*Features* Greville G. Corbett, 2012-10-11 Features are a central concept in linguistic analysis They are the basic building blocks of linguistic units such as words For many linguists they offer the most revealing way to explore the nature of language Familiar features are Number singular plural dual Person 1st 2nd 3rd and Tense present past Features have a major role in contemporary linguistics from the most abstract theorizing to the most applied computational applications yet little is firmly established about their status They are used but are little discussed and poorly understood In this unique work Corbett brings together two lines of research how features vary between languages and how they work As a result the book is of great value to the broad range of perspectives of those who are interested in language

*The World Atlas of Language Structures* Martin Haspelmath, Matthew S. Dryer, David Gil, Bernard Comrie, 2005-07-21 The World Atlas of Language Structures is a book and

CD combination displaying the structural properties of the world's languages 142 world maps and numerous regional maps all in colour display the geographical distribution of features of pronunciation and grammar such as number of vowels tone systems gender plurals tense word order and body part terminology Each world map shows an average of 400 languages and is accompanied by a fully referenced description of the structural feature in question The CD provides an interactive electronic version of the database which allows the reader to zoom in on or customize the maps to display bibliographical sources and to establish correlations between features The book and the CD together provide an indispensable source of information for linguists and others seeking to understand human languages The Atlas will be especially valuable for linguistic typologists grammatical theorists historical and comparative linguists and for those studying a region such as Africa Southeast Asia North America Australia and Europe It will also interest anthropologists and geographers More than fifty authors from many different countries have collaborated to produce a work that sets new standards in comparative linguistics No institution involved in language research can afford to be without it
