Modern Catholic Social Teaching Kenneth R. Himes, 2018-01-02 Including contributions from twenty two leading moral theologians this volume is the most thorough assessment of modern Roman Catholic social teaching available In addition to interrogations of the major documents it provides insight into the biblical and philosophical foundations of Catholic social teaching addresses the doctrinal issues that arise in such a context and explores the social thought leading up to the modern era which is generally accepted as beginning in 1891 with the publication of Pope Leo XIII's Rerum Novarum The book also includes a review of how Catholic social teaching has been received in the United States and offers an informed look at the shortcomings and questions that future generations must address This second edition includes revised and updated essays as well as two new commentaries one on Pope Benedict XVI's encyclical Caritas in Veritate and one on Pope Francis's encyclical Laudato Si An outstanding reference work for anyone interested in studying and understanding the

key documents that make up the central corpus of modern Catholic social teaching      The Waterloo Companion Mark Adkin, 2001 There have been many books about Waterloo but never one to rival this in scale or authority The text based upon extensive research describes both the battle and the campaign that preceded it in detail drawing upon the first hand accounts of participants on all sides in order to give the reader a vivid feeling for the experiences of those who fought upon this most celebrated of all battlefields The many full color maps all specially commissioned for the book and the numerous diagrams and photographs the majority in color as well as sixteen pages of original paintings make the book a feast for the eyes and a collector's dream      **"The" Illustrated London News** ,1851      **Mediaeval British History** J. S. Lindsey, 1904
