*The Great Escape: An Analysis Of Allied Actions Leading To The Axis Evacuation Of Sicily In World War II* Major Barton V. Barnhart, 2015-11-06 As Allied armies advanced in North Africa Allied leadership established Sicily as the next target As the invasion unfolded the Allies pushed Axis forces into northeastern Sicily where a well organized evacuation moved over 100 000 Axis troops with equipment to the Italian mainland The central research question is Did an opportunity exist for the Allies to trap and compel the capitulation of Axis forces during the Sicily campaign Analysis of the invasion decision the planning cycle and the operation resulted in several conclusions First strategic guidance adequately promoted successful planning Second operational planning was disjointed and lacked senior ground commander involvement Finally Generals Eisenhower and Alexander did not communicate to their field army commanders a campaign strategic vision or commander s intent which led to two decisions that eliminated the possibility to

trap Axis forces Additionally the newness of combined operational practices and differences in command relationships caused coordination problems that hindered operational responsiveness Though Sicily was a tactical success the Allies missed an opportunity to capture a substantial Axis force which demonstrates the importance of commander's vision and intent cultivating unity of command in an allied environment and preserving the ability to exploit favorable conditions with an eye toward operational goals

**An Evaluation Of The Aerial Interdiction Campaign Known As The "Transportation Plan" For The D-Day Invasion** Major Timothy A. Veeder, 2014-08-15 The various airmen leading the air war had great differences of opinion regarding what to target in the European theater of operations in support of Operation Overlord The central leadership figures were Lt General Carl Spaatz USSTAF commander and Air Chief Marshal Trafford Leigh Mallory AEF commander Each of these military men obviously wanted to support the planned Allied invasion but they held differing opinions in regard to how to best support the invasion troops They were greatly influenced by both personal experience and the advice of their respective scientific advisors Walt W Rostow and Dr Solly Zuckerman Also Air Marshal Tedder Deputy Supreme Allied Commander and Air Marshal Harris Commander of the RAF Bomber Command contributed to the decisions to carry out the transportation interdiction campaign This research focuses on the period January 1944 through the end of

June 1944 It includes a literature review of published memoirs and historic accounts of the individuals involved in the decision to implement the transportation plan The archives of the Air Force Historical Research Agency were accessed to obtain actual accounts and directives implementing the pre D Day interdiction campaign Numerous facts support a discussion of each of the airmen s interests and the controversy that surrounded the transportation campaign The implementation of the transportation interdiction campaign resulted in the successful denial of German reinforcements to the Normandy beachhead *The Office of Strategic Services and Italian Americans* Salvatore J. LaGumina,2016-10-05 This book explores the contributions of Italian Americans employed by the Office of Strategic Services OSS during World War II Italian Americans fluent in Italian language and customs became integral parts of intelligence operations working behind enemy lines These units obtained priceless military information that significantly helped defeat the Axis They parachuted into frozen mountains tops to link up with Italian guerilla units in northern Italy or hovered in small patrol torpedo boats and row boats across the Mediterranean Sea in pitch black darkness to destroy railroad junctions *The Operational Art* Bloomsbury Publishing,1996-09-24 This work considers the modern antecedents and evolution of the operational art in military thought and practice in both peace and wartime This theme is developed over time and across military cultures A comparative framework allows the treatment of the overall theme by examining the concept of the operational art in the context of different nationalities different military organizations and different societies This study situates the current operational art in its historical context **United States Army in World War II.** ,1968 *Field-Marshal Kesselring* Andrew Sangster,2015-04-01 Postwar analyses of Germany s last ever Field Marshal Albert Kesselring have tended to be sympathetic and even adulatory in their appraisals This book raises fundamental questions about their legitimacy and challenges the widely held belief that he was one of the greatest commanders to emerge from the last World War It illustrates that this reputation has been bolstered by the need to conceal the ineptitude and inexperience of Allied opposition Often seen as a benign and good natured patrician the study shows that he was deeply implicated in the Nazi preparation for war that he was guilty of serious war crimes and that he committed perjury to save himself at the expense of a junior general The book also highlights that the SS became a scapegoat for the whole Nazi regime that he became a pawn in Cold War politics which assisted his release from execution and prison that he survived the denazification process because it became a nonsense that those who hoped he would assume a leadership in postwar Germany were disappointed by his inability to accept the new Europe and that he died in ignominy The book is a re appraisal of Kesselring and demythologises many deeply held concepts of the period between 1930 and 1960 *The Western European and Mediterranean Theaters in World War II* Donal Sexton,2011-10-06 *The Western European and Mediterranean Theaters in World War II* is a concise comprehensive guide for students teachers and history buffs of the Second World War With an emphasis on the American forces in these theaters each entry is accompanied by a brief annotation that will allow researchers to navigate through the vast amount of literature on

*Patton* J. Furman Daniel,2020-04-03 General George S Patton Jr is one of the most successful yet misunderstood figures in American military history Despite the many books and articles written about him none considers in depth how his love of history shaped the course of his life In this thematic biography Furman Daniel traces Patton s obsession with history and argues that it informed and contributed to many of his successes both on and off the battlefield Patton deliberately cultivated the image of himself as a warrior from ages past the more interesting truth is that he was an exceptionally dedicated student of history He was a hard worker and voracious reader who gave a great deal of thought to how military history might inform his endeavors Most scholars have overlooked this element of Patton s character which Daniel argues is essential to understanding the man s genius **Global Logistics and Strategy** Richard M.
