The Molecular Basis of Neuropathology Alan Nelson Davison, Robert Henry Stewart Thompson, 1981

Current Topics in Microbiology and Immunology Klas Kärre, 1967

Our understanding of the function of natural killer NK cells has dramatically changed in recent years The discovery of NK receptors specific for MHC class I molecules and the study of the role of co stimulatory and adhesion molecules have led to an understanding of how NK cells recognize tumor and virally infected cells that have lost expression of MHC class I molecules or have altered distribution of normal cell surface molecules Such recognition events lead to intracellular signals which can be either stimulatory or inhibitory This book provides an insight into how NK cells develop how they learn to

distinguish altered cells from normal cells and into their biological role in controlling infections and tumors *Reviews in Vaccination Programmes* Chiara de Waure ,Maarten Jacobus Postma,2025-08-19 Infectious diseases continue to pose significant global health threats highlighting the crucial role of vaccination in safeguarding public health Vaccination has been one of the most successful public health interventions in history leading to the eradication or significant reduction of many life threatening diseases Vaccinations are provided within programmes that vary between and within countries and also in the light of the different organization of healthcare systems As new infectious agents emerge and existing ones evolve it becomes imperative to continually review monitor and update vaccination programmes to ensure their relevance and success In order to do so several aspects should be considered concerning not only vaccines properties but also the burden and relevance of diseases organizational aspects public response and sustainability This Research Topic aims to collect review articles on the latest developments in vaccination policies and strategies focusing on how they were informed developed implemented and monitored and on their contribution to population health and well being Clinical Virology Douglas D.
