Media Planning Buying In The 21st Century Second Edition:

Media Planning & Buying in the 21st Century Ronald D. Geskey, 2013 Want a job in advertising Well the marketing and media revolution continues unabated Advertising media planning also continues in its transition to integrated marketing communications Media Planning Buying in the 21st Century is the most comprehensive up to date and easy to read media book available Introducing the Second Edition January 2013 of Media Planning Buying in the 21st Century Written for college students and early career professionals the book is a how to media planning buying textbook and reference The second edition is updated with new industry trends for marketing and markets traditional and digital media including internet marketing social media and a whole new chapter on Media Sales a major source of ad jobs Says Lou Schultz a one man media think tank and former CEO of Interpublic s Initiative Media Ron s book is a remarkable effort to support the way academia must evolve if it is to keep pace with business practices It is difficult to write an introductory book on any subject let alone media without becoming entangled in the tapestry and constraints of history I think Ron has succeeded He has changed the framework of the discussion from what I would call pigeonhole thinking to an ecumenical presentation of how the future will shape the perception and use of advertising and media in the 21st Century The book s 560 pages provides instructor s with a lot of content and flexibility in designing classes The contents include Welcome to the Future The business of media The 21st century revolution in marketing markets media Media math review Audience concepts all media Understanding media costs Media Impact Media in marketing Communications roles Target market priorities Geographic strategies Timing strategies The tools of IMC Traditional media Internet marketing Social media marketing Building the media plan Media buying negotiations Buying broadcast media Buying print media Buying online media Guerrilla media buying Media sales The future Instructor Flexibility Because the book is a hefty 550 pages a workbook and reference are also available it gives profs the flexibility to emphasize the content that THEY judge to be most important for their students whether all material or emphasizing planning buying selling or new media Instructors can also supplement the text with a learn by doing workbook and a media reference which includes real world media costs Why did I Write this Book This book was written because there is not a really good media book available my opinion One fairly popular book caused my students to ask Where s the beef Another is so boring and disorganized that students are unable to comprehend the content All are out of date In the age of new media some authors have almost forgotten that media is primarily a marketing discipline Other books barely mention media buying which is at least half the importance of the function None give a paragraph to IMC or integration So here s why I decided to write my own book Media is a creative strategic marketing discipline and should be presented that way We are in an exciting period with change all around us We are in the midst of a 21st century revolution but no authors seem to have noted that fact other than the digital revolution Current books are not comprehensive e g barely mentioning the discipline of MEDIA BUYING which is at least half of the importance of the media function and have

somehow lost their marketing focus **Media Planning and Buying in the 21st Century Workbook** Ronald Geskey, 2013-01-20 Media Buying REVIEW QUESTIONSEach chapter includes questions that requires a degree of understanding for students to complete By referring back to the text if needed in order to complete questions we believe greater learning will take place EXERCISESThe workbook also contains many exercises which require students do demonstrate how to solve problems For example an exercise may involve calculating data about audiences costs impact levels in order to determine the best media options given assumptions Students are usually queried as to why they answered as they did MEDIA EVALUATIONS PLANSThere are several real world exercises which require students to complete real world media evaluations of the type that clients often send over to the agency The workbook also includes a case study which may be used to develop a full media plan MEDAIMThe workbook also provides access to an online model for media mix analysis For example the student might ask At a given budget budget input provided by student what would the the resulting reach and frequency and effective frequency be for different combinations of media *The Radio Station* John Hendricks, Bruce Mims, 2018-05-01 The Radio Station offers a concise and insightful guide to all aspects of radio broadcasting streaming and podcasting This book s tenth edition continues its long tradition of guiding readers to a solid understanding of who does what when and why in a professionally managed station This new edition explains what radio in America has been where it is today and where it is going covering the basics of how programming is produced financed delivered and promoted via terrestrial and satellite broadcasting streaming and podcasting John Allen Hendricks and Bruce Mims examine radio and its future within a framework of existing and emerging technologies The companion website is new revised with content for instructors including an instructors manual and test questions Students will discover an expanded library of audio interviews with leading industry professionals in addition to practice quizzes and links to additional resources *Keith's Radio Station* John Allen Hendricks, Bruce Mims, 2014-08-07 Keith s Radio Station offers a concise and insightful guide to all aspects of radio operations explaining the functions performed within every professionally managed station Now in its ninth edition this book continues its long tradition of guiding readers to a solid understanding of who does what when and why This new edition explains what radio in America has been where it is today and where it is going Covering the basics of how programming is produced financed and delivered across a spectrum of technologies including the newest technological trends such as streaming and podcasting satellite and HD Radio John Allen Hendricks and Bruce Mims argue that the future of radio remains bright and strong as it continues to evolve with emerging technologies New to this edition New and updated essays from industry leaders discussing how radio is evolving in an era of rapidly changing technology A thorough examination of Internet radio online music services and mobile listening devices An analysis of how new technologies have fragmented the advertising dollar A discussion of station website content and promotional usage of social media A revised examination of technologically advanced strategies used in traffic and billing departments Updated full color photos and
