*A Cultural History of the Medieval Sword* Robert W. Jones, 2023 This study takes the sword beyond its functional role as a tool for killing considering it as a cultural artifact and the broader meaning and significance it had to its bearer The Advocate, 2001-08-14 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States *Setting Nutritional Standards* Elizabeth Neswald, David F. Smith, Ulrike Thoms, 2017 Nutritional knowledge between the lab and the field the search for dietary norms in the late nineteenth and early twentieth centuries Elizabeth Neswald How vegetarians naturopaths scientists and physicians unmade the protein standard in modern Germany Corinna Treitel Of carnivores and conquerors French nutritional debates in the Age of Empire 1890 1914 Deborah Neill Setting standards the soldier's food in Germany 1850 1960 Ulrike Thoms The quest for a nutritional El Dorado efforts to demonstrate dietary impacts on resistance to infectious disease in the 1920s and 1930s David F. Smith Not a complete food for man the controversy about white versus wholemeal bread in interwar Britain Ina Zweiniger Bargielowska Proscribing deception the Gould net weight amendment and the origins of mandatory nutrition labeling Suzanne Junod When is a famine not a famine Gauging Indian hunger in Imperial and Cold War contexts Nick Cullather

*Fighting Identity* Michael Vlahos, 2008-12-30 This work highlights a national ethos infused by a sacred narrative of divine mission This deep association leads to a narrow approach to conflict relationships built around an Us vs Them distance from the enemy in which their submission is achieved through kinetic effects and their subsequent redemption through our good works reconstruction Vlahos contends that America's difficult engagement in the Muslim world demonstrates urgently that different operational approaches and tactics like counterinsurgency are not enough Alternative paradigms of strategic engagement are needed but their very consideration requires deeper cultural rethinking about how we assess world change and other cultures and how our national ethos makes war Why are terrorists and insurgents we fight so formidable Their strength and our vulnerability is in identity Clausewitz knew that *geist* spirit was always stronger than the material identity is power in war But how can non state actors face up to nation states The answer is in globalization This is the West's 3rd globalization Two centuries of intense mixing has torn down old ways of life and created a growing demand for new belonging There is also a decline in US universalism America's vision as history's anointed prophet and manager is now competing head to head with renewed universal visions Like Late Antiquity and the High Middle Ages our globalization begins to subside We may be in the later days of American modernity We can see this worldwide as emerging local communities within states and meta movements find their voice through conflict and war Identities struggling for realization are always the most powerful Add the diffusion of new technology and new practice and even the poorest and seemingly most primitive group can now make war against those on high They are successful because of a symbiotic fit between old states and new identities Increasingly old societies no longer find identity celebration in war while non state identities embrace the

struggle for realization Hence non state wars with America become a mythic narrative for them Our engagement actually helps them realize identity and we become the midwife This book offers another path to deal with non state challenges one that does not further weaken us     *The Advocate* ,2005-01-18 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States     Humanities ,2002-11     **Manga and the Representation of Japanese History** Roman Rosenbaum,2013 This edited collection explores how graphic art and in particular Japanese manga represent Japanese history The articles explore the representation of history in manga from disciplines that include such diverse fields as literary studies politics history cultural studies linguistics narratology and semiotics Despite this diversity of approaches all academics from these respective fields of study agree that manga pose a peculiarly contemporary appeal that transcends the limitation imposed by traditional approaches to the study and teaching of history The representation of history via manga in Japan has a long and controversial historiographical dimension Thereby manga and by extension graphic art in Japanese culture has become one of the world s most powerful modes of expressing contemporary historical verisimilitude The contributors to this volume elaborate how manga and by extension graphic art rewrites reinvents and re imagines the historicity and dialectic of bygone epochs in postwar and contemporary Japan Manga and the Representation of Japanese History will be of interest to students and scholars of Asian studies Asian history Japanese culture and society as well as art and visual culture     *The First Freedoms and America's Culture of Innovation* Narain D. Batra,2013-10-18 This is a book about the dynamics of the aspirational society It explores the boundaries of permissible thought deviations and transgressions that create constant innovations When confronted with a problem an innovative mind struggles and brings forth something distinctive new ideas new inventions and new programs based on unconventional approaches to solve the problem But this can be done only if the culture creates large breathing spaces by leaving people alone not as a matter of state generosity but as something fundamental in being an American Consequently the Constitutional mandate of Congress shall make no law has encouraged fearless speech unrestrained thought and endless experimentation leading to newer developments in science technology the arts and not least socio political relations Most of all the First Freedoms liberate the mind from irrational fears and encourage an environment of divergent thinking non conformity and resistance to a collective mindset The First Freedoms encourage Americans to be iconoclastic to be creatively crazy to be impure thus enabling them to mix and re mix ideas to design new technologies and cultural forms and platforms anything from experimental social relations and big data explorations to electing our first black president     *Identifying Marks* Jennifer Putzi,2012-06-01 What we know of the marked body in nineteenth century American literature and culture often begins with The Scarlet Letter s Hester Prynne and ends with Moby Dick s Queequeg This study looks at the presence of marked men and women in a more challenging array of canonical and lesser known works including exploration narratives romances and frontier novels Jennifer Putzi shows how tattoos scars and

brands can function both as stigma and as emblem of healing and survival thus blurring the borderline between the biological and social the corporeal and spiritual Examining such texts as Typee Uncle Tom s Cabin Captivity of the Oatman Girls The Morgesons Iola Leroy and Contending Forces Putzi relates the representation of the marked body to significant events beliefs or cultural shifts including tattooing and captivity romantic love the patriarchal family and abolition and slavery Her particular focus is on both men and women of color as well as white women in other words bodies that did not signify personhood in the nineteenth century and thus by their very nature were grotesque Complicating the discourse on agency power and identity these texts reveal a surprisingly complex array of representations of and responses to the marked body some that are a product of essentialist thinking about race and gender identities and some that complicate critique or even rebel against conventional thought *Jacaranda History Alive 8 Victorian Curriculum, 3e learnON and Print* Robert Darlington,2025-11-24 [Mother Jones Magazine](#) ,1992-03 Mother Jones is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues [Arab and Muslim Science Fiction](#) Hosam A. Ibrahim Elzembely,Emad El-Din Aysha,2022-04-04 How is science fiction from the Arab and Muslim world different than mainstream science fiction from the West What distinctive and original contributions can it make Why is it so often neglected in critical considerations of the genre While other books have explored these questions all have been from foreign academic voices Instead this book examines the nature genesis and history of Arabic and Muslim science fiction as well as the challenges faced by its authors in the authors own words These authors share their stories and struggles with censors recalcitrant publishers critics the book market and the literary establishment Their uphill efforts with critical contributions from academics translators and literary activists will enlighten the sci fi enthusiast and fill a gap in the history of science fiction Topics covered range from culture shock to conflicts between tradition and modernity proactive roles for female heroines blind imitation of storytelling techniques and language games *Popular Mechanics* ,2000-01 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it s practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle **Militant Visions** Elizabeth Reich,2016-08-01 Militant Visions examines how from the 1940s to the 1970s the cinematic figure of the black soldier helped change the ways American moviegoers saw black men for the first time presenting African Americans as vital and integrated members of the nation In the process Elizabeth Reich reveals how the image of the proud and powerful African American serviceman was crafted by an unexpected alliance of government propagandists civil rights activists and black filmmakers Contextualizing the figure in a genealogy of black radicalism and internationalism Reich shows the evolving images of black soldiers to be inherently transnational ones shaped by the displacements of diaspora Third World revolutionary philosophy and a legacy of black artistry and performance Offering a nuanced reading of a figure that was simultaneously conservative and radical

Reich considers how the cinematic black soldier lent a human face to ongoing debates about racial integration black internationalism and American militarism Militant Visions thus not only presents a new history of how American cinema represented race but also demonstrates how film images helped to make history shaping the progress of the civil rights movement itself **The Economist** ,2004 **Los Angeles Magazine** ,2005-03 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian **Night Draws Near** Anthony Shadid,2005-09-07 Now drawing on Iraqi history and travels elsewhere in the Arab world Shadid weaves together an epic narrative that shows how Iraq oversimplified by those who perceived it merely as a nation victimized by a repressive despot was transformed in unexpected ways by the fall of Saddam and the arrival of the Americans Night Draws Near illustrates the dramatic unforeseen consequences that the U S invasion unleashed in this wounded but resilient nation where the present is shaped by remembered glories of the past the horrors of recent wars and new resentments toward the West BOOK JACKET **Eritrea's Gold Rush** Charlotte Touati,2025-10-02 Leading Horn of Africa expert Charlotte Touati exposes the role played by Canadian gold mining company Nevsun and other global actors in propping up the regime of Isayas Aferwerki one of Africa s most dangerous dictators In so doing Touati shows how global capital networkshelp perpetuate economic and political instability in the Horn of Africa which in turn is fostering violence and volatility throughout other parts of the world Using a narrative framework and a core cast of characters to help guide non specialist readers through her findings Touati explains the enormous significance of how Nevsun partnered with Aferwerki to open the Bisha gold mine and save his regime from bankruptcy As Touati relates when Eritrean refugees later claimed they were conscripted to work in the mines without pay and abused as part of their National Service Nevsun hired lobbyists to defend Eritrea s actions and cast the very notion of human rights as a Western Trojan horse Australian Chinese and Russian actors gradually became involved and philological analysis shows that the propaganda and disinformation campaigns of the infamous Russian Wagner Group ultimately stem from the rhetoric of Aferwerki and his lobbyists Ultimately this violently anti Western rhetoric was injected into a pan Africanist discourse to become an ideological and rhetorical toolbox It was used to prevent any intervention on behalf of Eritreans trapped in their own country or Tigrayans genocided in neighboring Ethiopia in the name of sovereignty and also to legitimize new conflicts throughout the Sahel and the rest of Africa s notorious Coup Belt It takes on even wider global dimensions when we consider the ongoing crisis around the Red Sea ports which Eritrea controls and the question of the influence of the Gulf States in the Horn of Africa **Los Angeles Magazine** ,2003-11 Los Angeles magazine is a regional magazine of national stature Our
