Human Rights in Global Perspective Jon P. Mitchell, Richard A. Wilson, 2003-09-02 In the West we frequently pay lip service to universal notions of human rights But do we ever consider how these work in local contexts and across diverse cultural and ethical structures Do human rights agendas address the problems many people face or are they more often the imposition of Western values onto largely non Western communities Human Rights in a Global Perspective develops a social critique of rights agendas It provides an understanding of how rights discussions and institutions can construct certain types of subjects such as victims and perpetrators and certain types of act such as common crimes and crimes against humanity Using examples from the United States Europe India and South Africa the authors restore the social dimension to rights processes and suggest some ethical alternatives to current practice

Airplanes, the Environment, and the Human Condition Hans A. Baer, 2019-07-23 The number of airplane flights worldwide continues to grow and is one of the many drivers of climate change This book examines the aviation industry from an anthropological perspective focusing on the sector's environmental impact and the challenges facing attempts to shift to more sustainable solutions Hans Baer outlines how airplanes have become a key component of modern cultural and social life and how the world system has become increasingly dependent on them to function He critically examines current efforts to mitigate the climatic impact of the air travel and argues for a significant move away from air transport suggesting that such a shift may only be achieved through a more fundamental change in the world system

The War Machine and Global Health Merrill Singer, G. Derrick Hodge, 2010-01-16 In the contemporary world war rivals infectious disease as a global cause of morbidity and mortality Since the end of World War II there have been at least 160 wars around the world with as many as 25 million and probably many

more people killed most of them civilians Directly or indirectly war touches the lives of most people on the planet often with lasting and costly impact Framed by the holistic and ethnographically grounded theoretical perspective of critical medical anthropology and more broadly by the political economy of health this book of essays by leading medical anthropologists and other health social scientists carefully examines the global effects of war the war industry and the international weapons trade on human health and well being Further this book goes beyond offering a lively and readable account of a pressing health concern by critically analyzing the political and economic forces driving the war machine to inflict ever increasing levels of social suffering and loss of life *Exploring Medical Anthropology* Donald Joralemon, 2017-03-16 Now in its fourth edition *Exploring Medical Anthropology* provides a concise and engaging introduction to medical anthropology It presents competing theoretical perspectives in a balanced fashion highlighting points of conflict and convergence Concrete examples and the author's personal research experiences are utilized to explain some of the discipline's most important insights such as that biology and culture matter equally in the human experience of disease and that medical anthropology can help to alleviate human suffering The text has been thoroughly updated for the fourth edition including fresh case studies and a new chapter on drugs It contains a range of pedagogical features to support teaching and learning including images text boxes a glossary and suggested further reading

Medical Pluralism in the Andes Christine Greenway, Joan D. Koss-Chiino, Thomas Leatherman, 2003-09-02 *Medical Pluralism in the Andes* is the first major collection of anthropological approaches to health in the Andes for over twenty years Written in tribute to Libbet Crandon Malamud's pioneering work on Andean medicine this readable extensively illustrated and instructive book reflects the diversity of approaches in medical anthropology that have evolved during the past two decades Capturing the intricacies of health practice within the context of Andean social history cultural tradition community and folklore this is a remarkable and intimate chronicle of Andean culture and everyday life which will appeal across a wide range of readers from professional anthropologists to those interested in alternative medicines *Introducing Medical Anthropology* Merrill Singer, Hans Baer, Debbi Long, Alex Pavlotski, 2019-03-20

The third edition of *Introducing Medical Anthropology A Discipline in Action* provides students with a first exposure to the growing field of medical and health anthropology The narrative is guided by unifying themes First health oriented anthropologists are very involved in the process of helping to varying degrees to change the world around them through their work in applied projects policy initiatives and advocacy Second the authors present the fundamental importance of culture and social relationships in health and illness by demonstrating that illness and disease involve complex biosocial processes and that resolving them requires attention to a range of factors beyond biology Third through an examination of the issue of health inequality this book underlines the need for an analysis that moves beyond cultural or even ecological models of health toward a comprehensive biosocial approach Such an approach integrates biological cultural and social factors in building unified theoretical understandings of the origin of ill health while contributing to the building of effective and equitable

national health care systems NEW TO THIS EDITION All chapters have been updated or expanded NEW Chapter 8 The Biopolitics of Life Biotechnology Biocapital and Bioethics Revised text style for crisper language and livelier phrasing Added a brief signposting of chapter content at the beginning of each chapter and review questions about the key issues and concepts at the end of each chapter Expanded discussion of Zika Ebola gender and health PTSD and psychological anthropology geriatric health the contemporary vaccine controversy the internet and health and the health impacts of fracking and nuclear energy development Concluding chapter examines anthropologically informed strategies and visions for a healthier world

Special Treatment Anna Ruddock, 2021-07-06 The All India Institute of Medical Sciences AIIMS is iconic in the landscape of Indian healthcare Established in the early years of independence this enormous public teaching hospital rapidly gained fame for the high quality treatment it offered at a nominal cost at present an average of ten thousand patients pass through the outpatient department each day With its notorious medical program acceptance rate of less than 0.01% AIIMS also sits at the apex of Indian medical education To be trained as a doctor here is to be considered the best In what way does this enduring reputation of excellence shape the institution's ethos How does elite medical education sustain India's social hierarchies and the health inequalities entrenched within In the first ever ethnography of AIIMS Anna Ruddock considers prestige as a byproduct of norms attached to ambition aspiration caste and class in modern India and illustrates how the institution's reputation affects its students' present experiences and future career choices Ruddock untangles the threads of intellectual exceptionalism social and power stratification and health inequality that are woven into the health care taught and provided at AIIMS asking what is lost when medicine is used not as a social equalizer but as a means to cultivate and maintain prestige

Environmental Change and the World's Futures Jonathan Paul Marshall, Linda Connor, 2015-08-27 Climate change and ecological instability have the potential to disrupt human societies and their futures Cultural social and ethical life in all societies is directed towards a future that can never be observed and never be directly acted upon and yet is always interacting with us Thinking and acting towards the future involves efforts of imagination that are linked to our sense of being in the world and the ecological pressures we experience The three key ideas of this book ecologies ontologies and mythologies help us understand the ways people in many different societies attempt to predict and shape their futures Each chapter places a different emphasis on the linked domains of environmental change embodied experience myth and fantasy politics technology and intellectual reflection in relation to imagined futures The diverse geographic scope of the chapters includes rural Nepal the islands of the Pacific Ocean Sweden coastal Scotland North America and remote rural and urban Australia This book will appeal to researchers and students in anthropology sociology environmental studies cultural studies psychology and politics

Healing the Body Politic Sandra C. Smith-Nonini, 2010 *Healing the Body Politic* examines the contested place of health and development in El Salvador over the last two decades It recounts the dramatic story of radical health activism from its origins in liberation theology and guerrilla medicine during the third world country's twelve year

civil war through development of a remarkable popular health system administered by lay providers in a former war zone controlled by leftist rebels The ethnography contributes to the integration of medical and political anthropology by bringing the semiotics of health and the body to bear on cultural understandings of warfare the state and globalization
