Opposable Mind Winning Through Integrative Thinking:

The Opposable Mind Roger L. Martin, 2009 The Opposable Mind promotes the idea that everyone can benefit from integrative thinking which can be taught The book reflects many actionable ideas written in a tone that makes change seem easy

The Opposable Mind Roger L. Martin, 2009 If you want to be as successful as Jack Welch Larry Bossidy or Michael Dell read their autobiographical advice books right Wrong says Roger Martin in The Opposable Mind Though following best practice can help in some ways it also poses a danger By emulating what a great leader did in a particular situation you ll likely be terribly disappointed with your own results Why Your situation is different Instead of focusing on what exceptional leaders do we need to understand and emulate how they think Successful businesspeople engage in what Martin calls integrative thinking creatively resolving the tension in opposing models by forming entirely new and superior ones Drawing on stories of leaders as diverse as AG Lafley of Procter Gamble Meg Whitman of eBay Victoria Hale of the Institute for One World Health and Nandan Nilekani of Infosys Martin shows how integrative thinkers are relentlessly diagnosing and synthesizing by asking probing questions including What are the causal relationships at work here and What are the implied trade offs Martin also presents a model for strengthening your integrative thinking skills by drawing on different kinds of knowledge including conceptual and experiential knowledge Integrative thinking can be learned and The Opposable Mind helps you master this vital skill

Pivot Thinking and the Differential Sharing of Information Within New Product Development Teams Mark F. Schar,2011 Functionally diverse team members bring unique sets of cognitive styles to team interaction it is less clear how these differences affect the exchange of critical mutually required team information This cognitive diversity in new product design NPD teams increases the likelihood that individual team members will perceive the team s task differently leading to cognitive representational gaps between teammates interpretations of both the task and potential solution This research shows that cognitively diverse NPD teams develop representational gaps based on individual cognitive preferences between convergent and divergent information types and these cognitive preferences influence both task definition and solution A second experiment shows that team leadership that bridges cognitive preferences called pivot thinking can overcome this limiting behavior Understanding these general mechanisms deepens understanding of group information processing and conflict in cognitively diverse NPD teams Implications for design education are discussed
