artworks by Berthe Morisot douard Manet Claude Monet Pierre Auguste Renoir and others The Art of Parisian Chic explores
how women and artists in Impressionist Paris 1855 1885 crafted their public images to exploit and resist stereotypes French
societal expectations and beauty ideals shaped how women were seen and how they chose to present themselves in public
whether on the street in a photograph or in a portrait on the walls of the annual Paris Salon On Paris s broad new boulevards
and in its public parks and theaters women dressed to impress anonymous strangers as well as their friends They even
circulated aspirational photographs of themselves Looking at a rich array of visual sources from portraits to modern life
paintings and from photographs to fashion plates Justine De Young reveals how women were seen how they aspired to be
seen and how they navigated public life in Second Empire and Belle poque Paris This book considers how fashionable
feminine types made famous in books caricatures and paintings created a visual lexicon and stylistic guide for women Men
and women alike relied on these types cocotte mistress jeune veuve young widow amazone independent equestrienne
demoiselle de magasin shopgirl and Parisienne chic Parisian woman to judge the class character morality and worth of
strangers With a rich set of illustrations from the Impressionist canon and beyond The Art of Parisian Chic shows how
modern women used fashion and these stereotypes to construct and reinvent their identities Whitaker's Cumulative Book
List ,1952 Orientalism Revisited Ian Netton,2012-12-12 The publication of Edward Said s Orientalism in 1978 marks the
inception of orientalism as a discourse Since then Orientalism has remained highly polemical and has become a widely
employed epistemological tool Three decades on this volume sets out to survey analyse and revisit the state of the Orientalist
debate both past and present The leitmotiv of this book is its emphasis on an intimate connection between art land and
voyage Orientalist art of all kinds frequently derives from a consideration of the land which is encountered on a voyage or

pilgrimage a relationship which until now has received little attention Through adopting a thematic and prosopographical approach and attempting to locate the fundamentals of the debate in the historical and cultural contexts in which they arose this book brings together a diversity of opinions analyses and arguments
