to the volatile modern day issues of school prayer and faith based initiatives. The thorough responsible and cool headed analysis presented here offers readers a solid grounding in the constitutional issues behind the headlines Prophecy Fulfilled in Africa Chiku Malunga, 2014-09-08 Animal Farm Prophecy Fulfilled in Africa A Call to a Values and Systems Revolution discusses why deep levels of poverty and suffering persist in Africa despite all the successive regime changes over the last half century It discusses why more people are poorer now than they were in the colonial era The author argues that this is so because most of the leadership change efforts on the continent focus on replacing individuals rather than changing or overhauling the negative systems and the values inherent in the systems that the individual leaders inherit create or perpetuate The problems persist because they are systemic rather than personal in nature Deep and lasting change that could result in lifting millions of people out of poverty will only occur when the systems rather than only the individuals are changed or replaced The author challenges ordinary citizens especially the youth to rise up against animal farm systems in order to create the tomorrow to which they aspire and deserve Municipal Liability: Law and Practice, 4th Edition Fontana, 2018-11-14 Municipal Liability Law and Practice Fourth Edition A Way Out of No Way Raphael G. Geel, J. C. Zarra III, 2020-09-15 Detoxing America Schools From Social Agency to Academic Urgency examines the issue of toxicity in public education institutions Today's students are exposed to personal beliefs lifestyle practices and politicized educational policies many of which are in contrast to the values of their upbringing The innate toxic intentions of some teachers are revealed by their unabashed calls for students to take sides through avenues of shaming and even civil disobedience Schools have become vessels of social agency The time has come to detox American education and to call for teachers to return to the urgent fundamental mission of educating students academically Too many teachers are following the paradigm found on many college campuses as they use prior experience to stir up students and bring new levels of emotion into their classrooms. The classroom environment has flipped and what was once tolerance has become the new toxic intolerance Fractious Americans seem addicted to the use of polarized issues as social and emotional intoxicants Groups are strategic in seizing upon differences to ensure augmentation and marginalization upon ideological lines intensified often by the flames of social media and intolerant activism College students emerging from Gen Z are more radicalized from their time at college Unless American educators agree to step back from certain poisonous rhetoric and noxious activism our nation will continue to lose sight of the academic urgency before us and with it a generation of children
