## **Online Secret Life Stories Understanding Intellectual:**

**The Secret Life of Stories** Michael Bérubé, 2016-06-17 How an understanding of intellectual disability transforms the pleasures of reading Narrative informs everything we think do plan remember and imagine We tell stories and we listen to stories gauging their well formedness within a couple of years of learning to walk and talk Some argue that the capacity to understand narrative is innate to our species others claim that while that might be so the invention of writing then re wired our brains In *The Secret Life of Stories* Michael Bérubé tells a dramatically different tale in a compelling account of how an understanding of intellectual disability can transform our understanding of narrative Instead of focusing on characters with disabilities he shows how ideas about intellectual disability inform an astonishingly wide array of narrative strategies providing a new and startling way of thinking through questions of time self reflexivity and motive in the experience of reading Interweaving his own stories with readings of such texts as Faulkner's *The Sound and the Fury* Haddon's *The Curious Incident of the Dog in the Night Time* Kingston's *The Woman Warrior* and Philip K Dick's *Martian Time Slip* Bérubé puts his theory into practice stretching the purview of the study of literature and the role of disability studies within it Armed only with the tools of close reading Bérubé demonstrates the immensely generative possibilities in the ways disability is deployed within fiction finding in them powerful meditations on what it means to be a social being a sentient creature with an awareness of mortality and causality and sentience itself Persuasive and witty Michael Bérubé engages Harry Potter fans and scholars of literature alike For all readers *The Secret Life of Stories* will fundamentally change the way we think about the way we read

**Fables and Futures** George Estreich, 2025-05-27 How new biomedical technologies from prenatal testing to gene editing techniques require us to imagine who counts as human and what it means to belong From next generation prenatal tests to virtual children to the genome editing tool CRISPR Cas9 new biotechnologies grant us unprecedented power to predict and shape future people That power implies a question about belonging which people which variations will we welcome How will we square new biotech advances with the real but fragile gains for people with disabilities especially when their voices are all but absent from the conversation This book explores that conversation the troubled territory where biotechnology and disability meet In it George Estreich an award winning poet and memoirist and the father of a young woman with Down syndrome delves into popular representations of cutting edge biotech websites advertising next generation prenatal tests feature articles on three parent IVF a scientist's memoir of constructing a semisynthetic cell and more As Estreich shows each new application of biotechnology is accompanied by a persuasive story one that minimizes downsides and promises enormous benefits In this story people with disabilities are both invisible and essential a key promise of new technologies is that disability will be repaired or prevented In chapters that blend personal narrative and scholarship Estreich restores disability to our narratives of technology He also considers broader themes the place of people with disabilities in a world built for the able the echoes of eugenic history in the genomic present and the equation of

intellect and human value Examining the stories we tell ourselves the fables already creating our futures Estreich argues that given biotech that can select and shape who we are we need to imagine as broadly as possible what it means to belong

**Finding Blindness** David Bolt,2022-12-30 This edited volume explores blindness as a construct with which we the contributors engage as part of our social existence and or academic research Irrespective of eye conditions or the lack thereof blindness is an understanding at which we have all come to arrive On the way to this conceptual point which is in any case unlikely ever to be fixed we have passed or visited many formative cultural stations In the terms of autocritical disability studies i e an explicitly embodied development of critical disability studies these cultural stations include key moments in education and training the reflective pursuits of philosophy aesthetics and cultural theory literary works such as autobiography novels short stories drama and poetry visual texts ranging from photography to postage stamps technological developments like television computer applications and social media value systems defined by family and or religion and the social phenomenon of hate and war Each chapter in this volume engages with two of these cultural stations some ostensibly if not profoundly positive or indeed negative and some that contradict each other within and across chapters This book will be of interest to all scholars and students of disability studies sociology education and health

**The Disabled Detective** Susannah B. Mintz,2019-09-19 The first book of its kind The Disabled Detective explores representations of disability in crime fiction from the earliest days of the genre to contemporary television drama Susannah B Mintz examines detective heroes with such conditions as blindness deafness paralysis Asperger s obsessive compulsive disorder addiction war trauma and many other impairments Examining a wide range of texts from Arthur Conan Doyle s Sherlock Holmes stories and the works of Agatha Christie to contemporary crime writers such as Jeffrey Deaver and Michael Collins and television dramas such as Monk this book highlights how often characters with disabilities have been the heroes of crime fiction and how rarely this has been discussed in contemporary criticism

*Critical Neurodiversity Studies* Jenny Bergenmar,Louise Creechan,Anna Stenning,2025-07-10 This landmark volume for neurodiversity studies introduces a new more inclusive field of scholarship for literary and cultural studies Bringing together scholars and writers from across Europe it explores the revolutionary potential of neurodivergent scholarly practice and demonstrates that there is no such thing as a normal response to cultural production Drawing on critical disability studies to highlight the ideology behind dominant notions of ability it moves beyond representations of neurodivergent characters and highlights the entanglement of sensory and cognitive difference with both cultural practices and social status Combining the recent turn towards psychiatric depathologisation with insights from feminist queer intersectional and critical race theory this volume aims to amplify the epistemic authority of those who have been subject to marginalisation because of the ways we are taught to read and value literary culture In essence this volume reveals what it means to read write and love literature and the arts as a neurodivergent person

Libraries and Reading Matthew Conner,Leah Plocharczyk,2020-01-23 In a climate of tightened budgets and severe demands on public literacy resources Conner and Plocharczyk go to the foundations of social justice in Cultural Studies to show how the means of integrating those with disabilities into libraries and communities can be found in our everyday practices

*Project(ing) Human: Representations of Disability in Science Fiction* Courtney Stanton,2023-05-30 This edited volume examines representations of disability within popular science fiction using examples from television film literature and gaming to explore how the genre of science fiction shapes cultural understanding of disability experience Science fiction texts typically grapple with concepts such as transhumanism embodiment and autonomy more directly than do those of other genres In doing so they raise significant questions about the experience of disability More broadly they often convey the place of disability in not only the future but also the world of today Through critical research the chapters

within this interdisciplinary collection explore what science fiction texts convey about the value of disability whether it be through disabled characters biotechnologies or more broadly conceptions of an idealized future Chapters are grouped thematically and include discussions of the intersections of disability with other identity groups the interplay of disability and market capitalist value and how disability shapes current and future definitions of human ness agency and autonomy This full volume builds on current research regarding the relationship of disability studies to the science fiction genre by exploring new themes and contemporary media to aid as an instructional tool for scholars in fields of disability studies science fiction literature and media studies

Disabilities of the Color Line Dennis Tyler, 2022-02-15 Rather than simply engaging in a triumphalist narrative of overcoming where both disability and disablement are shunned alike Disabilities of the Color Line argues that Black authors and activists have consistently avowed disability as a part of Black social life in varied and complex ways Sometimes their affirmation of disability serves to capture how their bodies minds and health have been and are made vulnerable to harm and impairment by the state and society Sometimes their assertion of disability symbolizes a sense of commonality and community that comes not only from a recognition of the shared subjection of Blackness and disability but also from a willingness to imagine and create a world distinct from the dominant social order Through the work of David Walker Henry Box Brown William and Ellen Craft Charles Chesnutt James Weldon Johnson and Mamie Till Mobley this book examines how Black writer activists have engaged in an aesthetics of redress modes of resistance that show how Black communities have rigorously acknowledged disability as a response to forms of racial injury and in the pursuit of racial and disability justice

The Routledge Companion to Literature and Disability Alice Hall, 2020-04-28 The Routledge Companion to Literature and Disability brings together some of the most influential and important contemporary perspectives in this growing field The book traces the history of the field and locates literary disability studies in the wider context of activism and theory It introduces debates about definitions of disability and explores intersectional approaches in which disability is understood in relation to gender race class sexuality nationality and ethnicity Divided broadly into sections according to literary genre this is an important resource for those interested in exploring and deepening their knowledge of the field of literature and disability studies

**A Cultural History of Disability in the Modern Age** David T. Mitchell, Sharon L. Snyder, 2023-05-17 If eugenics the science of eliminating kinds of undesirable human beings from the species record came to overdetermine the late 19th century in relation to disability the 20th century may be best characterized as managing the repercussions for variable human populations A Cultural History of Disability in the Modern Age provides an interdisciplinary overview of disability as an outpouring of professional political and representational efforts to fix correct eliminate preserve and even cultivate the value of crip bodies This book pursues analyses of disability s deployment as a wellspring for an alternative ethics of living in and alongside the body different while simultaneously considering the varied social and material contexts of devalued human differences from World War I to the present In short this volume demonstrates that in
