in what students write and say Tools include Tips for what to look and listen for when students write about and discuss fiction More than 30 lessons writing about reading organizing thinking and more Reproducible Clipboard Notes for quick decision making Online video clips of Renee and Gravity teaching and thin slicing *Object Studies* Cyrus Mulready, 2023-03-06 Object Studies Introductions to Material Culture is a textbook that introduces students to an interdisciplinary approach to material cultural study This text helps reveal how everyday objects from pens and coffee cups to our most cherished keepsakes help define our collective histories and personal narratives Object Studies is organized around accessible and engaging chapters on objects with model essays that present original projects designed to engage students with a series of concepts and research activities Each will demonstrate a key methodology tied to specific learning outcomes but all chapters will be intertwined in their attention to the project of developing the core skills of object studies careful viewing writing detailed descriptions setting out and testing research hypotheses and telling stories through material artifacts Aimed towards undergraduate students taking courses in material culture as well as postgraduate students embarking on independent research projects these chapter studies are practically oriented and demonstrate research projects that can be undertaken either in a course or even through personal study Chapters in Object Studies conclude with research questions suggestions on methodology and a discursive bibliography designed to help students pursue their own projects based on these examples *Living Simply* Sally McGraw, 2019-01-01 Twenty first century minimalism is an increasingly mainstream response to global environmental crises such as climate change the garbage glut fast fashion and other manifestations of the harmful impact of consumerism Originally founded in the art world in the decades after World War II minimalism has evolved into an Earth friendly lifestyle focusing on the three Rs reducing recycling and reusing and on simplifying individual needs to reduce one s carbon imprint manage anxiety and depression and prioritize human interaction over the impulse to acquire for the sake of acquisition Hands on activities how to tips and profiles of practicing minimalists offer real world examples for incorporating minimalism into your life *Analysis of Creationism in the United States from Scopes (1925) to Kitzmiller (2005) and its Effect on the Nation's Science Education System* Elizabeth Watts, 2018 Creationism is based on a fundamental belief in the inerrancy of the bible and negatively affects science education because creationist proponents insist on the inclusion of supernatural explanations for the appearance of species in particular the origin of

humans This detrimental effect on education is particularly relevant in the United States where almost 70% of the population rejects the idea of naturalistic evolution and the majority of American students struggle to meet the college readiness benchmarks in science and math This dissertation provides a comprehensive look at the issue from historical judicial and educational perspectives Twenty four legal cases in the United States regarding anti evolutionary strategies were analyzed in detail Strategic trends were identified ranging from the statewide banning of evolution in public schools to the required teaching of Creation Science The exact effect of creationist political activity was discerned through the analysis of state science standards and textbook adoption processes which illustrated the creationists ability to lobby for a diminished coverage of evolution in science standards and textbooks It was found that despite attempts made by scientific and educational agencies to provide guidelines such as the Next Generation Science Standards the majority of American state science standards continue to be sub par and one of the major flaws of these standards is the overall attempt to weaken the coverage of evolution throughout the standards A similar loss of quality occurs in textbooks since publishers engage in self censorship in order to avoid controversial topics such as evolution in order to prevent their books from being rejected An examination of the free choice learning materials revealed that creationist proponents are very active and successful in producing books films and museums for the sole purpose of promoting creationism Moreover a brief look at the creationist movement in Germany provided a powerful comparison to the United States and elucidated the key components necessary for a creationist movement to exist and flourish namely the presence of fundamentalist willing to fight to get anti evolutionary materials introduced into science classrooms This study provides new insights into the creationist phenomenon present not only in the United States but also increasingly present in European countries such as Germany Understanding the detrimental link between creationism and science education will help the science community realize that this topic needs to be continually readdressed and that it is imperative that these creationist trends are not dismissed as inconsequential
