## **Opstand Der Burgers De Franse Revolutie Na 200 Jaar:**

**Opstand der burgers. De Franse revolutie na 200 jaar ,1988**      *The Rise of the Dutch New Right* Merijn Oudenampsen,2020-09-13 In the past 20 years a wave of right wing populist movements has swept over Europe changing the face of European politics The Netherlands has been one of the more iconic countries to partake in this shift Known internationally as an emblem of progressivism and tolerance the country soon became a frontrunner in the revival of nationalist and anti immigrant sentiment This is the first study to offer an extensive engagement with the ideas behind the Dutch swing to the right The emergence of Dutch populism this book shows formed an integral part of a broader conservative tendency identified as the Dutch New Right In the US and the UK the term New Right has been used to describe conservative backlash movements that arose in opposition to the progressive movements of the 1960s The Dutch swing to the right this book argues formed a belated iteration of the New Right backlash that occurred overseas This text will be essential reading for students and scholars in the fields of European Studies and Political Science and Dutch politics and society more specifically    Opstand der burgers S. W. Couwenberg,1988 De betekenis van de Franse Revolutie tweehonderd jaar later

**Human Rights from Exclusion to Inclusion: Principles and Practice** Fons Coomans,Cees Flinterman,Fred Grünfeld,Ingrid Westendorp,Jan Willems,2021-10-25 Professor Theo van Boven has made his mark in the field of human rights by writing a vast number of scholarly articles reports studies congress papers and the like covering many topics Most of his work has been published in law journals textbooks Festschriften and other sources Since not all of these publications are easily accessible it is the purpose of this anthology to bring together a selection of his writings from 1966 to 1998 The editors have focused on those subjects that played a major part during Theo van Boven s career and that are in their view the most interesting to the reader That is why this volume contains papers on such issues as the United Nations and its role as regards human rights racial discrimination the right to rehabilitation the international criminal tribunals the role of NGOs and many more The papers have been arranged in different groups under general headings Within each group articles dealing with the same subject have been put in chronological order A detailed bibliography covering most of Theo van Boven s publications is included in this book as an annex All through his work Theo van Boven displays his sound theoretical background as well as his enormous practical experience This combination makes his writings so attractive and compelling to read

**Revolutionary Ideas** Jonathan Israel,2015-09-22 Historians of the French Revolution used to take for granted what was also obvious to its contemporary observers that the Revolution was caused by the radical ideas of the Enlightenment Yet in recent decades scholars have argued that the Revolution was brought about by social forces politics economics or culture almost anything but abstract notions like liberty or equality In Revolutionary Ideas one of the world s leading historians of the Enlightenment restores the Revolution s intellectual history to its rightful central role Drawing widely on primary sources Jonathan Israel shows how the Revolution was set in motion by radical eighteenth century doctrines how these ideas divided

revolutionary leaders into vehemently opposed ideological blocs and how these clashes drove the turning points of the Revolution Revolutionary Ideas demonstrates that the Revolution was really three different revolutions vying for supremacy a conflict between constitutional monarchists such as Lafayette who advocated moderate Enlightenment ideas democratic republicans allied to Tom Paine who fought for Radical Enlightenment ideas and authoritarian populists such as Robespierre who violently rejected key Enlightenment ideas and should ultimately be seen as Counter Enlightenment figures The book tells how the fierce rivalry between these groups shaped the course of the Revolution from the Declaration of Rights through liberal monarchism and democratic republicanism to the Terror and the Post Thermidor reaction In this compelling account the French Revolution stands once again as a culmination of the emancipatory and democratic ideals of the Enlightenment That it ended in the Terror represented a betrayal of those ideas not their fulfillment book jacket

#### **Comparative Law**

Sean Patrick Donlan,Jane Mair,2019-12-06 This book discusses a number of important themes in comparative law legal metaphors and methodology the movements of legal ideas and institutions and the mixity they produce and marriage an area of law in which culture or clashes of legal and public cultures may be particularly evident In a mix of methodological and empirical investigations divided by these themes the work offers expanded analyses and a unique cross section of materials that is on the cutting edge of comparative law scholarship It presents an innovative approach to legal pluralism the study of mixed jurisdictions and language and the law with the use of metaphors not as an illustration but as a core element of comparative methodology

*De metamorfose van Nederland* N C F van Sas,2005 Tussen 1750 en 1850 onderging Nederland een grote metamorfose het Ancien R gime van de Republiek maakte plaats voor een eenheidsstaat die na de constitutionele revolutie van Thorbecke in 1848 zijn definitieve vorm bereikte Vanaf het midden van de jaren 1860 nam de modernisering van Nederland op economisch politiek en cultureel gebied een grote vlucht Tegelijk begon toen het verzuilingsproces de opdeling van Nederland in segmenten een typisch Nederlandse vormgeving van de moderniteit maar door Abraham Kuyper juist bedoeld om die moderniteit naar de inhoud tegen te werken In dit boek wordt dit veranderingsproces diepgaand geanalyseerd en het voorstel gedaan de geschiedenis van Nederland anders te periodiseren dan gebruikelijk door het een eigen zelfstandige plaats te geven Het transitietijdvak 1750 1850 begon met de vernederlandsing van de Verlichting na 1750 Daarna krijgt de politieke reconstructiefase van patriotten en Bataven 1780 1800 de centrale plaats die haar toekomt gevuld door een decennialange speurtocht naar het ware midden tussen vernieuwing en behoud Steeds wordt ruim aandacht geschenken aan vaderlands gevoel patriottisme of nationalisme als een cruciale variabele die veranderingen zowel kon stimuleren zoals in de patriottentijd politieke tegenstellingen juist toedekte vanaf 1800 of hervorming tegenhield zoals in 1830 om aan het eind van de 19de eeuw een opvallend optimistisch fin de si cle gevoel te schragen Klik op PDF en download de inhoudsopgave
