### **Journalism, Democracy and Civil Society in India**

Shakuntala Rao, Vipul Mudgal, 2018-09-05 Since independence in 1947 India has remained a stable and functioning democracy in the face of enormous challenges. Amid a variety of interlinking contraries and a burgeoning media, one of the largest in the world, there has been a serious dearth of scholarship on the role of journalists and dramatically changing journalism practices. This book brings together some of the best known scholars on Indian journalism to ask questions such as: Can the plethora of privately run cable news channels provide the discursive space needed to strengthen the practices of democracy, not just inform results from the ballot boxes? Can neoliberal media ownership patterns provide space for a critical and free journalistic culture to evolve? What are the ethical challenges editors and journalists face on a day to day basis in a media industry which has exploded? In answering some of these questions, the contributors to this volume are equally sensitive to the historical social and cultural context in which Indian journalism evolved, but they do not all reach the same conclusion about the role of journalism in Indian civil society and democracy. This book was originally published as a special issue of Journalism Studies.

### **Screening the Public Sphere**

Saima Saeed, 2020-11-29 For centuries, democracy and development have steered the imagination of governments, citizens, intelligentsia, and policymakers alike. Democracy without free media is a contradiction, while development without democracy is futile. Highlighting the power and significance of contemporary media, this book deconstructs news and news making on Indian television. In exploring the concepts of sense making and meaning generation, it examines how news and the dissemination of information and opinion influence the public sphere, participatory democracy, citizenship, and civil society. Providing an original interpretation of the paradigmatic shifts in news content and newsroom practices, this book focuses on changing ownership patterns, increasing entertainmentization of news, and the resultant developmental reportage deficit. At the same time, it confronts the uneasy and critical consequences of commercialization and rising sensationalism in news media. Finally, it discusses the role of Public Service Broadcasting, journalistic ethics, objectivity, and the politics of language and ideology in the media today, pointing to the need for greater diversity of content on the one hand and an emphasis on public interest in media policy making on the other. Drawing upon comprehensive empirical data, the democracy-media development relationship is demonstrated through critical analyses of the media's coverage of recent news events. This includes exhaustive content examination of news programmes on all major news channels of India, surveys with media experts and news professionals by way of questionnaires, and interviews with the
