Melancholic Joy Brian Treanor, 2021-01-14 Today we find ourselves surrounded by numerous reasons to despair from loneliness suffering and death at an individual level to societal alienation oppression sectarian conflict and war No honest assessment of life can take place without facing up to these facts and it is not surprising that more and more people are beginning to suspect that the human story will end in tragedy However this focus on despair does not paint a complete and accurate picture of reality which is also inflected with beauty and goodness Working with examples from poetry and literature including Virginia Woolf and Jack Gilbert and the films of Terrence Malick Melancholic Joy offers an honest assessment of the human condition It unflinchingly acknowledges the everyday frustrations and extraordinary horrors that generate despair and argues that the appropriate response is to take up joy again not in an attempt to ignore or dismiss evil but rather as part of a melancholic joy that accepts the mystery of a world both beautiful and brutal

Philosophy and

Breaking Bad Kevin S. Decker, David R. Koepsell, Robert Arp, 2016-11-23 This volume considers the numerous philosophical ideas and arguments found in and inspired by the critically acclaimed series *Breaking Bad*. This show garnered both critical and popular attention for its portrayal of a cancer stricken middle aged middle class high school chemistry teacher's drift into the dark world of selling methamphetamine to support his family. Its characters' situations and aesthetic raise serious and familiar philosophical issues especially related to ethics and morality. The show provokes a bevy of rich questions and discussion points such as: What are the ethical issues surrounding drugs? What lessons about existentialism and fatalism does the show present? How does the show grapple with the concept of the end justifying the means? Is Walt really free not to break bad? Can he be redeemed? What is the definition and nature of badness or evil itself? Contributors address these and other questions as they dissect the legacy of the show and discuss its contributions to philosophical conversations.

What Makes Life Meaningful? Thaddeus Metz, Joshua W. Seachris, 2023-11-30 Can human life be meaningful? What does talk about life's meaning even mean? What is God's role if any in a meaningful life? These three questions frame this one of a kind debate between two philosophers who have spent most of their professional lives thinking and writing about the topic of life's meaning. In this wide ranging scholarly conversation Professors Thaddeus Metz and Joshua W. Seachris develop and defend their own unique answers to these questions while responding to each other's objections in a lively dialog format. Seachris argues that the concept of life's meaning largely revolves around three interconnected ideas: mattering, purpose, and sense-making. That a meaningful human life involves sufficiently manifesting all three and that God would importantly enhance the meaningfulness of life on each of these three fronts. Metz instead holds that talk of life's meaning is about a variety of properties such as meriting pride, transcending one's animal self, making a contribution, and authoring a life story. For him many lives are meaningful insofar as they exercise intelligence in positive, robust, and developmental ways. Finally Metz argues that God is unnecessary for an objective meaning that suits human nature. Metz and Seachris develop and defend their own unique answers to these three questions while responding to each other's objections in a dialog format that is accessible to students though given their new contributions will be of great interest to scholars as well.

The Hebrew Bible and Philosophy of Religion Jaco Gericke, 2012-11-01 This study pioneers the use of philosophy of religion in the study of the Hebrew Bible. The Meaning of Death Kai Horsthemke, 2024-07-23 If death is the cessation of life then as a concept it draws its meaning from the preceding life While death and dying are inextricably connected dying is still a part of life unlike death The Meaning of Death A Philosophical Investigation analyzes death and dying the biotechnical quest for immortality the afterlife and the rationality of self-chosen death Assuming eternal life will one day become possible Kai Horsthemke argues that immortality is not obviously desirable and that even if the right to life in principle includes the right to eternal life it must also include the right to self-determined dying and death Although there is no creationist basis for existence and the finality of death remains a universal inevitable prospect this need not undermine confidence in the personal and transpersonal value of human activities Life is valuable not only because of its uniqueness and unrepeatability but also because it is finite The meaning of death is essentially that it gives meaning to life
