Opening Up Opening Up:

Opening Up Education Toru Iiyoshi, M.S. Vijay Kumar, 2010-09-24 Experts discuss the potential for open education tools resources and knowledge to transform the economics and ecology of education Given the abundance of open education initiatives that aim to make educational assets freely available online the time seems ripe to explore the potential of open education to transform the economics and ecology of education Despite the diversity of tools and resources already available from well packaged course materials to simple games for students self learners faculty and educational institutions we have yet to take full advantage of shared knowledge about how these are being used what local innovations are emerging and how to learn from and build on the experiences of others Opening Up Education argues that we must develop not only the technical capability but also the intellectual capacity for transforming tacit pedagogical knowledge into commonly usable and visible knowledge by providing incentives for faculty to use and contribute to open education goods and by looking beyond institutional boundaries to connect a variety of settings and open source entrepreneurs These essays by leaders in open education describe successes challenges and opportunities they have found in a range of open education initiatives They approach from both macro and micro perspectives the central question of how open education tools resources and knowledge can improve the quality of education The contributors from leading foundations academic institutions associations and projects discuss the strategic underpinnings of their efforts first in terms of technology then content and finally knowledge They also address the impact of their projects and how close they come to achieving a vision of sustainable transformative educational opportunities that amounts to much more than pervasive technology Through the support of the Carnegie Foundation for the Advancement of Teaching an electronic version of this book is openly available under a Creative Commons license at The MIT Press Web site <http://mitpress.mit.edu> Contributors Richard Baraniuk Randy Bass Trent Batson Dan Bernstein John Seely Brown Barbara Cambridge Tom Carey Catherine Casserly Bernadine Chuck Fong Ira Fuchs Richard Gale Mia Garlick Gerard Hanley Diane Harley Mary Huber Pat Hutchings Toru Iiyoshi David Kahle M S Vijay Kumar Andy Lane Diana Laurillard Stuart Lee Steve Lerman Marilyn Lombardi Phil Long Clifford Lynch Christopher Mackie Anne Margulies Owen McGrath Flora McMartin Shigeru Miyagawa Diana Oblinger Neeru Paharia Cheryl Richardson Marshall Smith Candace Thille Edward Walker David Wiley *Opening Up* James Farrer, 2002-05-29 More and more men and women in China are having sex before marriage creating a new youth sex culture based on romance leisure and free choice Farrer explores this change by tracing the basic elements in talk about sex and sexuality in Shanghai **Reform, Opening-up and China's Changing Role in Global Governance** Yuyan Zhang, 2021-02-08 This book looks back to 40 years ago for the whole history of China's reform and opening up and focuses on the role change of China in the relationship with outside world In the first half part the author explores China's economic reform and opening up policy from theoretical analysis and systematic interpretation In the second part the author aims to present how China's international roles have changed in

recent years and the Chinese appeal and purpose of participating in and improving global governance procedure The author answers the question of why China has obtained miraculous achievements after its reform and opening up from academic perspective and provides representative cases with profound but not obscure theoretical interpretation It is a must read for anyone who is interested in contemporary China s economy and foreign affairs *Reform and Opening Up, the Innovative Development of Ideology and Its Education* Fu Wei,2021-07-23 As a province of our country how does Guangdong support the idea of working together to build a human community with a shared future It is a question worthy of our deep thinking The guiding opinions came at a time when General Secretary Xi s important instructions for Guangdong s work General secretary Xi Jinping asked Guangdong to take the lead in the four areas It undoubtedly pointed out the direction for Guangdong to continue to play an important role in the construction of socialism with Chinese characteristics Only in this way can we make due contributions to the cause of Reform and Opening up and then to the cause of Working Together to Build a Human Community with A Shared Future The original aspiration of Working Together to Build a Human Community with A Shared Future lies in the pursuit of peace and development which is the common aspiration of all mankind for more than 100 years Xi Jinping said We should draw on the lessons of history Historian told us long ago that rapid economic development makes social reform inevitable but people tend to support the former while resisting the latter In this process China has been in the forefront of the world in many areas This kind of courage boldness and achievement in the forefront of the world is not only reflected in the proposition of working together to build a human community with a shared future but also in the national economic strength scientific and technological progress cultural soft power and other fields that support this great cause

Opening Up Knowledge Production Through Participatory Research? Jakob Rupert Friederichsen, 2009 Originally presented as the author's thesis doctoral University of Hohenheim 2008

Open Up, Education! Adam

Haigler,Ben Owens,2018-12-07 Would you rather people saw you as open or closed minded The answer should be obvious Why is it then that we tend to allow our legacy systems in education to be closed when they clearly don t enable the same level of performance as open ones This phenomena is well established in education where many educators tend towards isolation in fighting and hoarding resources from each other Meanwhile students often have lack a clarity of purpose in terms of how what they are working on relates to things they care about in the wider world Stuck inside an unengaging status quo many students see doing school as irrelevant to their interests and ambitions This book is the antidote to this closure from the classroom to system wide policy It is a call to action for educators who want to become relentless collaborators networked with professionals in and outside the school They are then poised to quicken the pace of innovation through accessing the endless supply of free knowledge available to them This is the definitive resource on how to create an Open Way Learning ecosystem in your school district or region

Economic Lessons from China's Forty Years of Reform and Opening-up David Daokui Li,2021-03-26 This book first shows that the past 40 years of China s economic reform and opening up represents the greatest magnitude of economic growth in history Based on field trips extensive and intensive interviews and literature surveys this book argues that there are five general lessons for a rapid growing economy from China s economic reform and opening up all in the area of the relationship between the government and the economy First the local governments need to be incentivized to help rapid entry and development of enterprises Second local governments need to be incentivized to help rapid land conversion from agricultural to non agricultural Third financial deepening is vital that is inducing households to hold more and more financial assets in local currency Financial deepening is essential to convert savings into investments This requires financial stability which is crucial Fourth the learning through opening up is the key to endogenous economic growth The fundamental benefit of opening up is learning rather than enjoying comparative advantage The fifth and final lesson from China is that the central government must proactively manage the macroeconomy The rationale is that enterprises compete with each other in games of industrial organization In order to resolve this problem proactive measures including market oriented means administrative orders and reform measures should be implemented Overall the main lesson from China s past 40 years of reform and opening up is that proper incentives and behavior of the government local and central are important for economic growth China has been conducting reforms in this regard and as a result the government more or less has been playing the role of a helping hand regarding economic growth although China s economic system is far from perfect and many reforms are still needed

China's Campaign to 'Open Up the West' David S. G.
