

Opening speech

by Anne Husebekk, rector of UiT The Arctic University of Norway

Dear participants at the UiT Digital Humanities Conference!

Welcoming guests to a conference hosted by UiT is one of my favourite things to do as rector! It is a clear and concrete manifestation of one of the most important things that we as academics do; presenting the most recent knowledge in a field of research, and discussing these findings with colleagues from around the world.

Welcoming guests to a conference on the second day of the conference is a bit more unusual... I would definitely have preferred to have been here yesterday, but sometimes duty calls, and chairing a meeting of the board of the university tends to get top priority.

While yesterday was focused primarily on Digital Humanities, today will be mainly about Scholarly Editing.

I am particularly happy (and proud!) that you've had the opportunity to learn more about some of the projects in this field here at UiT:

The Norwegian Historical Data Centre, a national institution hosted by the Faculty of Humanities, Social Science and Education working to computerize Norwegian censuses from 1865 onwards, as well as parish registers and other sources from the 18th and 19th centuries. In effect this will build a national population registry from 1800 to the present day - a unique tool for further research.
<http://www.rhd.uit.no/nhdcs/hgr.html>

Gjellatekno, Centre for Saami language technology at the University of Tromsø, where cutting-edge linguistic and computational research on the analysis of Saami and other morphologically-rich languages is combined with the development of practical applications, such as dictionaries or translation software.

Digital Tools in Music Technology Education and The Wittgenstein Archives are two of the other initiatives that will be presented - as will be the CLARIN and DARIAH research infrastructures, both of which UiT participate in.

CLARIN <https://www.clarin.eu/content/clarin-in-a-nutshell>
DARIAH <https://www.dariah.eu/>

Digitalisation is an aspect of research (and education) that will be increasingly important, and I am proud to say that even though Norway is a bit of a "slow starter" in this field, UiT is at the national forefront, and an active partner in international collaboration.

Daily Report, Foreign Radio Broadcasts United States. Central Intelligence Agency,1962 **Far East Rural Youth Conference, February 11-22, 1957, Bangkok, Thailand** ,1957 Neighborhood Youth Corps First National Conference Report, 1966 United States. Department of Labor,1966 **Mahathir's Islam** Sven Schottmann,2018-09-30 Mahathir Mohamad's legacy as Malaysia's longest serving prime minister 1981-2003 is deeply controversial His engagement with Islam the religion of just over half Malaysia's population has often been dismissed as partisan maneuvering Yet his willingness to countenance a more prominent place for Islam in government and society is what distinguished him from other modernist politicians and his instinct to set Malaysian politics against the backdrop of the wider Muslim world was politically astute Author Sven Schottmann argues that Mahathir's transformative effect on Malaysia can only be fully appreciated if we also take him seriously as one of the postcolonial Muslim world's most significant political thought leaders Schottmann sees Mahathir's representations of Islam as a relatively coherent discourse that can legitimately be described as Mahathir's Islam This discourse contains Mahathir's assessment of the economic political and sociocultural problems facing the contemporary Muslim world and the range of solutions and corrective measures that he proposed Muslims should adopt His ideas are fraught with flaws and contradictions On the one hand he emphasized the individualistic egalitarian pluralistic democratic and dynamic qualities of Islam On the other his government enacted legislation and acquiesced in the activities of religious bodies that curtailed religious freedoms of both Muslims and non Muslims His ideas contributed to Malaysia's worsening state of interethnic relations yet his insistence that every Muslim had the right to speak for Islam may have paradoxically prepared the ground for a future democratization of Malaysian politics Mahathir's Islam is based on rigorous analysis of Mahathir's speeches interviews and writings which the author is able to link to parallel processes elsewhere in the Muslim world Indonesia the Middle East Pakistan Turkey and diaspora communities in the West Mahathir's Islamic discourse Schottmann suggests must be read against the wider late twentieth century resurgence of religion in general and the post 1970s Islamic revival in particular Balanced in approach and engagingly written this book will be of interest to scholars and students of political science religious studies and others interested in Malaysia Southeast Asia or Mahathir himself

Mbeki and After Daryl Glaser,2010-10-01 For nearly ten years indeed more if we include his period of influence under Mandela's presidency Thabo Mbeki bestrode South Africa's political stage Despite attempts by some in the new ANC leadership to airbrush out his role there can be little doubt that Mbeki was a seminal figure in South Africa's new democracy one who left a huge mark in many fields perhaps most controversially in state and party management economic policy public health intervention foreign affairs and race relations If we wish to understand the character and fate of post 1994 South Africa we must therefore ask What kind of political system economy and society has the former President bequeathed to the government of Jacob Zuma and to the citizens of South Africa generally This question is addressed head on here by a diverse

range of analysts commentators and participants in the political process Amongst the specific questions they seek to answer What is Mbeki s legacy for patterns of inclusion and exclusion based on race class and gender How if at all did his presidency reshape relations within the state between the state and the ruling party and between the state and society How did he reposition South Africa on the continent and in the world This book will be of interest to anyone wishing to understand the current political landscape in South Africa and Mbeki s role in shaping it *Sixty Years Between East and West* Dr. Ahmad Totonji,2023-07-01 This book is an extraordinary account of a man s vision of a life that for over six decades successfully championed the betterment of Muslim youth and communities the world over Totonji a lone voice with little training would become an inspiration for others and a powerful fundraiser From a humble few hundred dollars of his own money and an efficient team of like minded students he ultimately established one of the largest networks of local and international organisations in the world travelling to more than 130 countries over the course of decades to render help wherever it was needed Along that journey he met some eminent personalities including Dato Anwar Ibrahim current Prime Minister of Malaysia Malcolm X and Muhammad Ali His impact on others from East to West is immeasurable As such this book is not about Totonji but his work what faith passion drive and determination can achieve In it he shares essential spiritual and ethical leadership principles in the hope that others draw valuable lessons from all he has learned and live the experience with him Seeking no praise and no gain Allah and prayer was his first priority service to others his second and all else third

Annual Report of the Interdepartmental Committee on Children and Youth United States. Interdepartmental Committee on Children and Youth,1949 **Socialism and War** Helen Graham,1991-06-28 This book recovers the lost history of Spanish socialism during the turbulent years of the Civil War 1936 39 Just as the energy of the socialist movement had sustained the pre war Second Republic as an experiment in reform so too it underwrote the Republican war effort in the crucial years of the conflict which would determine Spain s long term future Leading Socialist Party PSOE cadres formed the bedrock of the government while thousands of Party and union militants helped bear the tremendous weight of the war effort The role of the PSOE in the construction of Republican political unity during the Civil War was pivotal Yet paradoxically previous accounts of wartime Republican politics have virtually written the PSOE out of the script by concentrating exclusively on the fierce ideological dispute between anarchists and communists But the key issues of revolution and State power marked all the forces in Republican Spain none more so than the Socialist movement As the traditional party of the working class and the only mass party in Spain as late as 1931 PSOE militants were to be found on both sides of the revolutionary reformist divide which split fatally the Republican forces during the Civil War The PSOE s disintegration was a function of that of the Republic itself but the reverse was no less true The book investigates the responses of organised socialism to the complex issues raised by the conflict as it charts the PSOE s devastating experience of political power and desperate crisis in a war it could not win *Opportunity* ,1944 [A Political History of the International Union of Socialist](#)

Youth 1907-1917 Patrizia Dogliani, 2023-04-08 This book represents a valuable contribution to the history of the Socialist Second International and more generally of European socialism between the Great Depression of the 1880s and WWI. It comes to fill a gap in the scholarship insofar as it investigates the history of the Socialist Youth International. During the first phase of the making of socialist parties, this organization was in charge of the political and cultural education of the proletarian youth. Capitalizing on an approach based on social quantitative and political history and on an analysis of mentalities and languages, the book reconstructs the many-sidedness of the school of recruits of the social democratic and revolutionary movements. The working conditions of youth in Europe, its unionization and economic struggles, the fight against militarism, the pedagogical work, the internationalism and the commitment to maintain peace and the attitude of young militants towards Bolshevik revolution are some of the themes investigated in the book. It also clarifies the role and the engagement with the issue of the new generation shown by prominent figures of Marxism such as Karl Liebknecht, Jean Jaurès, Henri De Man, Willi Münzenberg, Henriette Roland Holst and Robert Danneberg. Finally, the book constitutes also a page of European social and political history reconstructed through the history of the various youth socialisms and their relationship with the Marxist tradition.

Appearances and Activities of Leading Personalities of the People's Republic of China United States. Central Intelligence Agency, 1973 *Appearances and Activities of Leading Personalities of the People's Republic of China, 1 January-31 December 1973*, 1974 *Young Worker* Max Shachtman, Nat Kaplan, 1922 *Building Socialism* Yiannis Kokosalakis, 2023-05-25 By placing the party grassroots at the centre of its focus, *Building Socialism* presents an original account of the formative first two decades of the Soviet system. Assembled in a large network of primary party organisations, PPO, the Bolshevik rank and file was an army of activists made up of ordinary people. While far removed from the levers of power, they were nevertheless charged with promoting the Party's programme of revolutionary social transformation in their workplaces, neighbourhoods and households. Their regular meetings, conferences and campaigns have generated a voluminous source base. This rich material provides a unique view of the practical manifestation of the Party's revolutionary mission and forms the basis of this insightful new narrative of how the Soviet republic functioned in the period from the end of the Russian Civil War in 1921 to its invasion by Nazi Germany in 1941.

Governor's Planning Committee for the 1960 White House Conference on Children and Youth,1960 *Youth Development in Identity Societies* James E. Cote,2018-10-31 This book explores the causes and consequences of the contradictions in young people s lives stemming from the affluence purpose paradox a lack of purpose in life among many of those living in the most affluent societies in human history This paradox is endemic to identity societies where people experience a choice contingent life course and is examined using an interdisciplinary approach largely with an integration of developmental psychology and sociology but also using historical anthropological economic and political perspectives The transition to adulthood is now commonly a prolonged process with young people facing a number of psychological challenges and sociological obstacles in their identity formation Challenges include difficulties in making prudent choices about goals Obstacles involve cross pressures in the wider society as well as in educational institutions Consequently many youth experience their education as alienating and stressful rather than as an opportunity for personal development Those without a sense of purpose have more difficulties with their identity formation that can produce symptoms of anxiety and depression The current student mental health crisis is examined in this context An additional challenge is an ambiguously defined adulthood Young people who are confused about appropriate adult roles often value hedonistic activities rooted in narcissism and materialism rather than in more fulfilling long term goals Conversely those who are agentic in their personal development can thrive in adulthood especially when they combine agency with generativity This book ends with a series of recommendations for researchers and policy makers to help youth cope with the affluence purpose paradox
