Psychodynamic Diagnosis OPD-2 OPD Task Force, 2008-01-01 Operationalized Psychodynamic Diagnosis OPD is a form of multiaxial diagnostic and classification system based on psychodynamic principles analogous to those based on other principles such as DSM IV and ICD 10 The OPD is based on five axes I experience of illness and prerequisites for treatment II interpersonal relations III conflict IV structure and V mental and psychosomatic disorders in line with Chapter V F of the ICD 10 After an initial interview lasting 1 2 hours the clinician or researcher can evaluate the patient s psychodynamics according to these axes and enter them in the checklists and evaluation forms provided The new version OPD 2 has been developed from a purely diagnostic system to include a set of tools and procedures for treatment planning and for measuring change as well as for determining the appropriate main focuses of treatment and developing appropriate treatment strategies

Healthy China: Deepening Health Reform in China The World Bank, World Health Organization, 2019-01-29 The report recommends that China maintain the goal and direction of its healthcare reform and continue the shift from its current hospital centric model that rewards volume and sales to one that is centered on primary care focused on improving the quality of basic health services and delivers high quality cost effective health services With 20 commissioned background studies more than 30 case studies visits to 21 provinces in China the report proposes practical concrete steps toward a value

based integrated service model of healthcare financing and delivery including

- 1 Creating a new model of people centered quality integrated health care that strengthens primary care as the core of the health system This new care model is organized around the health needs of individuals and families and is integrated with higher level care and social services
- 2 Continuously improve health care quality establish an effective coordination mechanism and actively engage all stakeholders and professional bodies to oversee improvements in quality and performance
- 3 Empowering patients with knowledge and understanding of health services so that there is more trust in the system and patients are actively engaged in their healthcare decisions
- 4 Reforming public hospitals so that they focus on complicated cases and delegate routine care to primary care providers
- 5 Changing incentives for providers so they are rewarded for good patient health outcomes instead of the number of medical procedures used or drugs sold
- 6 Boosting the status of the health workforce especially primary care providers so they are better paid and supported to ensure a competent health workforce aligned with the new delivery system
- 7 Allowing qualified private health providers to deliver cost effective services and compete on a level playing field with the public sector with the right regulatory oversight and
- 8 Prioritizing public investments according to the burden of disease where people live and the kind of care people need on a daily basis

Keating, Maryann O. Keating, 2017-05-24 The cost benefit technique is so often referenced in government policy that a correct understanding is necessary for officials entrusted with public decisions This book presents essential elements for understanding interpreting and conducting cost benefit analysis CBA in the context of local government If you're charged with preparing numerical analyses to assess the worthiness of a specific policy proposal you'll need this book to understand how costs and benefits are identified and analyzed in terms of economic efficiency and resource allocation CBA is rooted in and has little or no value apart from the economic concepts of cost and resource efficiency This book is designed to teach the correct use and interpretation of cost benefit analysis while advising you of CBA's limitations and pitfalls Case studies presented in the final chapters of this book

represent typical proposals confronted by local officials The book also includes instructions for using computer spreadsheets to build basic cost benefit models and an appendix on the step by step process of discounting future costs and benefits

How to Operationalize Inequality Issues in Country Work International Monetary Fund. Strategy, Policy, & Review Department, International Monetary Fund. Fiscal Affairs Dept., 2018-06-13 Economic inclusion is the broad sharing of the benefits of and the opportunities to participate in economic growth It embodies equitable outcomes related to financial well being as well as opportunities in access to markets and resources and protects the vulnerable Economic inclusion is a high priority issue for the IMF High inequality is negatively associated with macroeconomic stability and sustainable growth core to the Fund s mandate in promoting systemic balance of payments and domestic stability Some macroeconomic policies and reforms may have adverse distributional implications which in turn can undermine public support for reforms And interest in distributional issues and inequality has grown among the membership increasing the demand for the Fund to work in these areas While the IMF has long recognized the importance of inequality issues it has adopted in the recent years a more systematic and structured approach In this regard a pilot initiative on inequality was launched in 2015 with the third wave of countries currently participating Once this wave is concluded staff proposes to incorporate the analysis of inequality related issues into broader country work where relevant This note provides an overview of good practices and resources available to staff The note is consistent with the 2015 Guidance Note for Surveillance Under Article IV Consultations and draws also on the 2013 Guidance Note on Jobs and Growth Issues in Surveillance and Program Work It provides examples of good practices with respect to coverage of inequality related issues in country reports and lays out the resources available to country teams both with respect to existing analytical work as well as the availability of data and tools Coverage of inequality issues in staff reports should be selective and calibrated to the degree of macroeconomic significance All teams should consider whether inequality issues are relevant taking into account also the authorities priorities but with no presumption that inequality will be covered everywhere or every year and in depth coverage anticipated in only a limited number of cases any year Staff should point to macroeconomic significance where it exists with analysis focused on aspects with economic implications and specific policy advice limited to areas where there is Fund expertise
