Operation Trojan Horse The Classic Breakthrough Study Of Ufos:

Operation Trojan Horse John A. Keel, 2013-05 OUR SKIES ARE FILLED WITH TROJAN HORSES The real UFO story must encompass all of the many manifestations being observed It is a story of ghosts and phantoms and strange mental aberrations of an invisible world that surrounds us and occasionally engulfs us of prophets and prophecies and gods and demons It is a world of illusion and hallucination where the unreal seems very real and where reality itself is distorted by strange forces which can seemingly manipulate space time and physical matter forces that are almost entirely beyond our powers of comprehension John A Keel March 25 1930 July 3 2009 was an American journalist and influential UFOlogist best known as the author of The Mothman Prophecies In the mid 1960s he took up investigating UFOs and assorted fortune and published his first knockout UFO book Operation Trojan Horse in 1970 The book shredded the then trendy nuts and bolts extraterrestrial hypothesis for UFOs in favor of one that linked UFOs to a variety of paranormal and supernatural phenomena that have taken place throughout history Keel was one of the first to note that the UFO phenomenon appears in different disguises and that one could not begin to decipher this great mystery without first taking into account its many and varied deliberate deceptions *Operation Trojan Horse* John A. lobby then president Bill Clinton to disclose government held UFO information Sharing stories from his friendship with astronaut Edgar D Mitchell among others the author recounts discussions on how best to interpret UFOs and non ordinary phenomena of various kinds Thompson reveals how the UFO phenomenon ultimately represents a call from the cosmos for humanity to open to greater dimensions of reality and recognize that our understanding of the universe is still far from complete

journalistic techniques I had learned from being a reporter and writer for two decades I rarely gave the witnesses any
